Pursuant to your instructions, I called Mr. James Rowley, Director of the Secret Service at 10:01 a. m. today. I explained your concern over the explosive nature of the contents of the manuscript which we recovered from Bremer's automobile and requested when Secret Service had made whatever notes as were necessary that the copies of the manuscript and the transcript be returned to the FBI. I explained it is imperative that no Xerox copies of this material be retained by them.

Mr. Rowley said that he understood perfectly and he would immediately take steps to have this material returned to me by personal messenger. He said that the material had been very helpful to the Secret Service in connection with their planning for the protection of the President and other prominent persons. He expressed appreciation for the fact that this information had been promptly made available to the Secret Service.

I advised Mr. Rosen of the above and instructed him to check to be sure that we know exactly how many copies had been furnished to the Secret Service in Baltimore and in Washington so that we can insure that all are returned. I told him in view of the sensitive nature of this material it should be very closely restricted in house and that similar security must be afforded the first 140 pages if and when they are located..

ADDENDUM OF W. M. FELT 5-22-72 WMF:crt

At 4:15 p. m. , 5-19-72, I received from Mr. James Rowley, Director of Secret Service, two copies of this manuscript and two copies of the transcription which we prepared. One set had been furnished to Secret Service in Baltimore and the other set to Secret Service in Washington. I am personally retaining this material under combination lock. I instructed Mr. Bates to double check to be sure that these were all the copies that were disseminated.

One copy of the manuscript and one copy of the transcription were previously furnished to Mr. John Ehrlichman at the White House and no steps have been taken, of course, to secure their return.

I have instructed Mr. Bates that we should be sure that Secret Service is furnished in writing all pertinent information concerning our investigation so they may adequately discharge their responsibilities for the protection of the President.

This is the case involving the shooting of Governor George C. Wallace and others at Laurel, Maryland, on May 15, 1972.

The Bureau has received today a 479-page report from the Baltimore Office and a 901-page report from the Milwaukee Office reflecting the results of investigation conducted in this case to date.

The reports contain information relating to the 114-page manuscript obtained through a search warrant from the automobile of the subject Arthur H. Bremer, as well as the results of investigation conducted to verify and run out this information.

The reports are currently being reviewed prior to being disseminated to the Department and interested agencies.

Information in the reports relating to the manuscript is evidentiary in nature and of interest to the Department in connection with prosecutive action in this case and it is felt that such reports should be disseminated to the Department, as well as to Secret Service, and U. S. Attorney.

ACTION: In view of the prior White House restriction on the dissemination of information relating to this manuscript, no dissemination of the reports will be made until such action is specifically approved.

SAC Farrow called at 4:45 p.m. today and furnished the following information:

U. S. Attorney has advised that the Judge hearing this case (Edward S. Northrup, Chief Judge) has decided not to arrange for an immediate psychiatric examination for Bremer but rather allow the defense counsel thirty days to file motions, including a motion for a psychiatric examination.

Farrow said he explored with the U. S. Attorney the possibility of having Judge Northrup arraign Bremer in the Baltimore County Jail rather than having subject transported to the Federal Court for this hearing. The U. S. Attorney was of the opinion that Judge Northrup would not agree to this since he has indicated that he wants to handle this entire case as normally as possible, thereby precluding any criticism of him during the trial or on appeal.

Farrow said that subject's arraignment on local charges is scheduled for 9:00 a.m., Tuesday, May 30, 1972, in Upper Marlboro, Maryland. Farrow said that he discussed with the U. S. Attorney the possibility of having the local authorities file a detainer rather than having him arraigned. The U. S. Attorney was of the opinion that the Federal Government would have to honor the local writ commanding the subject's appearance for arraignment.

Farrow further indicated that all possible security measures will be taken in connection with the subject's transportation from jail to the courthouse tomorrow and that he planned to utilize a closed police van with Agents in the van and in surrounding cars. Full details concerning security arrangements will be furnished in a teletype later today.

ACTION: This is submitted for information.

In accordance with instructions from Mr. Bates' office on 5-18-72 at 11:30 a.m., Supervisor R. H. Haynes delivered to Mr. John Ehrlichman's office at The White House a 114-page manuscript apparently written by Arthur H. Bremer. Two copies were furnished, one, a Xerox copy of the original handwritten manuscript, and the other, a typed copy prepared by the Bureau. As Mr. Ehrlichman was attending a meeting, this material was furnished to his personal secretary, Miss Jan Hruska. It was explained to her that this manuscript covers the period April 4, 1972, through May 13, 1972, and indicates the first 148 pages were buried somewhere in Milwaukee, Wisconsin. The Bureau is making attempts to locate the buried portion of the manuscript. She was advised that this manuscript had been located in a search of Bremer's automobile, and also that copies had been furnished to the U. S. Secret Service at Headquarters and in Baltimore, Maryland. (Ehrlichman has been advised that all Secret Service copies have been obtained and are being retained by FBI.)

At approximately 1:30 p.m. today, Tom Hazlitt with the Toronto Star called my office and spoke with Leinbaugh.

Hazlitt said that he has information that Arthur Bremer was in Ottawa at the time of President Nixon's visit and further he had learned that a "clear identification" of Bremer had been made in the vicinity of the Parliament Building while President Nixon was there.

Hazlitt wanted to know if the FBI would confirm this story for him. He said that he had talk^{ed} to the RCMP but that they refused to comment.

Hazlitt was informed that it would not be possible for the FBI to make any comment whatsoever.

By letter dated 5/22/72, Secret Service was advised that subject Bremer clearly appears in film taken in front of the Parliament House while President Nixon was addressing a joint session of the Canadian Parliament.

RECOMMENDATION:

It is recommended that this memorandum be referred to the General Investigative Division and that Secret Service be alerted to this development.

Reference is made to my letter earlier today enclosing a memorandum containing the current results of the FBI's investigation of the attempt on Governor George C. Wallace's life.

In connection with information set forth in the memorandum relating to the physical condition of Governor Wallace, the statement was made that there had been some return of voluntary muscular activity to the toes of both of his feet. A recheck of the medical report in this regard reveals that this statement should have read "involuntary muscular activity" rather than "voluntary muscular activity."

The above information is being furnished to the White House.

Dear Mr. President:

Enclosed is a memorandum setting forth results of investigation conducted by the FBI concerning the shooting and wounding of Governor George C. Wallace and three other persons on May 15, 1972, at the Laurel Plaza Shopping Center in Laurel, Maryland. The assailant, Arthur Herman Bremer, was arrested by FBI Agents on Civil Rights and Assaulting a Federal Officer charges. He is presently in custody of FBI Agents and is incarcerated at the Baltimore County Jail in lieu of \$200,000 bond.

An attending physician has advised in confidence that he is of the opinion there is a strong probability Governor Wallace's legs will be paralyzed.

We are continuing vigorous investigation of this shooting and reports will be furnished to the Civil Rights Division and Criminal Division of the Department of Justice.

I am furnishing a copy of the enclosed memorandum to the Acting Attorney General.

Sincerely yours,

CAPTAIN ELDRED COLE DOTHARD - VICTIM

Governor George C. Wallace of Alabama, campaigning in quest of the Democratic Presidential Nomination in the Maryland Democratic State Primary scheduled for May 16, 1972, was shot and seriously wounded at approximately 4:00 p.m., May 15, 1972, shortly after completing an address to a political rally at the Laurel Shopping Center in Laurel, Maryland.

The Governor was shaking hands with well-wishers preparatory to leaving the area when he was shot at close range by a gunman subsequently identified as Arthur Herman Bremer. Three other persons were wounded in the shooting. Rushed in an ambulance to Holy Cross Hospital in Silver Spring, Maryland, Governor Wallace underwent emergency surgery at approximately 6:00 p.m.

Bremer was immediately taken into custody and was subsequently charged with violation of the Civil Rights Statute prohibiting interference with Federally Protected Activities (qualifying or campaigning as a candidate for elective office) and the Assaulting a Federal Officer Statute. He is incarcerated in the Baltimore County Jail, Towson, Maryland, in lieu of \$200,000 bond.

