AT BUHL, IDAHO

In way of background, the following is being restated:

During July, 1973, a law enforcement teletype message was received by the Bozeman, Montana, Police Department from the South Lake Tahoe, California, Police Department:

On July 12, 1973, an unidentified citizen stated approximately one and one-half weeks previous to that date he was hitchhiking on U. S. Highway #68 in Idaho when an unidentified individual picked him up. In the vehicle were two small boys and a little girl fitting the description of SUSAN MARIE JAEGER.

The driver said he was out of Buhl, Idaho, heading for Mountain Home, Idaho. The little girl passenger mentioned something about Three Forks, Montana, and seemed upset. This hitchhiker identified the vehicle only as a late model automobile, blue, two-door, with partial Montana License #28----.

On July 30, 1973, RICHARD A. FRAZIER, Chief of Police, Buhl Police Department, was questioned concerning this matter and could not identify the owner of the vehicle in question with Montana License number listed only as 28----- or the male driver who might fit the description of a resident of Buhl.

Also, on August 12, 1973, and August 22, 1973, [redacted] b6 b7C and longtime resident, [redacted] Buhl School System, School District #411, were contacted and could furnish no information, which might identify the vehicle in question or the family involved traveling possibly from Buhl to Mountain Home, Idaho.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

He first heard of the possible abduction of SUSAN JAEGER through an early morning radio news broadcast, which explained that this little girl, age approximately 7, had apparently been kidnapped during the early morning hours of that date from the Headwaters State Park, near Three Forks, Montana. He believed this radio broadcast was between 6:00 a.m., and 6:15 a.m., and possibly on a Monday, exact date unrecalled. He explained his bedroom contains an automatic clock radio which comes on approximately 6:00 a.m. In traveling to the construction site that morning it was necessary for him to pass the Headwaters State Park and could clearly see from the highway a great amount of activity, consisting of police officers, horses and later boats. He later heard through the community that victim SUSAN JAEGER had been camping with her parents in this state park and her tent had been cut during the night and she had apparently been abducted. He noted for the next several days this state park had an extensive amount of police activity apparently relating to searches in an effort to locate the victim and/or evidence connected with the case.

He said he has never received any information which might be of assistance in the investigation of this case relating to its solution. He has never heard anyone mention any name as a possible suspect in this case. He has visited the Headwaters State Park with his family on one occasion when he first moved to that area and this was for the purpose of having a picnic lunch.

Regarding his activities on Sunday, June 24, 1973, and Monday, June 25, 1973, he could not specifically recall but said his pattern was fairly standardized in that he would have remained home on Sunday with his wife and children or possibly have gone fishing with a member of his family. On Monday, June 25, 1973, he would have reported to work at the normal time and would have been in the company of [redacted] for most of the day. There is a possibility they may have traveled at lunch time to Three Forks, Montana, but often he carries his lunch with him. This may have been the case on Monday, June 25, 1973.

b6
b7C

He has never met the [redacted] did not know the victim, nor to the best of his information ever see her. Photographs of victim were exhibited to [redacted] and he readily recognized one of the photographs as being identical to a picture which appeared in the local paper in Montana. b6 b7C

He noted he was born and reared in Ishpeming, Michigan, and remained in that area until he was 27 years of age. He has heard of Farmington, Michigan, and believes it is a suburb of Detroit; however, he has never visited that city. He noted he had heard that victim's family was from that city.

[redacted] said he did not have anything to do with the abduction of victim SUSAN MARIE JAEGER nor has he any information as to who did this. He described this as a heinous crime and should any information whatsoever come to his attention regarding this case he would immediately furnish it to the FBI. b6 b7C

The following investigation was conducted by SA BYRON H. DUNBAR on July 31, 1973:

AT BOZEMAN, MONTANA

[redacted] "Detroit News," telephonically advised as follows: b6 b7C

A letter was received addressed to "Secret Witness" postmarked Detroit, Michigan, July 24, 1973, which stated to tell the JAEGERs to come back as soon as possible and they can have SUSIE back. SUSIE would be returned July 27, 1973, and in pencil was stated that "Your girl is okay, follow instructions." Instructions were to put the bills in a brown shopping bag and small bills with the JAEGERs home telephone number; that there is a state park near Utica Road east of Van Dyke Road in Detroit, Michigan; that in this park they were to cross the bridge and take the first path to the left, the money to be put on the left-hand side at 8:00 p.m., Friday, July 27, and that the JAEGERs would be called at 9:00 p.m. and told where to pick up the girl.