EXTENT OF GOVERNOR WALLACE'S INJURIES

Dr. Joseph F. Schanno, the surgeon in charge who operated on Governor Wallace advised that the Governor suffered

Governor Wallace has received at least eight pints of blood and the fluid in his spinal column is cloudy.

In confidence Dr. Schanno advised Governor Wallace has had "enough surgery" for the time being. He added there is much more surgery to be done, but that such surgery will have to be performed by a neurosurgeon and only after the Governor has regained his strength. He expressed the opinion that there is a strong probability the Governor's legs will be paralyzed.

Plans called for the Governor to be moved from the Recovery Room to his room on the seventh floor of the hospital at approximately 6:00 a.m., May 16, 1972.

ARREST OF SUBJECT AND FEDERAL PROCESS OBTAINED

Immediately following the shooting, Bremer was subdued by a Secret Service Agent, Officers of the Prince Georges County Police Department and bystanders. He was taken to the Hyattsville Precinct of the Prince Georges County Police Department, and then to the Prince Georges County Hospital at Cheverly, Maryland. There he was examined by the hospital psychiatrist who stated Bremer appeared on initial examination to be a mental case but he should be given further examination for a complete diagnosis.

Chief Robert Sweitzer of the Prince Georges County Police Department stated that in view of the nationwide interest in this matter, he was turning Bremer over to the FBI. Bremer was subsequently interviewed by the FBI while awaiting transportation to Baltimore, Maryland, but he refused to furnish any information without his attorney being present. Local Maryland state charges will be filed against Bremer charging him with the assault of Governor Wallace and the other injured parties, and will be placed as a detainer against him.

At approximately 9:35 p.m., Bremer was taken from the hospital under heavy FBI guard to Baltimore, Maryland, where he was photographed and fingerprinted at the Baltimore FBI office. Immediately thereafter he was taken before U. S. Magistrate Clarence E. Goetz in Baltimore where a complaint authorized by Assistant Attorney General Henry E. Petersen, in charge of the Criminal Division, U. S. Department of Justice, was filed by Special Agent George T. Cronin charging Bremer for violation of U. S. Code, Title 18, Sections 111 and 245. The complaint based on a sworn affidavit stated that on or about May 15, 1972, at Laurel, Maryland, in the District of Maryland, Arthur Herman Bremer did wilfully, knowingly, and feloniously forcibly assault, resist, oppose, impede, intimidate, and interfere with Nicholas J. Zarvos, Special Agent, United States Secret Service, while engaged in the performance of his official duties. And also did wilfully, knowingly, and feloniously injure, intimidate, and interfere by force on the person of George Corley Wallace, a candidate for Federal elective office in violation of Wallace's civil rights.

After Bremer was advised of the complaint filed against him, bond was set at \$200,000 and a preliminary hearing was scheduled for 10:00 a.m., May 24, 1972, in Baltimore, Maryland. He was then taken to the Baltimore County Jail where he remains under 24-hour guard by the FBI. Baltimore attorney Benjamin Lipsitz represented Bremer at the proceedings under appointment by Magistrate Goetz; however, Bremer requested that he be represented in the future by an attorney from the American Civil Liberties Union.

BACKGROUND OF SUBJECT

Investigation by the FBI in Milwaukee, Wisconsin, concerning Bremer developed information indicating him to be a secretive, introverted individual who has held various menial jobs for short periods of time. It was determined that Bremer has resided in Apartment [redacted] Milwaukee, Wisconsin, for about the last six months. He is described by neighbors as having recently shaved his reddish-blond hair which is beginning to grow back. He occasionally wears black rimmed glasses and is extremely shy. He was last seen by neighbors over two weeks ago and his only known visitor was his mother. b6 b7C

When FBI Agents arrived at Bremer's apartment on the evening of May 15, 1972, the apartment was being inspected by a Secret Service Agent accompanied by the Assistant Manager of the apartment who believed the apartment had been abandoned since Bremer had not been seen for over two weeks. Observed within the apartment were numerous papers, notes, brochures, photographs, and other miscellaneous items, including the following: 1. Several 1970 and 1971 Internal Revenue Service W-2 forms covering employment with "Pieces of Eight Restaurant;" Board of School Directors, and the Milwaukee Athletic Club. 2. Several small notebooks containing handwritten statements appearing to be quotations such as "One hundred and one games you can play alone in your cell" and "How to do a bang up job of getting people to notice you." 3. Other notes which would give the indication of possible emotional and mental instability. 4. One box of .38 caliber cartridges and one box of nine millimeter cartridges. Also obtained was a receipt indicating an Arthur Herman Bremer on January 13, 1972, purchased a Model 1382, five-shot .38 caliber, two-inch snub nose, blue special revolver, Serial Number [redacted], Charter Arms Company, and one box of .38

caliber ammunition from the Casanova Gun Shop, 1601 West Greenfield, Milwaukee. A Department of Treasury form filed at Casanova's contained descriptive information on Bremer and the files of the shop indicated this was Bremer's only transaction as Bremer does not have an account with them. All of the material located was immediately seized and is being reviewed to determine any possible affiliation as well as motivation on the part of Bremer.

Investigation at the Fox Point, Wisconsin, Police Department, disclosed that Arthur H. Bremer, white male, born [redacted] Milwaukee, was arrested by the Fox Point Police Department on November 18, 1971, for carrying a concealed weapon. The weapon involved is described as a Charter Arms .38 caliber special, undercover model, two-inch barrel, serial number [redacted]. On December 8, 1971, the charge against Bremer was reduced to disorderly conduct and Bremer was fined \$35. Police Department records reflect the above-described weapon was not returned to Bremer. The FBI Identification Division compared fingerprints taken of Bremer at the FBI office in Baltimore on May 15, 1972, with the fingerprints submitted in the Fox Point arrest and they are identical. The files of the Milwaukee Police Department contained no pertinent information identifiable with Bremer.

Mr. and Mrs. William Bremer, parents of Arthur H. Bremer, 1300 South 15th Place, Milwaukee, on May 15, 1972, advised that Arthur Bremer was born [redacted] at [redacted]. They stated that their son has never served in the armed forces and to their knowledge had never been arrested. They confirmed that he held part-time jobs in recent months as a caretaker for the Milwaukee County School Board, a busboy for the Milwaukee Athletic Club, and as an employee of the Pieces of Eight, a Milwaukee restaurant. They stated he had graduated from high school in Milwaukee in 1968 and subsequently attended a Milwaukee area technical college on an infrequent basis.

He was last seen by the members of his immediate family several weeks ago at which time [redacted] and his mother went to his apartment on separate occasions and attempted to talk to him, on which occasions he refused them admittance. They stated, however, they recognized

his voice inside the apartment. The members of Bremer's family described Arthur Bremer as a loner who moved out of the family home approximately six months ago and has withdrawn from the whole family since that time. They have had no indication that Bremer has used narcotics or alcohol to excess and they also advised he has been very interested in politics, being a dues paying member of the Young Democrats Club. According to

[REDACTED] Bremer in the recent past was a b6
staunch supporter of Governor Wallace and had Governor Wallace b7c
posters and stickers on his automobile and in his apartment immediately prior to the Wisconsin Democratic Primary in early April, 1972. They stated Arthur Bremer has also been against violence and to their knowledge never owned nor did he show any interest in guns.

EVIDENCE

Extensive investigation has been conducted including interviews of numerous witnesses who saw most if not all of the assailant's actions during the shooting. Both still and motion pictures taken by various individuals at the scene are being obtained, processed and evaluated. A .38 caliber, five-shot revolver was located near the scene immediately after the incident and has been identified as having been purchased by Bremer at a gun shop in Milwaukee, Wisconsin, on January 13, 1972. Ballistics tests are being conducted to determine if it fired four of the five bullets which have been recovered. The fifth bullet remains lodged in Governor Wallace. The files of the National Crime Information Center (NCIC) contain no record of this gun and an examination by the FBI Identification Division failed to locate any latent fingerprints on the gun. The NCIC likewise contained no record on Bremer and no record could be located on him in the FBI files. The records of the FBI Identification Division reflect only the one arrest for Bremer, that being by the Fox Point, Wisconsin, Police Department. Even though Bremer has refused to be interviewed and would not identify himself, he has been identified by the FBI Identification Division through his fingerprints taken on May 15, 1972.