[redacted] advised that this letter had apparently been delayed in the mail room at the "Detroit News" and was not received until July 31, 1973. b6 b7C

[redacted] further advised that he has been in contact with the JAEGER family and they are planning to make another appeal through the news media asking for the person who has SUSIE or who made the telephone call to Three Forks, Montana, on July 2, 1973, to again establish a line of communication. b6 b7C

[redacted] advised that the letter referred to above was handprinted, many of the words were badly misspelled and he could furnish no other information pertaining to same, which he was holding to turn over to FBI Agents in Detroit, Michigan. b6 b7C

[redacted] advised that he had bought a Jeep from ROLFE AND WOOD CAR DEALERSHIP in Bozeman, Montana, and that this transaction took place in either July or August of 1971. [redacted] further stated that during the time he owned the Jeep, which was a little bit over a year, he had worked on it numerous times and had on several occasions had the Jeep pretty well stripped down with the seats out. Re report of SA BYRON H. DUNBAR, Butte, 8/20/73.

On 9/25/73, [redacted], advised at Miles City, Montana, that she received information from a source she feels is reliable locally that one [redacted] now residing on a small ranch in the Three Forks, Montana, area, should be considered a strong suspect in this matter since he is believed to be a mental case and since he moved from Miles City to Three Forks about eight years ago, just at a time when the first of the mysterious disappearances in the area came about. b6 b7C b7D

Informant states [redacted] has been single although he is a very attractive person and has always shown a propensity toward young children in a manner deemed to be over-patronizing insofar as a parent would be concerned. [redacted] is styled by the Informant as being outwardly calm but being extremely volatile. b6 b7C b7D

Informant described [redacted] as follows: b6 b7C b7D

Race	White
Sex	Male
Nationality	American
Age	Approximately 40 to 42 years

SA [redacted] Division 6, FBIHQ, stated b6
that SA [redacted] at FBIHQ had received a note concerning b7C
this case from a person who claimed to have camped at Trident. This person indicated that she was frightened of a camper at the site and mentioned it to the "ranger" in charge of the camp. She stated the ranger said this person was harmless, that he knew the person as a veteran (particular war not given), who regularly spent the summers at Trident and wintered in a national park somewhere in Arizona, and although there was a ten-day limit on remaining at the Trident camp, this veteran was allowed to remain all summer.

The caretaker stated this was allowed since he was living on a small disability pension. The correspondent (identity unknown to SA [redacted]) indicated this veteran b6
could well be considered a suspect in the JAEGER case and b7C
that possibly the caretaker had not furnished him as a suspect since the caretaker was violating the rules by allowing the veteran to remain longer than ten days each summer.

ESP no help to Susan

EKALAKA, Mont. (AP) — An eastern Montana sheriff says the advice of a California man turned up no trace of Susan Jaeger, a Farmington, Mich, girl apparently kidnaped from her family's camp tent last June.

Carter County Sheriff Vernon Preuss said he received a call Wednesday from a LaPuente, Calif., man who identified himself as Sam Wolfe. Preuss said Wolfe said he had had prior success in locating missing persons through extra-sensory means.

Preuss said the missing girl could be found in Carter County about 5 or 6 miles south of Mill Iron, Mont., a tiny community located just west of the Montana-North Dakota-South Dakota border.

Preuss quoted Wolfe as saying he had contacted the William Jaeger family in Farmington, Mich., and said the family had urged him to try to locate Susie.

Preuss said Wolfe told him the girl was "lying in a canyon in a timbered area 5 or 6 miles south of Mill Iron..." He said Wolfe told him he "believed she had fallen and was in bad shape physically, partly in water but not in danger of drowning..."

Two men flew over the area described Wednesday while men on horseback searched on the ground. On Thursday, riders from an area ranch joined Preuss and his deputies in combing the creek area. No trace of the girl was found.

Preuss said he realized the search was a longshot to begin with. He said the Jaeger family expressed appreciation for his efforts.

Susie Jaeger disappeared from a tent in the pre-dawn hours of June 26. The Jaegers were camped at the Missouri Headwaters State Monument near Three Forks. There has been no indication of her fate.

[redacted] further advised that investigation by his squad determined that criminal acts of violence or theft committed against members of the various motorcycle gangs are rarely reported to the law enforcement agencies. Instead the members usually take it upon themselves to "square accounts". In many instances of theft from one of the members it has been determined that the victim merely steals another motorcycle for himself, or has a gang member do it for him. Since this is the accepted retaliation, thefts are rarely reported to authorities. b6 b7C

AT LAS CRUCES, NEW MEXICO

The following investigation was conducted September 24, 1973, at Las Cruces, New Mexico, by SA [redacted] b6 b7C

[redacted] student at New Mexico State University, who is currently residing [redacted] b6 b7C advised his permanent address is [redacted] related that he worked during the summer of 1973 from the specific dates of May 29, to August 12, 1973, in Yellowstone National Park, Montana. He was stationed at the Old Faithful Inn and actually lived there in quarters provided by employee. He is the owner of a 1960 Volkswagen bug which has been converted into a "Baja style" dune-buggy with stripped fenders and certain stylized features.