NICHOLAS J. ZARVOS - VICTIM

Also being held as evidence are the numerous items found in Bremer's Milwaukee apartment as is a 1967 Rambler automobile registered to him. This vehicle was located at the Laurel Shopping Center shortly after the shooting and will be searched by the FBI under Federal search warrant on May 16, 1972.

COMMENTS MADE BY BREMER

Upon being interviewed by FBI Agents at the Prince Georges County Hospital, Bremer refused to say anything without an attorney being present. While being transported from the hospital to the Baltimore FBI Office, Bremer commented that he was coming from nowhere and going nowhere. In answer to any questions, he stated he "would stand mute."

PROTECTIVE DEVICES AT BALTIMORE COUNTY JAIL, TOWSON, MARYLAND

Bremer is located presently in the Baltimore County Jail. He is in a one-man cell at the end of a cell block. There is a solid wall between this cell and the next. The cell is surrounded by steel grating on two sides. Bremer is under constant visual observation by FBI Agents. Agents are also located at strategic points throughout the jail and at the jail entrance. Surveillance is being maintained on the outside perimeter of the jail to preclude any outside moves to the jail. Access to Bremer is limited to his attorney only. No jail personnel have access to him without the approval of and accompaniment by FBI Agents.

NEWS MEDIA ACCESS TO BREMER'S APARTMENT, MILWAUKEE, WISCONSIN

Full facts are being obtained by the Milwaukee Office of the FBI concerning the entry and access to the apartment at [redacted] Milwaukee, Wisconsin, by members of the news media on the evening of May 15, 1972.

Enclosed is a letterhead memorandum for dissemination to the White House, the Acting Attorney General and Assistant Attorneys General of the Civil Rights and Criminal Divisions setting forth current developments in the shooting and wounding of Governor George C. Wallace and three other persons on 5/15/72.

Governor Wallace had movement in the toes of both feet and Secret Service Agent Zarvos according to his physicians will recover but will speak in hoarse tones.

The FBI Laboratory has determined a bullet from Governor Wallace and a bullet from Dora Thompson are similar to one recovered from Secret Service Agent Zarvos and one from the scene of the shooting, however, due to mutilation they cannot be positively identified as having been fired from Bremer's revolver. Additional examination continuing.

Case against Bremer will be presented to Federal Grand Jury as well as State Grand Jury on 5/23/72. FBI Agents will provide physical security for Bremer. Chesapeake and Ohio ferry employee in Milwaukee furnished information regarding reported travel of Bremer but could not identify Bremer from his photograph and discrepancies appear in his account.

Investigation continuing to be handled on top priority basis. *V*

ACTION: Attached for approval is a letterhead memorandum for dissemination to the White House, the Acting Attorney General, and Assistant Attorneys General of the Civil Rights and Criminal Divisions. They are being advised in the letterhead memo that a detailed report will be furnished promptly and further developments in this matter will be furnished in report form unless developments warrant more expeditious notification.

This is the case concerning the shooting of Governor George C. Wallace by Arthur H. Bremer.

Supervisor Hugh Barnhardt of the Baltimore Office telephonically advised the Bureau that he would be attending a conference in the office of the U. S. Attorney in Baltimore at 1 p.m. This conference would involve the discussion of evidence developed in this case as the matter is to be presented to a Federal grand jury on Tuesday, May 23, 1972. A representative of the U. S. Secret Service is also scheduled to attend the conference. Mr. Barnhardt desired to know if a copy of the manuscript found in the car of the subject could be made available to the U. S. Attorney. The original manuscript was obtained through the issuance of a search warrant.

ACTION: After checking with Mr. Felt, Supervisor Barnhardt of the Baltimore Office was advised that he could take a copy of the transcript to the conference and could discuss the matter with the U. S. Attorney as necessary in connection with the conference. He was advised that he was not to let the manuscript go out of his hands and that he was to maintain custody of it after the conference. SA Barnhardt was further advised that he should impress upon the U. S. Attorney the necessity for being most discreet concerning this particular item of evidence.

Enclosed is a letterhead memorandum for dissemination to the White House, the Acting Attorney General and Assistant Attorneys General of the Civil Rights and Criminal Divisions setting forth current developments in the shooting and wounding of Governor George C. Wallace and three other persons on 5/15/72.

Governor Wallace was interviewed 5/20/72, with the permission of his physicians, and stated he had no previous knowledge of Bremer, but expressed a belief that possibly he had seen him at one time or another.

Records at a Milwaukee pistol range indicate subject Bremer practiced there at least three times since January, 1972, using a 9 mm. pistol and a .38 caliber pistol. One witness recalls an individual possibly identical with Bremer, having practiced shooting at a silhouette target. Library records in Milwaukee indicated Bremer checked out "RFK Must Die" and "Sirhan," two books on the assassination of Robert F. Kennedy. Two savings and two checking accounts of Bremer's were located in Milwaukee, all closed as of 3/14/72. At that time he was paid \$1,269.13. What appears to be a 9 mm. bullet was located embedded under the carpet in a room in Howard Johnson's Motor Lodge, Port Huron, Michigan, where Bremer was registered on 4/10-11/72.

Investigation continuing to be handled on top priority basis.

ACTION: Attached for approval is a letterhead memorandum for dissemination to the White House, the Acting Attorney General, and Assistant Attorneys General of the Civil Rights and Criminal Divisions.

This is the case involving the shooting of Governor George C. Wallace and others at Laurel, Maryland, on 5/15/72.

Results of our investigation to date have been included in a 479-page report from our Baltimore Office and a 901-page report from our Milwaukee Office. These reports have been reviewed and reflect the following:

From extensive background investigation conducted the subject, Arthur Bremer, emerges as a withdrawn, immature, unstable individual, the product of an unsettled homelife marked by considerable conflict and a "loner" with no close associates or family ties. He resided with his parents in their Milwaukee home until October, 1971, when he announced he was moving into his own apartment. An argument ensued between Bremer and his father in which Bremer physically assaulted his father. He had limited contact with members of his family until April, 1972, when he refused to see any of them.

An average student at Milwaukee's South Division High School, from which he graduated in January, 1969, he was dismissed from the Milwaukee Area Technical College, where he majored in photography, in March, 1971, for academic reasons. Officials at both schools characterized him as a withdrawn individual, who failed to communicate with others and who only infrequently participated in classroom discussions. He was not active in student organizations at either school, had no known psychological difficulties and was not a disciplinary problem.

A loner he had no known close associates. He met _____ whom he regarded as _____

Memorandum to Mr. Bates
RE: WALSHOT

b6
b7c

Bremer held menial jobs as a busboy, waiter and janitorial assistant and during the period from 1969 to 1972, his net earnings were approximately \$7,500. He also operated a novelty button company from his residence under the name Button House.

From 1969 to March, 1972, he had several personal savings accounts, two personal checking accounts and one business checking account for Button House. He frequently transferred funds from one account to another and made regular deposits probably from his salary. On 3/14/72, he closed his only 2 remaining accounts, receiving a total of \$1,269.19 from them.

In November, 1971, he was arrested by the Fox Point, Wisconsin, Police Department, charged with carrying a concealed weapon, a .38 caliber revolver. The weapon was confiscated by the Police Department, and the charge subsequently reduced to disorderly conduct, for which he was fined \$38.50. Also in November, 1971, he was detained by the Menomonee Falls, Wisconsin, Police Department as a suspicious person on suspicion of burglary but was released in the absence of implicating evidence. He also received several traffic citations from the Milwaukee Police Department.

In connection with his trial on the charge of carrying a concealed weapon, Bremer was examined by a court-appointed psychiatrist, who characterized him as a "dull normal" personality who understood the charges against him. School health records in the 1950's described him as being "withdrawn and quiet." Investigation to date reveals Bremer has not received psychiatric treatment at any county or state mental institution.

Politically Bremer registered to vote in February, 1972, but did not list any party affiliation. He attended a number of meetings and rallies sponsored by the supporters of George Wallace, and fellow workers generally regarded him as a Wallace supporter, although one stated that Bremer would favor one of certain public figures one day and oppose him the next.