His Volkswagen bears New Mexico license [redacted] b6 b7C and was observed to be parked in the front of [redacted] and is a grayish mixture of primer paint and rust.

[redacted] b6 b7C recalled that he had on June 25, 1973, went from the Old Faithful Inn in Yellowstone National Park to Bozeman, Montana, with his girl friend, [redacted] who also works at the Old Faithful Inn at Yellowstone National Park. He registered at the Gallatin Motel in Bozeman, Montana, the night of June 25, 1973. He observed a photograph of SUSAN MARIE JAEGER and related he could furnish no information of any value concerning this case and to his knowledge has never seen this girl before. He recalled there had been considerable publicity on the radio at the time of this alleged kidnaping and he recalls hearing through park ranger at Yellowstone National Park that either a boy scout or another girl some years ago had disappeared from one of the parks in that area under practically the same mysterious conditions.

He recalled no similar incidents which came to his attention during the summer of 1973 in or around Yellowstone National Park.

He could recall seeing no specific hippie type individuals on June 25, 1973, in a Volkswagen bus who had a child of this description with them. He pointed out that Volkswagen buses and hippie type individuals were in abundance at Yellowstone National Park in the summer of 1973.

[redacted] identified herself as the girl friend of [redacted] was interviewed at [redacted] on September 24, 1973, and she repeated the story that she had worked in Yellowstone National Park at the Old Faithful Inn from May, 1973, until August 12, 1973, at which time she terminated her employment to return to New Mexico State University. She related that she and [redacted] had journeyed to Bozeman, Montana, on June 25, 1973, from the Yellowstone National Park in [redacted] 1960 Volkswagen bug, bearing New Mexico license [redacted] had registered at the Gallatin Motel and they had spent the night there. b6 b7C

She observed a photograph of SUSAN MARIE JAEGER and stated to her knowledge, she has never seen this girl before and has no recollection of having seen her on or about June 25, 1973. She recalled there had been considerable publicity in the news media concerning this girl's family and she believes they remained in the Montana area for approximately one month after the girl disappeared and various donations came in from sympathetic individuals in order to support their stay there, however, according to what she learned from the news media absolutely no trace of the girl was ever found. She repeated [redacted] story to the effect that a rumor had circulated that similar circumstances had occurred in Yellowstone National Park and was known vaugely to park rangers as having occurred some years ago involving another youth. She did not know details and could not furnish additional material. b6 b7C

[redacted] who is residing at [redacted] and is a student at New Mexico State University, related that he is a roommate of [redacted]. His permanent home address is [redacted]. He said he, too, was employed at the Old Faithful Inn at Yellowstone National Park from May through August, 1973, but upon viewing the photograph of SUSAN MARIE JAEGER he stated that he remembers hearing the story of this girl's disappearance over the radio at Yellowstone National Park and had determined at the time that her disappearance had been perhaps a hundred miles from the Old Faithful Inn. He said that he absolutely has no information concerning this matter and upon viewing a photograph of SUSAN MARIE JEAGER felt that he had never seen her in his life. b6 b7C

He could furnish no information concerning any individuals who might have been in the Montana area on June 25, 1973, in a Volkswagen of any description having a female of the description of SUSAN MARIE JAEGER with them. She saw nothing when she looked out of her bedroom window. It is her own opinion someone was poaching and shot an animal. She could add nothing further regarding the kidnaping matter.

She advised that around 10:00 p.m., on Sunday night, June 24, 1973, the children started to get ready for bed and [redacted], was the first one to enter the tent to go to bed. She advised that she then entered the tent and crawled into her sleeping bag and as she recalls, [redacted] then came to bed and the last person to bed down was [redacted] SUSIE. She further stated that she and SUSIE "goofed around" for fifteen or twenty minutes kicking each other and scratching on the tent pretending that there was a rattlesnake outside and/or an animal. She stated that she stopped scratching on the tent and that after all the scratching had stopped, she heard a noise, which appeared to be one of the others scratching. [redacted] stated that it was apparently not her [redacted] since he was asleep and she has questioned [redacted] concerning the scratching and he claims he was asleep and, of course, her [redacted] SUSIE, can neither deny or confirm whether she scratched the tent.

[redacted] then advised that finally everything quieted down and she believes that she woke up at approximately 2:00 a.m., at which time [redacted]. SUSIE, was half awake and they discussed going to the bathroom. [redacted] stated that SUSIE indicated that she wanted to go to the bathroom, but before any decision could be made, SUSIE apparently fell asleep. [redacted] advised that she decided not to go to the bathroom and she, too, went back to sleep. b6 b7C

[redacted] then stated that she woke up later in the night and in turning saw an opening in the tent near her head. In view of the fact that she could look out, she thought the tent had fallen so the rear window was now in a position near the ground, where she could look through it. She advised that she put her arm out and realized that there was no screen and then she noticed that the rear of the tent had apparently been ripped since she could see some jagged edges. [redacted] advised that she then saw SUSIE's toys, which were two small stuffed animals, outside the tent and immediately she called for SUSIE and felt her sleeping bag and was unable to locate [redacted] and, therefore, concluded that she was gone. b6 b7C

[redacted] advised that [redacted] were asleep. She immediately got up, went to the truck camper in which her [redacted] were sleeping and woke her [redacted] told her to go into her [redacted] trailer to see if SUSIE was in the trailer going to the bathroom. It is to be noted that the children had been told by [redacted] that during the daytime they were to go to the bathroom in the latrines provided by the park, but at night, if they had to go to the bathroom, they were to enter and use the inside facilities in the [redacted] trailer. b6 b7C

[redacted] advised that after checking her [redacted] trailer with negative results, she then went into the tent with her [redacted] who by this time had a flashlight and it was definitely determined that SUSIE was not in the tent and, therefore, a search was made in the immediate area, which was negative. b6 b7C

[redacted] stated that during Saturday and Sunday, while the [redacted] and their [redacted] were sightseeing, SUSIE was always with the family and never out of b6 b7C

sight. She stated that the only time that she can think of when SUSIE was by herself was when some of the family were fishing on the Madison River and SUSIE went over to watch some of them fish. [redacted] pointed out and it is to be noted that where they were fishing was approximately 400 to 500 yards from the [redacted] camping area and it would take SUSIE approximately five to eight minutes to walk from the camp area to the fishing area. b6 b7C

[redacted] stated that the sleeping arrangements on the night of June 24-25, 1973, were as follows: b6 b7C

When one faces the tent and goes through the door, they enter a small compartment which could possibly be referred to as a sitting room. One then has to enter a canvas partition into the sleeping area and facing toward the rear of the tent, the sleeping bags were laid out and the individuals slept as follows:

At the extreme left against the tent wall was [redacted] next was SUSIE; next was [redacted] and next was [redacted] who slept against the right-hand tent wall. b6 b7C

[redacted] stated that when SUSIE came to bed, she was wearing a reddish-orange short-sleeved shirt, which was ribbed and there was a small zipper at the neckline in front. She also had on blue jeans and possibly yellow socks. In addition to this, SUSIE also wore a small silver turquoise ring, which she shifted from one hand to another. b6 b7C

[redacted] stated that the only person other than her immediate family who was in or around their campsite was the park attendant identified as BUEL REED and he was in the vicinity of the tent when the children went to bed on June 24, 1973. [redacted] advised that her family has warned her and the rest of the children pertaining to strangers and that they did not observe nor were they approached by any strangers to her knowledge. b6 b7C

BUEL T. REED, Route #1, Box #194, Bozeman, Montana, advised as follows:

He has been employed by the Montana Fish and Game as a camp attendant for the past six years maintaining the Three Rivers Headwaters State Park near Three Forks, Montana, and collecting a $1.00 fee for vehicles utilizing the campground. REED advised that as such he keeps no record by name and license number of the amount of money collected. He is issued a book of tickets. He collects $1.00 and gives a portion of the ticket to the camper and turns in the stub. Records are adequately kept by the comparison of the number of stubs to the amount of money turned in.

REED advised that he normally visits the Headwaters Camp in the middle of the afternoon or early evening to collect fees and on June 24, 1973, he was at the camp from approximately 6:00 to 10:00 p.m. or possibly 10:30 p.m. leaving the camp and at his residence by midnight.

REED advised that the following morning at 9:00 a.m., June 25, 1973, in response to a call from the Sheriff's Office, he again went back to the campground and there was shown the map and units in the area and could not state whether or not there were additional units in the area the preceding night which had not been examined or checked by law enforcement the following morning, June 25, 1973.

REED advised there is absolutely no way for him to determine how many units were in the campground the preceding night, whether or not the same units were there as near as he could recollect all of the units from the positions on the map and from what were still at the campground at 9:00 a.m. had been checked by law enforcement.