Memorandum to Mr. Bates
RE: WALSHOT

Several witnesses at the scene of the shooting have identified Bremer as the assailant and numerous others have reported hearing four or five shots and observing the ensuing arrest of Bremer.

The gun recovered at the scene of the shooting, a .38 caliber revolver, has been determined to be registered to Bremer.

Search of a 1967 Rambler Rebel automobile observed near the scene of the shooting and determined to be registered to Bremer, resulted in the location of a 114-page manuscript, identifying Bremer as the author. The manuscript records personal experiences and observations covering the period from April 4, 1972, to May 13, 1972, and indicates the author followed President Nixon during the President's visit to Ottawa, Canada, in April, 1972, and considered assassinating him. The manuscript further indicates that the author followed the activities of Governor George Wallace from May 4 to May 13, 1972, with the intention of assassinating him.

Various individuals have identified Bremer as having been in attendance at Wallace campaign rallies prior to the one at which the shooting occurred, including a rally held earlier on the day of the shooting at the Wheaton Plaza, in Montgomery County, Maryland.

A CBS television cameraman photographed the shooting incident and his film clearly depicts Bremer as the assailant.

To date no evidence has been developed indicating that Bremer conspired with others in carrying out the attempted assassination.

The investigation is continuing on a top priority basis.

ACTION: Attached for approval are memoranda transmitting the initial reports in this matter to the Acting Attorney General, the Deputy Attorney General, and the Civil Rights and Criminal Divisions of the Department, and to Secret Service.

This is the case involving the attempted assassination of Governor George C. Wallace on 5/15/72.

CONDITION OF GOVERNOR WALLACE

The past twentyfour hours have shown a marked improvement in the overall condition of Governor George C. Wallace. While plans to move the Governor to Montgomery, Alabama, are still under consideration, there is no indication at this time as to when this will be done.

ARRAIGNMENT ON LOCAL CHARGES

The subject is scheduled for arraignment on local charges at 9:00 a.m., Tuesday, 5/30/72, in Upper Marlboro, Maryland.

On 5/24/72 our Special Agent in Charge at Baltimore and the Warden of the Baltimore County Jail were served with writs issued by Prince Georges County, Maryland, officials directing them to produce the subject Arthur Bremer for arraignment on 5/30/72.

The United States Attorney at Baltimore has expressed the opinion these writs should be honored and our Baltimore Office is formulating plans to transport Bremer to the local arraignment under secure conditions.

CONDITION OF U. S. SECRET SERVICE AGENT NICHOLAS J. ZARVOS

The condition of U. S. Secret Service Agent Zarvos continues to improve. He is scheduled to undergo several additional surgical procedures in the future and current estimates indicate he will be hospitalized for another 5 or 6 weeks. 44-3-25-26-428

At his request, copies of the manuscript were furnished yesterday to Assistant Attorney General Henry E. Petersen, Criminal Division, for the Department's information and consideration in connection with Federal prosecution.

From an evidentiary and investigative reporting standpoint, it is felt that Baltimore should include a verbatim transcript of the manuscript in it's next investigative report. If approved, Baltimore will be instructed to do so.

ADDENDUM (AR:csh), 5/25/72 -

Reference is made to my addendum on a memorandum from Mr. Bates to Mr. Rosen, dated 5/22/72, at which time I indicated that there does not appear to be any need for Bremer to be brought before the local judge in answer to the indictment. This is an added risk and presents problems where we will be taking one more chance of exposure on the part of the subject. The indictment which is returned by the local authorities can be used as a detainer to be filed by the state authorities in the event the subject is disposed of in Federal court, either by trial or dismissal of indictment. SAC Farrow was advised to take no action until he received specific instructions from the Bureau.

McGowan to Bates memo
RE: WALSHOT

Addendum (continued) -

Subsequent to the foregoing, a memorandum was submitted, under date of 5/24/72* from Mr. McGowan to Mr. Bates, indicating that the U. S. Attorney in Baltimore had opined that the Federal Government will have to honor the local writ commanding subject's appearance for arraignment, and in view of the U. S. Attorney's opinion Baltimore was being instructed to make appropriate arrangements for the subject's appearance on local charges, on 5/30/72. (*sent through in my absence)

I still do not feel that the Federal Government is under any obligation to bring the individual before local courts for arraignment on local charges. This is merely a prerogative which we exercise. Under the circumstances, I have asked Mr. Bates to communicate with Assistant Attorney General Petersen, Criminal Division of the Department, to see if we cannot get the Department to hold in abeyance the transportation of Bremer to the local court.

I am greatly concerned about the protection of Bremer. The President has clearly indicated we are to assume complete charge of him and we are, therefore, chargeable with his safety. It would be impossible to attempt to justify any action which would result in another "Ruby" case. There does not seem to be any need to expose the Federal Government to this added risk, particularly when we would be within the jurisdiction of a local court.

SUBJECT: WALSHOT

This is the case involving the attempted assassination of Governor George C. Wallace on 5/15/72.

CONDITION OF GOVERNOR WALLACE

On May 25, 1972, Governor Wallace was experiencing some pain and discomfort from accumulation of fluids in his abdominal area. These fluids were drained and the Governor showed an immediate improvement and a marked reduction in pain. No decision has been made as to when the transfer of the Governor will take place.

ARRAIGNMENT ON LOCAL CHARGES

Special Agent in Charge Thomas Farrow of our Baltimore Office on the afternoon of May 25, 1972, personally discussed the matter of the local arraignment of subject with State's Attorney Arthur A. Marshall, Jr., Prince Georges County, Maryland. Arraignment will take place May 30, 1972, at 9:30 a.m., and the Federal Bureau of Investigation will be in complete command of all security arrangements. The FBI has been assured full cooperation in this regard. Contrary to news reports, there appears to be no definite date set for trial of subject Bremer according to discussion between SAC Farrow and Mr. Marshall on the late afternoon of May 25, 1972. Mr. Marshall has apparently made a statement to the press setting a "very tentative" date for trial on July 12, 1972.

MISCELLANEOUS

Milwaukee is submitting their second report in this matter to be mailed May 26, 1972. This will be appropriately reviewed at the Bureau for dissemination. Investigation is continuing on an expedite basis.

RE:

Deputy Ronald Jones, Montgomery County Sheriff's Office (MCSO) at 3 PM on the afternoon of May 19, 1972, furnished the following information:

Darrell Cook, Service Station Attendant, Kayo Service Station, State Route 201 and Beatrice Drive, Dayton, Ohio contacted the MCSO, Dayton, Ohio at 1:30 AM, May 19, 1972, and reported the following information, verified through interview of Cook by Deputy Sheriff J.R. Buenrostro.

At about 1:20 AM, May 19, 1972, a blue 1966 Ford with [redacted] stopped at this station. The car was driven by a white male who was accompanied by another white male and a male Negro in the car. The occupants of this vehicle got out and walked into the station where the driver asked Cook for a road map saying they were going to Maryland. The driver of this car said "I'm going to shake Wallace's hand, good this time." This man then pointed his finger as though it were a gun and said "Pow". The male Negro with him said "Yeah, we're going to get him." Both the driver and the male Negro then gave a clenched fist salute and all three got into the car and drove North on State Route 201.

b6
b7C

This car was stopped by Deputy G.K. Mc Dowell at a Sunoco Station at State Route 201 and Harshman Road, where he was joined by Deputy J.R. Buenrostro. They identified the occupants of this car as [redacted] (the name appearing on his Ohio Driver's License, but determined through later interview to be [redacted]), white male, [redacted]

white male, and [REDACTED] male Negro. After the deputy had questioned these men it was determined that [REDACTED] was wanted by the Dayton, Ohio Police Department on a traffic capias and he was turned over to Dayton Police for booking in the Dayton City Jail. [REDACTED] and [REDACTED] were released.

b6
b7C

[REDACTED] appeared in Traffic Court, Dayton, Ohio on the morning of May 19, 1972 and was released shortly after noon following payment of a fine. A map of the State of Maryland was found in this car.

On receipt of the foregoing information, investigation was immediately initiated at Dayton, Ohio.