REED advised that the preceding night he did not observe anything of particular significance, that he did sit for a time

He had further been in the habit of talking to the [redacted] who had been camped for several days preceding the disappearance of the little girl and had established a rapport with them due to the [redacted] coming and periodically asked about their arrival and met and visited with them more than most of the campers following their arrival at the campground on Friday preceding their little girl being missing.

REED further advised that he also was the camp tender at the campground in 1968 when the RANEY boy was killed but could furnish nothing of pertinence pertaining to that incident except that there were well over 100 Scouts from a number of troups camped there.

REED further advised that on the preceding day he had had complaints about boys throwing firecrackers, this being in the afternoon of June 24, and did meet with the boys, talked with them, did not take their names but they were local in Three Forks, Montana, and he thought nothing about it.

REED offered his complete cooperation concerning the investigation and stated that he realized that among other people he would certainly probably be a suspect since he was at the camp both in 1968 and at the present time. He advised he could establish his whereabouts through his daughters living at the family home since he arrived home about midnight and was up during the early hours when one of his daughters got up to feed her baby. REED advised his wife AGNES was then away from home on an extended trip.

REED advised that prior to working for the Fish and Game at the Three Rivers Headwaters State Park and several other fishing accesses which he is responsible for he had worked as a caretaker on the Capitol lawn at Helena, Montana.

[redacted] advised that the best way to describe this would be that SUSAN's fingernails were thick and came to a point on the index fingers, somewhat comparable to the thickness of a small dog's claws and pointed somewhat on the order of a claw. He advised that in addition, the family had not even mentioned this for a number of years. When SUSAN was a very small child, she was somewhat embarrassed about the fact that her fingernails were thick, but no mention of this had been made in recent times. b6 b7C

Three Rivers Headwaters State Park on Friday, June 22, 1973, at approximately 10:00 p.m.

The trip from their home in Michigan to the Three Rivers Headwaters State Park had been planned for many months and the family had looked forward to this trip and had a detailed map of the area on the family bulletin board at the home [redacted] and [redacted], had been to the area the preceeding year and were so impressed that arrangements were made to [redacted] were already at the area and occupying the Holiday Rambler camper-type trailer when the [redacted] family arrived. [redacted] retired to sleep in the GMC van belonging to the group; [redacted] retired to spend the night in the camper trailer; and [redacted] to spend the night in the utility trailer, which folds out into sleeping quarters. b6 b7C

Subsequently, at about 4:00 a.m., [redacted] woke up, b6 b7C contacted the parents, and said that SUSIE was missing. The family immediately was aroused in their entirety and observed a large cut in the tent in which SUSIE and the younger children were sleeping. An immediate search of the vicinity failed to indicate what had happened. [redacted] then stated that she had woke up at approximately 2:00 a.m. She stated that when she had woke up, she needed to go to the bathroom; however, did not want to go by herself and she woke up SUSIE to see if she would go to the bathroom with her. [redacted] would not, so she went to sleep. [redacted] did not have a watch, so consequently it was her impression that it was around 2:00 a.m.

She subsequently woke up at 4:00 a.m., when she aroused the family to state that SUSIE was missing.

There was no one in the vicinity who acted in any type of suspicious manner that preceeding night. The only person who paid much attention to [redacted] was the camp b6 b7C attendant, a man named Mr. REED. Nothing unusual happened and they could furnish no information as to who might have been responsible for SUSIE's disappearance. [redacted] advised that SUSAN was an intelligent child; however, rather shy and definitely not one who would strike up an association or conversation with a stranger.

[redacted] advised that each of the other children b6 b7C was questioned extensively and could furnish no information pertaining to SUSIE's disappearance, nor could [redacted]

With the large hole that was cut in the tent and the obvious appearance that SUSAN had been taken from the tent, rather than wandering away, the local police in Three Forks, Montana, were immediately contacted and notified.

[redacted] furnished the following physical descrip- b6 b7C tion of [redacted] SUSAN:

Name	SUSAN MARIE JAEGER
Race	White
Sex	Female
Nationality	American

BT #7-497

Date of birth	April 19, 1966
Place of birth	Detroit, Michigan

Height	3'8" - 4'
Weight	55#

[redacted] advised that to his knowledge, there was no person at their home area in Michigan who bore the family any grudge or who could feasibly be responsible for SUSAN's disappearance. There were no enemies. [redacted] further advised that there were no persons from the home town in Michigan who followed them to Montana or who would definitely have known of the date of their arrival at the Headwaters State Park. b6 b7C

In addition, except for immediate neighbors there was probably no one who knew that they were going to go to the Headwaters State Park. [redacted] added also, however, that the [redacted], as well as some of the family relatives, did realize that they would be traveling to the Headwaters State Park near Three Forks to meet SUSAN's [redacted] b6 b7C

[redacted] advised the family has constantly reconstructed their activities since SUSAN's disappearance and can come up with no one who could be considered suspect and so far as they know all persons who were in the campground were still there with the arrival of the officers to conduct the investigation pertaining to SUSAN's disappearance. b6 b7C

[redacted]dvised the only possible suspect he could think of would be the caretaker of the camp, Mr. REED, and he was not suspected, but he was the only person who appeared to even pay any particular attention to [redacted] b6 b7C

The physical search of the area adjacent to the tent from which SUSAN MARIE JAEGER was presumably abducted was observed.

This search was under the direction of Sheriff L. D. W. ANDERSON, Bozeman, Montana, and included members of the Gallatin County Sheriff's Office; Bozeman Police Department; and Sheriff's Deputies, who took a position shoulder to shoulder on their hands and knees 25 yards wide and crawled directly north of the JAEGER camp to a point opposite the north restrooms and storage shed. The area was then reversed to a point opposite the JAEGER camp and continued until that area between the JAEGER camp and the storage shed was covered in its entirety. All debris picked up was put into a paper sack, which Sheriff ANDERSON requested by held by SA BYRON H. DUNBAR, in view of the fact that the case possibly would develop into a kidnaping and the Gallatin County Sheriff's Office desired to make a formal request for Bureau participation. The hands-and-knees search was then repeated south from the JAEGER camp to the entrance road from the Three Forks - Trident Highway into the JAEGER camp.

Immediately adjacent to the JAEGER camp tent, which contained a large hole, there was noted a red toy horse and a toy brown dog. These were collected and preserved and identified by SA BYRON H. DUNBAR. The tent was observed and that portion which contained the large cut through which SUSAN JAEGER was presumably taken was removed from the tent, identified, and packaged by SA DUNBAR.

The red sleeping bag identified as the one in which SUSAN MARIE JAEGER had been sleeping was taken from the tent, identified, and packaged.

Another lead being checked out by Butte concerned a Volkswagen bus observed July 1, 1973, in Fort Buford, North Dakota, which contained a white female, 5 to 7 years of age, strongly resembling photograph of victim. To Whom it may concern:
Re:"Susie Jeager" case.

Dear Sir;

First of all 1 want to appologize for the letter sent to your office dated Aug. 27,1973. 1 did call the police office in Farmington Michigan on the 28th. to not act upon the information contained in the letter as it was incorrect. 1 hope that they did abide by my wishes,as the parents have been subjected to enough as it is.

1 will relate my findings due to Clairvoyance and hope it may be of some value to you in solving this mystery.

First of all 1 saw a black bear circling around an area that could possibly be a camping area.

Secondly, 1 saw Susie's head, or part of it, black hair etc. in a see through box, indicating to me that this could be evidence that it is being preserved as evidence.

Third, there was a family from Canada, a very strong British accent, with 1 believe, five school age children, boys and girls,oldest one 16 yrs. old. 1 was impressed that some of these children may have a clue, perhaps saw bear tracks or possibly a bear in their roamings throughout the area.

Next 1 saw an old Ford car, about a 1918 model, a spinster lady (possibly a school teacher) was connected with this, indicating to me a possibility that she lived in an old house, long since abandoned where some evidence may be found about Susie, a bit of clothing, hair or something, either underneath the house or in that area. 1 also heard the name "Raven", whether this is a name of an individual or some area called by that name, like the old Raven place etc. 1 visited this house in the Astra and there was an elderly couple living there(possibly some one who lived there after the school teacher) but now gone as the house was in a dusty condition. 1 saw a hand pump at a kitchen sink, cottage curtains covering the lower sash of a window with much dust and cob-webs on them. The couple that 1 had talked with handed me some keys - this could indicate to me that the answer was there in this house or area.

1t is my contention that Susie was taken from the tent by a bear. This could be cause of the ragged tear, a bears claws are very sharp. You may find some evidence in the area of this house if you can locate it. 1 will continue to work on this if it is necessary.

Sincerely Yours

RE: Three Rivers Headwaters Campers

On 7/6/73, [redacted] b6 b7C
[redacted] at Headwaters on 6/24-25/73 related as follows:

At approximately 9 PM, 6/24/73, she observed a pickup truck, dark colored body and light colored cab, possibly biege, with canopy over the bed of the truck, drive into the camp area and park near the garbage cans which were between the [redacted] campsite on right side of road. b6 b7C

The pickup was occupied by a lone individual described as WMA, sandy colored hair and wore a cap.