The Kayo Service Station Attendant, identified fully as Maynard Darrell Cook was interviewed at his residence [REDACTED] Dayton, Ohio and he reiterated in substance information he had previously submitted to the MCSO.

b6
b7C

Dputies J.R. Buenrostro and G.R. Mc Dowell were also interviewed and they stated that [REDACTED] and [REDACTED] had been drinking, but were not considered intoxicated when they talked with them during the early morning hours of May 19, 1972. They claimed to be just fooling around and Mc Dowell quoted [REDACTED] as saying, "We're going to Baltimore, Maryland to see George Wallace, the last great hope for America." When asked by Mc Dowell how they expected to get in to see Wallace, [REDACTED] said "We have a plan."

b6
b7C

Deputy Buenrostro could recall none of the three making any reference to being in route to Maryland and it was determined that the car in which they were traveling was the property of [REDACTED] where [REDACTED] is employed as a used car salesman.

b6
b7C

RE: [REDACTED]

b6
b7C

Later on the afternoon of May 19, 1972, [REDACTED] and [REDACTED] were located at their respective homes and [REDACTED] at his place of employment. They were interviewed simultaneously at their different locations and each admitted the three of them having been together at the Kayo Service Station on State Route 201 during the very early morning hours of May 19, 1972. They were traveling in a car driven by [REDACTED] who explained his true name was actually [REDACTED] although the name [REDACTED] appears on his driver's license because of a typographical error and for this reason he is sometimes known by the name [REDACTED]

b6
b7C

All three, that is [REDACTED] and [REDACTED] declined making any threats against Governor Wallace and each claimed that all three were avid supporters of Mr. Wallace. Each claimed that any comments they made at the Kayo Service Station regarding Governor Wallace were complementary and that they would enjoy the privilege of shaking his hand as admiring Wallace supporters.

b6
b7C

[REDACTED] commented that [REDACTED] thinks more of Governor Wallace than he does of his own wife.

b6
b7C

Each stated that they had discussed the idea of going to Maryland to pay homage to Mr. Wallace and that [REDACTED] had asked for a Maryland map at the station.

Each stated that they had known each other for years and [REDACTED] a male Negro pointed out that [REDACTED] and [REDACTED] had convinced him to support Wallace whom he truly admires.

b6
b7C

[REDACTED] and [REDACTED] declined making any threats or derogatory comments concerning Governor Wallace.

All claimed to have voted for Mr. Wallace and [REDACTED] described himself as a former member of the National States Rights Party, saying he considers Governor Wallace the last hope for the United States.

Dear Mr. Wigginton:

I was interested in reading the views you set forth in your letter of May 19th.

In answer to your basic question, Angela Davis' trial is presently in progress in California and she, after spending some time in custody, was freed on bond.

Arthur Herman Bremer, the alleged attacker of Governor George Wallace, was pummeled by the crowd immediately following the shooting. This, of course, had no bearing on our system of justice as it was a spontaneous crowd reaction. Bremer is presently in Federal custody and is being held under \$200,000 bond.

I hope these facts will be of some assistance in bringing about an understanding as to why Angela Davis is not in physical custody as is Arthur Bremer.

Sincerely yours,

CORRESPONDENCE

Honorable Representative Wendell Wyatt
414 Cannon House Building
Washington, D. C.

Dear Representative Wyatt:

I do not have the time for a full length letter. I am really concerned about the terrorism sweeping this country which included the attempted assassination of Governor Wallace, a patriotic citizen. You use to belong to the F.B.I. The F.B.I probably has a lot of leads already, but I suggest at least one more to catch those behind this hired killer that tryed to kill Governor Wallace.

One thing that I have done is to keep comprehensive notes on the CONGRESSIONAL RECORD just like all you Congressmen do. A good Congressman keeps good notes on the CONGRESSIONAL RECORD.

The press would like to give the impression that Governor Wallace was killed by a "loner". I do not believe this to be true.

You may remember those articles in the CONGRESSIONAL RECORD on our controlled and unfree press. Some of the articles were: Television and the Mass Slicks--Hon. John Rarick--pages 28509--28514--September 22, 1970 CONGRESSIONAL RECORD; The Free Press--Hon. John Rarick Pages 28133-28138--Sept. 11, 1970 CONGRESSIONAL RECORD. There has been a lot of material on the Press over the years in the CONGRESSIONAL RECORD, but the above articles are the main ones.

I would say that whoever hired the killer of Governor Wallace had something to do with our controlled press & could be any owners of the Television mass media or newspapers. Someone was worried that Governor Wallace would be the Democratic choice for President. Whoever killed Governor Wallace probably made large contributions to Senator McGovern's campaign expenses. Then it would be someone who either made direct contributions to the leftist, Senator McGovern or it was indirectly done through third parties to Senator McGovern's campaign expenses. Besides the hired killer being financed by the leftist and subversive press there are other treacherous circumstances.

The communists know in Hanoi that they could not win with Governor Wallace or Humphery as President. They could win with a traitor like -----Senator McGovern. The communists in Hanoi and over the world could not win with President Nixon being the next President either. They would like first to get rid of President Nixon.

I think the communists through the communist run Press will continue the assassination and that further attempts will be made on the lives of patriotic Americans running for Congress. The one that financed the killer of Governor Wallace would have to be someone like Sam Newhouse or the owners of the television stations. Then the killer of Governor Wallace probably belonged to one or more of the radical organizations to overthrow our government like the S.D.S. Weathermen, and at least thirty more organizations all mentioned in the CONGRESSIONAL RECORD. I do not think that President Nixon should go to Russia.

ENCLOSURE

Original returned to Congressman Wyatt 44-52576-439

Then whoever killed governor Wallace could be a future large contributor of Senator McGovern for President or one that has so far only made a more modest contribution to his campaign expenses.

I wrote you not long ago that capital punishment should be mandatory for anyone who kills a policeman on duty or anyone in our government including anyone running for high office such as President. Nothing was done about it. Also there should be the death sentence for armed robbery or anyone using a hand gun in armed robbery.

Sincerely,

FBI

Enclosed is a letterhead memorandum for dissemination to the White House, the Acting Attorney General and Assistant Attorneys General of the Civil Rights and Criminal Divisions setting forth current developments in the shooting and wounding of Governor George C. Wallace and three other persons on 5/15/72.

Governor Wallace's physicians have reported there is no change in the partial paralysis condition. Mrs. Wallace has advised neither she nor the Governor have any prior knowledge of Bremer.

Background investigation on subject indicates he had a total income [redacted] from menial-type employment and bank accounts show no unusual transactions. Odometer on his car indicates he travelled 13,000 miles since September, 1971. Efforts are continuing to pin down his itinerary.

Complaint received on evening of 5/18/72 from local reported Governor Wallace campaign aide that he was accosted by two gunmen near his home in Falls Church, Virginia. Inquiries to date indicate complainant is a volunteer worker and not on Governor Wallace's campaign staff and no mention was made of his political activities by the gunmen. Investigation continuing to run this out. Civil Rights Division advised.

Information concerning the seizure of material at subject's apartment in Milwaukee on 5/15/72 set forth advising that a Secret Service Agent was already in the subject's apartment when the FBI Agents knocked on the door and the apartment was later placed under FBI control. Investigation continues to be handled on a top priority basis.

WALSH

Dear sir:

With the attempted assassination of Governor George Wallace, there are questions needing answers.

Within minutes after the shooting, a witness reported standing next to a man and a woman who were engaged in the following conversation:

The woman asked the man, "Well, do you like what you see here?" The man answered, "No!"

The woman said, "Well then, what are you waiting for?" At that point the shooting began.

After the shooting there was a search on for a blue Cadillac which was found a short distance away with a switch in license plates.

It was then reported, that Governor Wallace had been shot three times and three other victims had also been shot. That made a total of six shots and the gun was said to be a snub nose 38.

Such was the first report Mon. evening May 15.

The following morning May 16, the report from Holy Cross Hospital said the Governor appeared to have been shot four times. By evening of the same day and from the same source it was reported that he had been shot five times and that would make a total of eight shots fired.

CORRESPONDENCE

(2)

Unless the assailant had two loaded weapons on his person and had time to make the switch, he would have needed a miracle to fire eight rounds from a single 38 snubby without reloading.

Now the word is, that the intended murder weapon is foreign made with a cylinder capacity limited to five rounds and we still have three additional victims of gunfire and three extra shots unaccounted for.

Those three shots had to be fired by another person and from another weapon.

There is a remote possibility that another gunman could have been present and used that opportunity to fire those three shots and with the excitement working to his advantage, was able to escape unnoticed.

He could have been unknown to the captured suspect or he could have been his accomplice.

It has been established, that the suspect has been hind dlogging Governor Wallace from rally to rally if not from state to state.

Such activities require financing and since it seems apparent, that the suspect is not affluent in his own right, he had to have a sponsor and under the circumstances, an accomplice in order to account for those additional shots.

So me, those shots provide the key factor in determining whether or not the suspect was one of a group of persons engaged in a plot or one man

(3)

acting alone. As it stands we have three mystery shots and I believe there were involved and the aforementioned man and woman and the Cadillac could tie into it as well.

I believe Governor George Wallace is one of the greatest and most outstanding friend of all law enforcement agencies and an attack on Gov. Wallace is in effect, a direct attack on all such agencies and everything they stand for.

I personally want every lead run down even to the improbable ones.

I am trying hard to subdue my contempt for the suspect until he is tried and he should be well guarded from such associates as he may have had and the Ruby as well. We don't want to have to depend on "Persuasive" Evidence which is to say, No Evidence at all.

Also I hope, that nothing shall be undone by way of security for the Governor and his beloved family.

Governor Wallace is a true American Patriot and we are in dire need of his kind.

Yours truly,

Tom Herman

Reference is made to your addendum on McGowan's memorandum to me dated 5/25/72 which pointed out in part that the SAC, Baltimore, had been served with a writ to produce subject for local arraignment on 5/30/72. The U. S. Attorney at Baltimore expressed the opinion this writ should be honored and that we should make plans to transport Bremer to the local arraignment under secure conditions.

In accordance with your instructions, I discussed this matter with Assistant Attorney General Henry Petersen today. He said this had already been considered and the Department's view was that they would prefer a local detainer being placed rather than having Bremer appear for arraignment. Petersen pointed out that numerous approaches have been made to Marshall, the local prosecutor, to get him to cooperate in this matter and he feels this has been accomplished. Petersen suggests that SAC Farrow immediately contact Marshall and discuss this problem with him. We should point out the security risks involved and possible alternatives such as a detainer or arraignment in some other more secluded place and as a last choice only arraignment in local court. Petersen said if Marshall takes the position that there is no alternative to local court arraignment, it should be made plain to him that the FBI will be in complete command of all security regulations and that local authorities must cooperate completely and under the direction of the SAC at Baltimore. I told Petersen this would be done immediately.

There is enclosed for the Bureau a strip of 16 mm. color film (movie) approximately 24 inches in length. This was furnished on 5/25/72, by Mr. CULLEN FERGUSON of station WSOC-TV in Charlotte, N. C., following a review of films in possession of that station concerning appearances of Governor GEORGE WALLACE in North Carolina.

This strip of film shows a crowd at Greenville, N. C., listening to Governor WALLACE speak on 5/5/72. In the middle portion of this strip there are several frames in which appear an individual in the audience who conceivably could be ARTHUR H. BREMER. The individual who appears bears a closer resemblance to pictures which have appeared in newspapers of BREMER in other speaking appearances than to the photographs of BREMER taken following his arrest at Laurel, Maryland.

In these frames, the individual referred to appears slightly to the right and below the raised right elbow of Governor WALLACE. He is in about the third row of the audience, above a man in the front row who is holding a white paper across his chest. The individual referred to is just over the shoulder of a man in a pink shirt.

This film has been projected and viewed on equipment available to Charlotte, and it has not been possible to reach a definite conclusion whether this is or is not BREMER.

It is requested the prints be of whatever size appears to give the clearest detail, probably not over one-inch square as to the individual himself.

Please forward as soon as possible four copies of the photographs selected to Baltimore, Milwaukee, and Charlotte in order that Baltimore and Milwaukee can endeavor to make a definite determination whether this is BREMER.

Upon receipt of prints of this photograph, Charlotte at Greenville, N. C., will endeavor to determine whether this individual can be identified.

If Baltimore or Milwaukee has definite information that BREMER was elsewhere on 5/5/72, please advise Charlotte.

This is the case involving the shooting of Governor George C. Wallace and U. S. Secret Service Agent Nicholas J. Zarvos on 5/15/72.

In connection with the investigation items of personal clothing worn by Agent Zarvos at the time of the shooting were submitted to the Bureau Laboratory for appropriate examinations. The items included a shirt, coat, trousers, shorts, tee-shirt, tie, belt, socks, a pair of boots and a handkerchief.

On 5/25/72, Special Agent [REDACTED], Liaison Division, U. S. Secret Service (USSS) called and inquired, at Zarvos' request, whether it would be possible to return Zarvos' boots and belt to him. Zarvos is a patient at Walter Reed Hospital.

The only examinations performed on Zarvos' boots and belt were blood grouping examinations of blood specimens on both items. These examinations have been completed, and no further examinations of these items are indicated.

SAC Thomas Farrow was contacted and advised that no further examinations were desired on Zarvos' boots and belt. He discussed the return of those items with the U. S. Attorney in Baltimore who will prosecute the case and the U. S. Attorney authorized the return of Zarvos' boots and belt to him.

Other items of Zarvos' personal clothing are being retained as evidence.

ACTION:

If approved, in view of the U. S. Attorney's authorization, arrangements will be made to furnish Zarvos' boots and belt to Special Agent [REDACTED] Liaison Division, U. S. Secret Service, Room 812, 1800 G Street, N. W., Washington, D. C.

With reference to the writ served upon Special Agent in Charge Thomas Farrow of our Baltimore Office directing him to produce the subject, Arthur Bremer, for arraignment on local charges May 30, 1972, Mr. Farrow personally discussed the matter with State's Attorney Arthur A. Marshall, Jr., Prince Georges County, Maryland, on the afternoon of May 25, 1972.

Mr. Marshall would not agree to placing a state detainer against Bremer, nor would he agree to changing the location of the arraignment from the court house to some more secluded location.

Mr. Marshall did agree that the Federal Bureau of Investigation would be in complete command of all security arrangements in connection with Bremer's local arraignment and gave full assurances that representatives of local law enforcement would assist this Bureau in every way possible.

Bremer will be retained in FBI custody and his arraignment on local charges will be handled in accordance with the discussion held with Mr. Marshall.

Dear Mr. Redding:

In reply to your letter of May 20th, the FBI is conducting an extensive investigation of the attempted assassination of Governor Wallace and we certainly will discharge our responsibilities in connection with this matter with the same degree of thoroughness and dispatch which has characterized similar inquiries in the past. You may be sure this Bureau does not operate on a double standard with respect to matters coming within our jurisdiction. I trust the above will clarify our position for you.

Assistant Director
Federal Bureau Of Investigation
Washington, D.C.

Gentlemen:

WALLACE

W. Redding

It is clear that political assassinations are a disgrace to our country. Whether it be the Assassination Of President Kennedy, his brother Robert, Martin Luther King, or the attempted assassination of Governor George C. Wallace. It is Brastically wrong.

Lets take the case of All the other attempts, or assassinations of the above mentioned men. It is a known fact that the F.B.I., frantically went to work to asertain if paid assains were hired to murder these men. However, in the case of George Wallace, or the attemp on the life of Mr Wallace, there certainly isn't anything in the press, or T.V. news to even hint that there is any investigation being conducted, as far as conducting an investigation to asertain if the assaliant was hired by some one that wanted to get Governer Wallace out of the picture.

It seems strange to even me, that the assaliant, although was unemployed stayed at fairly expensive places, that is for some one totally with out incoming funds.

Again, let me say, when Martin luther King was murdered, and the others The F.B.I. ran over itsself trying to find some one paid. So do not all citizens of this country have the same rights, or is it a one sided deal? Is there a double standard?