The driver was parked near the garbage cans from about 9:40 PM until 10 PM. She noticed the driver was staring in the direction of the [redacted] campsite. This situation seemed peculiar to her as the driver did not turn his head at all and seemed only to stare at the [redacted] camp area. b6 b7C

The pickup pulled out of the area and drove away at about 10 PM. She went to bed shortly thereafter. She thought she may have heard the pickup drive back into the area about 10:45 PM, but she did not get out of bed to observe this. The reason she believes it was the truck she saw earlier that evening, was because the truck had a loud motor.

She was unable to furnish further descriptive data concerning the driver or the pickup. She did not know the make or license number on the vehicle.

The following morning (June 25, 1973) she talked to a woman from Kalispell, Montana, who was a "rock hound" and had also spent the night at the campsite. This woman told [redacted] that she also saw the same pickup truck parked near b6 b7C

the name of the woman she talked to, nor did she know what make of vehicle she was in.

This information is contained in pages 152-153 of report of [illegible], dated, 8/20/73 at Butte.

A review of the names of the individuals camped at Three Rivers Headwaters State Park on 6/25/73 reflects no one identified as being from or living in Kalispell, Montana. It could be possible they or the woman was with one of the groups parked there and not identified or viewed.

LEAD: At Kalispell, Montana

Through sources who are familiar with "road hound" groups in Kalispell, Montana, attempt to identify the woman, by description available, who was allegedly at the campsite during pertinent period and interview her concerning her observations of the pickup truck and the driver, plus any additional information she might have.

SEARCH OF ABANDONED CABINS,
FIVE MILES FROM PONY, MONTANA

Based on information received SA [redacted] and [redacted] Gallatin County Sheriff's Office, Bozeman, Montana, proceeded to an area five miles out of Pony, Montana, where the old C A Mine is located. At said mine which is presently being activated was located a backhoe and other mining equipment. b6 b7C

In the valley below the C A Mine are abandoned cabins, which were occupied by the miners when the C A Mine was active. A search of these cabins by SA [redacted] on July 30, 1973, was negative. b6 b7C

ABANDONED MICA MINE
LITTLE BEAR CREEK CANYON
GALLATIN COUNTY, MONTANA

On July 29, 1973, [redacted] Bozeman Police Department, Bozeman, Montana, advised that [redacted] visited an abandoned mica mine on the afternoon of July 29, 1973, which mine is located in Little Bear Canyon, Gallatin County, Montana. At this mine there was a makeshift shack, which had recently been occupied, and in said shack was noted the drawings of a child, a book, belt, sock and an abandoned tent had been used as a covering for the door. b6 b7C

On July 29, 1973, [redacted], was contacted and he volunteered to take SA [redacted] back to the mica mine. Said area was searched and among the items found was a Maxton book about Prehistoric Animals. Inside the book was a handwritten name, [redacted]. Also located were a pair of small child's full stretch pants, one worn leather belt with a silver buckle, three pieces of yarn (color - blue, lavender and rust), and one broken small toy car body. b6 b7C

It was also noted that there were three deer skins remnants of food, a woman's suitcase filled with plant specimens, wrapped in wax paper, and a child's footprint, which would be for a child probably seven, eight or nine years old.

The area surrounding the mine was searched and the collapsed mine entrance was looked into, and nothing was observed nor was there any odd odor noted.

[redacted] further stated that while he was at the mica mine he had a conversation with a motorcyclist and also another family which was there in a 1966 Chevrolet Blazer with a 6- plate. This family was identified as being [redacted] resides [redacted] b6 b7C

SUSPECT IN HOMICIDE OF
VIVIAN VLASKA
LAKESIDE, MONTANA,
July 19, 1969

The following investigation was conducted by SA [redacted] b6 b7C

AT HELENA, MONTANA

On August 24, 1973, Agent [redacted] b6 b7C Montana Department of Justice, furnished the following information, which is possibly related to the SUSIE JAEGER kidnaping:

The Tamarack Inn is located in deep woods in sparsely settled mountain country on the east shore of Flathead Lake near Lakeside, Montana, approximately midway between Kalispell and Polson, Montana. About 1:30 a.m., on July 19, 1969, VIVIAN VLASKA, a white divorcee, age 31, employed as a waitress at the inn, went off duty and walked outside to enter her car to drive to her residence several miles away. The only customer, who had been in the place late that night, was described as a "brawny" stranger, who claimed he had just come from [redacted] b6 b7C and was believed to be driving a [redacted] The stranger left the inn about thirty minutes before VLASKA. He had made a telephone call to a nearby motel and arranged for them to hold a room for him.

VLASKA was never seen alive again and her car was found abandoned down the wooded driveway near the inn with no sign of a struggle or bloodstains. The stranger at the inn was developed as a suspect in her disappearance when it was found he had not occupied the room in the motel.

After a long investigation, approximately a year later, the innkeeper and his wife made a tentative identification of a

7-497-773

Dunbar

photograph of [redacted] b6 b7C b7D
[redacted] who had been in the general area about the time of VLASKA's disappearance and he had [redacted] never interviewed.

On October 15, 1971, the skeletal remains of VLASKA were found by hunters on a remote logging road, known as Buffalo Bill Road near Plains, Montana. Several months later her skull was found two and a half miles further away. The cause of her death could not be determined.

On May 20, 1972, [redacted] b6 b7C Sulphur Springs, Arkansas, now residing in Thompson Falls, Montana, stopped at the Tamarack Inn and talked to the innkeeper and his wife about a man she knew in Arkansas [redacted], whom she thought had acted very strangely. She related how he told her in 1969 in Arkansas about being at a place in Montana between Polson and Kalispell, Montana, where a waitress had not been very nice to him and she is not there any more. He rambled on telling about Montana and said he had been on Buffalo Bill Road in Montana and left something there that would surprise people. He never described what the surprise would be. He showed her a hunting knife with eight notches in the handle and insinuated he had killed a girl in California and others elsewhere.

The striking thing about these statements by [redacted] b6 b7C if they are true, as related by [redacted] is the fact she reports the statements were made to her in 1969 while VLASKA's remains were not discovered until 1971.

At [redacted] was interviewed on June 1, b6 b7C 1972, by Sheriff JAMES PEARSON, Bentonville, Arkansas, whose reply to [redacted] did not reflect a penetrative investigation. [redacted] then requested further investigation by the Arkansas State Police and on April 27, 1973, [redacted] was again interviewed this time by [redacted], Arkansas State Police, Bentonville, Arkansas. Both officers reported that [redacted] denied any knowledge of the VLASKA homicide or of being in Montana and denied all statements attributed to him by [redacted]

Both officers said [redacted] agreed to a polygraph test; however, he was never afforded one by these officers. He told [redacted] he was probably working [redacted] as, on July 17, 1969. No one has ever checked this employment in an effort to verify this alibi. b6 b7C

[redacted] reportedly was arrested July 13, 1969, at Siloam Springs, Arkansas, on an intoxication charge. b6 b7C

[redacted] who was not requested to enter this investigation until sometime after VLASKA's body was found and, therefore, had nothing to do with the initial investigation at the time of her disappearance, obtained additional photographs of [redacted] suspect [redacted] which show him as much thinner than the original photograph of [redacted] and not at all brawny like the man seen at the Tamarack Inn. b6 b7C b7D

[redacted] is described as a brawny man. Although [redacted] do not appear identical from photographs, there is a general similarity on some of their facial features. The available photograph of [redacted] received from Sheriff PEARSON lacks sufficient detail. b6 b7C b7D

On August 22, 1973, [redacted] received a letter from [redacted] in which she stated that she had been in Arkansas in May, 1973, and visited with [redacted] He was telling her about a hunting knife he had that he uses to slash tents with. When she asked why he would do that he told her, "When the flap is shut, you have to have a hole to crawl in and out of." He told her it was really fun to go into a camp when it is really quiet and everyone is sleeping. He asked her if she knew where Three Forks River was and she replied that she did not, but knew where Three Forks, Montana, was. He indicated he knew of Three Forks, Montana, but again referred to Three Forks River and said he had camped there and that it was a real nice place and she should go there sometime. b6 b7C

[redacted] also talked to her about camping out with Boy Scouts. He did not say where this had taken place. In her letter she remarked how much that [redacted] likes little girls and that he likes to tease and kid with them. b6 b7C

In the past in conversations with [redacted] had mentioned how [redacted] is bitter toward women in general because a preacher several years ago ran off with his wife in Sulphur Springs. b6 b7C

[redacted] had previously mentioned to [redacted] how one night in a car with [redacted] he had scared her badly when he mentioned he would like to cut her heart out to see if it was as black as his wife's heart. b6 b7C

In reference to this letter, [redacted] recalled an incident in May, 1968, when a group of Boy Scouts were camped at the same Three Forks Campground, where the JAEGER girl disappeared from. He recalled an incident where one of the Boy Scouts, during the nighttime was killed by a blow on the head and had been stabbed through the tent wall. [redacted] mentioned that that case had also never been solved. b6 b7C

[redacted] stated to assure himself of [redacted] honesty in this matter, with her consent, he had given her a b6 b7C b7E