Yours very truly,

N. Redding

Walsh

Dear Sir:

I would like to offer my opinion on the shooting of Mr. George Wallace.

I hear a lot of people say that if Arthur Bremer was paid to kill or shoot Mr. Wallace what good would the money do him if he was in prison. He knew he would be caught carrying out this act the way he did. But this is what you might want to consider in carrying out your investigation. There could be someone else just waiting to hijack an airplane and then try to make a bargain for Bremer's release. I believe more than Bremer was involved and I believe this would be his only hope in escaping.

These are my own beliefs and they might help you out.

Yours very truly,

*acknowled

This relates to the continuing investigation into the attempted assassination of Alabama Governor George C. Wallace on May 15, 1972. *KPH*

APPEARANCE OF SUBJECT BREMER FOR LOCAL ARRAIGNMENT

At 5:30 AM, 5/30/72, Arthur Herman Bremer was transported from the Baltimore County Jail, Towson, Maryland, to Prince Georges County Courthouse, Upper Marlboro, Maryland. Transportation was by an armored Prince Georges County police van driven by a Prince Georges County officer with FBI Agents inside. An additional police van was provided in case the main van encountered difficulties. FBI Agents in Bureau cars escorted the van to the courthouse. A total of 40 to 50 FBI Agents are being utilized and will be stationed throughout the county courthouse, the courthouse grounds, the city, and at all entrance points to the city to insure full security for Bremer. All persons entering the courtroom will be searched by a metal detector for any weapons. The arraignment of Bremer on local state charges is scheduled for 9:30 AM, 5/30/72, and is expected to last approximately 10 minutes. Bremer will then be immediately returned to Baltimore County Jail. This matter being given on-the-scene supervision by Baltimore SAC Thomas H. Farrow. Assistance under his supervision is being provided by the U. S. Marshals and the Prince Georges County Police. *1*

CONDITION OF GOVERNOR WALLACE

Governor Wallace remains hospitalized at Holy Cross Hospital, Silver Spring, Maryland. His condition remains stable and no date has been set for his return to Alabama.

SUMMARY.

SUBJECT BREMER WAS TRANSPORTED BY BUREAU AGENTS FROM BALTIMORE COUNTY JAIL, TOWSON, MARYLAND, MORNING OF MAY THIRTY INSTANT, TO THE LOCAL COURTHOUSE AT UPPER MARLBORO, MARYLAND, PRINCE GEORGES COUNTY, FOR ARRAIGNMENT ON LOCAL CHARGES. THIS ARRAIGNMENT TOOK PLACE IN PRINCE GEORGES COUNTY CIRCUIT COURT BEFORE CHIEF JUDGE RALPH W. POWERS. A PLEA OF NOT GUILTY WAS ENTERED BY THE COURT ON BEHALF OF BREMER WHEN BENJAMIN LIPSITZ, HIS FEDERAL COURT APPOINTED ATTORNEY, REQUESTED THAT HE BE GRANTED A REASONABLE DELAY IN FILING HIS APPEARANCE BEFORE THE COURT IN VIEW OF POSSIBLE CONFLICTS

OF INTEREST THAT COULD ARISE BETWEEN HIMSELF AND THE PRINCE GEORGES COUNTY PUBLIC DEFENDERS' OFFICE. JUDGE POWERS GRANTED LIPSITZ A REASONABLE DELAY IN FILING HIS APPEARANCE WITHOUT PREJUDICE TO A CHANGE OF PLEA AT A LATER DATE, AND LIPSITZ INDICATED THAT HE WOULD CONSULT THE UNITED STATES DISTRICT COURT AT BALTIMORE AT AN EARLY DATE TO RESOLVE THIS MATTER. MR. LIPSITZ INFORMED JUDGE POWERS THAT BREMER HAD EXPRESSED DESIRE TO BE REPRESENTED BY LIPSITZ IN PRINCE GEORGES COUNTY, AS WELL AS IN FEDERAL COURT AT BALTIMORE. BREMER WAS TRANSPORTED BACK TO THE BALTIMORE COUNTY JAIL BY BUREAU AGENTS WITHOUT INCIDENT.

AN APPEAL HAS BEEN FILED BY BREMER'S ATTORNEY WITH THE FOURTH CIRCUIT ASKING FOR A REDUCTION IN THE TWO HUNDRED THOUSAND DOLLARS BAIL, WHICH REQUEST WAS DENIED BY THE USDC, MAY TWENTYFOUR LAST.

GOVERNOR WALLACE'S CONDITION REMAINS STABLE AND NO DECISION HAS BEEN MADE AS TO WHEN HE WILL BE REMOVED FROM HOLY CROSS HOSPITAL, SILVER SPRING, MARYLAND, TO RETURN TO ALABAMA.

In connection with the investigation in this matter, a review has been made of the information contained in the subject's manuscript in light of the investigation conducted to date. While it is recognized that investigation of this matter is continuing and many of the leads set forth below may have already been covered or are in the process of being covered, the following leads are set forth for your consideration.

As you are already aware, it is essential that every possible effort be made to recover the first half of Bremer's manuscript which he has reportedly buried at an unknown location. It is felt that this portion of the manuscript will be of inestimable evidentiary value in developing motivation for Bremer's actions and efforts to recover it must be afforded continuous, top-priority investigative attention.

On page 149 of the manuscript, under the date of 4/4/72, the notation "Want to get rid of it in or near the big city," coupled with the graphic description of a slum area in New York City, which appears on page 150, indicates that the first half of the manuscript may have been buried near the Kennedy International Airport in New York City.

However, a closer reading of Bremer's entry on page 149, under the date April 5 would seem to more strongly indicate that the first half of the manuscript was buried in Milwaukee prior to his departure for New York on 4/4/72. In this

RE: WALSHOT

notation, Bremer states "Consider yesterday (4/4/72), the last minute rush, the Burying of the Book, and no car, one of my worst days."

From page 171 of the manuscript, it is known that Bremer's car had at least a flat tire when he left for New York City, which he did not attempt to repair until his return to Milwaukee on 4/9/72. While it is recognized that he drove on this tire on his return to Milwaukee before having it replaced, from his notation "no car" it appears he may have had other difficulties as a result of which the car was not available to him on 4/4/72.

In this regard, your attention is directed to page 877 of the report of SA William Doran at Milwaukee dated 5/21/72, setting forth the results of an interview with Sharon Sampson, who stated while hitchhiking in Milwaukee in early April, she had been given a ride by an individual she believed to be Bremer. During the course of the ride, the individual believed to be Bremer, stopped at a Standard Station at the corner of Ogden and Farwell Streets in Milwaukee, and was overheard to tell the attendant he was leaving town and his car was in need of repair. According to Sampson, the attendant agreed to take the car the following day.

Investigation should be conducted at this Standard Station to determine if this individual was in fact Bremer and if so, on what date he left the car for repair, the specific nature of the required repairs and if the car would have been unavailable to him on 4/4/72.

If investigation determines this individual was not Bremer, inquiry should be made of logical service stations and garages in the area of Bremer's residence to determine if he had his car serviced or repaired prior to his departure for New York and if as a result, it was unavailable to him on April 4, 1972.

Airtel to SACs, MI, BA
RE: WALSHOT

In relation to his comment concerning "the last minute rush," it has been established through investigation that at 2:18 p.m., 4/4/72, Bremer canceled his reservations on Northwest Flight 226 scheduled to depart Milwaukee at 2:40 p.m., 4/4/72, and subsequently took Northwest Flight 224 F which departed Milwaukee at 4:45 p.m., 4/4/72, and arrived at Kennedy International at 6:45 p.m.

The unavailability of a car, this delay, and the last minute cancellation of his reservation would tend to strengthen the theory he buried or otherwise secreted the manuscript before leaving Milwaukee. In this regard, it is noted that when taken into custody Bremer had in his possession a Milwaukee Suburban Transport Corporation transit ticket #81825C and the possibility exists that at the last minute he disposed of the manuscript at some location in Milwaukee that he could reach via public transit. Such locations might include places where he was formerly employed or was known to frequent. Appropriate inquiry should be conducted in this regard.

With reference to the interview of Sharon Sampson referred to previously, it is noted that Sampson stated that the individual she believed to be Bremer stated he was enroute to the "Journal" or the "Journal" parking lot. It is further noted Bremer when taken into custody had in his possession Waldorf Astoria stationery containing the notation "Milwaukee Journal (advertising only) 6E 43rd Street, 212-986-3434." If the individual identified by Sampson was in fact Bremer, the facts give rise to the possibility Bremer may have placed an ad in the Journal classified or personal columns which he later checked on in New York, giving some clue as to the disposition of the first part of the manuscript. Appropriate inquiry should be conducted in this regard.

It is essential that all information in the manuscript susceptible to verification be verified through independent investigation. In this regard, your attention is directed to the following items.

Airtel to SACs, MI, BA
RE: WALSHOT

A check with Secret Service Headquarters, Washington, D. C., disclosed that President Nixon was not in New York City during the period 4/4/72 to 4/9/72. [] visited New York City on 4/7/72 but the visit was a private one and was not publicized so that Bremer could have been aware of it. Senator Muskie campaigned in New Rochelle and White Plains, New York, during this period but there is no indication Bremer had any interest in him.

b6
b7c

In the absence of the first part of the manuscript and if Bremer buried it in Milwaukee, there appears to be no apparent reason for his expensive and time-consuming trip to New York City. While a check at Northwest Airlines indicates they kept no record of the seats occupied by individual passengers on flights Bremer took to and from New York City, efforts should be made to identify the passengers who flew in first class on Northwest Flight 224 F to New York and in coach class on his return trip to Milwaukee. Leads should be set forth to interview these passengers for any pertinent information they may have concerning Bremer and particularly any statements he may have made concerning his purpose in traveling to New York City.

On page 151 of the manuscript, Bremer notes his room in Howard Johnsons at Kennedy Airport was much smaller than the one he had in Madison, Wisconsin, for under \$17 total.

By teletype 5/26/72, Milwaukee advised Bremer stayed at the National Motor Inn, Madison, Wisconsin, on 2/13 and 2/14/72, which was a full two weeks before advance men for Governor Wallace scheduled that city for activity. It is further noted 2/13 and 2/14 were Sunday and Monday and prior investigation established Bremer worked at the Milwaukee Athletic Club until he failed to appear for work Wednesday, February 16, 1972.

Further inquiry should be conducted to resolve this apparent discrepancy and if Bremer in fact was at the National Motor Inn on the dates indicated, an effort should be made to determine the purpose of his stay at that time.

Of particular importance in this regard is whether Bremer was in contact with anyone while in Madison, Wisconsin, on the dates indicated.

Airtel to SACs, HI, BA
RE: WALSHOT

In connection with the date of Bremer's possible travel to Madison, it is noted Governor Wallace's schedule reflects he was in Madison on Tuesday, March 28, 1972, for the purpose of making tapes for local TV stations. A check should be made to determine if Bremer was registered in a motel or hotel in Madison on or about that date.

Page 154 of the manuscript deals with Bremer taking a helicopter to Wall Street and touring New York in a limousine, the driver of which referred him to the Fifth Avenue Hotel for a room.

While a check by the New York Office of established limousine companies failed to identify the driver in question, the possibility exists the driver was free-lancing and efforts should continue to identify and interview him. Since he was instrumental in Bremer's registering at the Fifth Avenue Hotel, he may have had an arrangement with and be known to the hotel management.

As relates to interviewing passengers, Bremer may have contacted on the helicopter flight, prior investigation developed that while New York Airways keeps no record of cash customers, they do maintain records on individual passengers who use credit cards. The identities of such passengers who were on the flight with Bremer should be obtained and leads set forth to interview them for any pertinent information they may have concerning Bremer.

On page 167 of the manuscript, information is set forth that Bremer took a cab from the Waldorf shortly after 3 p.m., 4/9/72, to the Westside Airlines on 42nd Street. Inquiry should be conducted to identify the driver of this cab and interview him for any pertinent information on Bremer.

On page 170, Bremer states he called the Chesapeake Car Ferry at Landington (actually Ludington) and made a reservation to leave on the 2:30 a.m. ferry from Milwaukee on the morning of 4/10/72. On page 174 he appears to verify he took the 2:30 a.m. ferry, had a long conversation with the ship's clerk who let him have a room at the day rate of \$5.00 rather than the night rate of \$10.00. The fact that he actually took the ferry at 2:30 a.m.,

Airtel to SACs, MI, BA
RE: WALSHOT

4/10/72, appears to be substantiated by the fact he registered at the Howard Johnson Motor Lodge in Port Huron, a distance of approximately 225 miles from Ludington, at 5 p.m. on 4/10/72.

A check at the Chesapeake and Ohio Marine Division, as set forth on pages 721 and 722 of the report of SA Doran at Milwaukee dated 5/21/72, resulted in what appears to be incorrect information that Bremer departed Milwaukee for Ludington at 8:10 p.m. on 4/9/72. Such contacts also developed that a room aboard the ferry is \$3.95, not \$10 as Bremer was told. Further inquiry should be made to resolve this matter, it being noted that Bremer apparently would not have had time to repair his car, wash his clothes and perform other related activities after his arrival from New York at 6:25 p.m., and be able to catch the 8:10 p.m. ferry.

Page 180 of the manuscript reflects Bremer disposed of excess ammunition for his .38 Special Caliber Revolver and 9 mm automatic pistol, as well as the cartridge boxes for such ammunition by throwing them into three separate sewers in a quiet residential part of Port Huron on the evening of 4/10/72. He also threw two gun cases in a pond on a vacant lot prior to leaving Port Huron and entering Canada on the morning of 4/11/72. Appropriate investigation should be conducted in an effort to recover these items.

In connection with all investigation in this matter, emphasis should be placed on determining whether there is any indication Bremer was associated with anyone else in connection with his activities or whether he traveled and acted independently.

In this connection, it is noted that Bremer terminated employment on or about 2/16/72, and his whereabouts and activities between 2/16/72 and 4/4/72 are largely unknown. Investigation should be conducted to determine his whereabouts and activities during this period when he was apparently unemployed and without commitments. Note is taken that he did not withdraw his savings, used to finance his travels and expenses during April and May until 3/14/72.

This matter must continue to receive top-priority investigative attention.

SAC Farrow, Baltimore, called at 4:45 p.m. today. He said this case will be presented to the Federal Grand Jury on the morning of 5/23/72, indictment will be returned, and subject Bremer will appear before Chief Federal Judge Edward Northrop at 10 a.m. 5/24/72, in connection with this indictment. The Judge's courtroom is located in the Federal Building in Baltimore and subject will be brought to this room by Agents and returned to the County Jail after the hearing by Agents. This will, of course, be a public hearing. SAC Farrow said that he was working out detailed security arrangements to insure absolute security. *CLM*

SAC, Baltimore, advised that it is anticipated subject will be indicted by local grand jury in Prince Georges County and will appear in answer to that indictment before Judge Ralph Powers in Upper Marlboro, Md., at 9 a.m. on Tuesday 5/30/72. The U. S. Attorney in Baltimore has agreed to this arrangement. In keeping with the President's instructions, Agents will transport subject to the hearing before Judge Powers, after which he will be returned to the Baltimore County Jail. Security arrangements are being worked out for that at the present time. *Kelly*

SAC Farrow stated that the U. S. Attorney expects that at the hearing before Federal Judge Northrop on Wednesday, 5/24/72, the Judge will probably order a full psychiatric examination. If not, the defense attorney, with concurrence of the U. S. Attorney, will ask for such an examination. It is not known at the moment where such examination will take place. According to the U. S. Attorney the Judge would like to have this done locally rather than sending Bremer to Springfield or some other Federal institution for the examination. *1*

ADDENDUM (5/22/72), AR/csh -

There does not appear to be any need for Bremer to be brought before the local judge in answer to the indictment. This is an added risk and presents problems where we will be taking one more chance of exposure on the part of the subject. The indictment which is returned by the local authorities can be used as a detainer to be filed by the state authorities in the event the subject is disposed of in Federal court, either by trial or dismissal of indictment. I have advised SAC Farrow that he should take no action until he receives specific instructions from the Bureau.

This letter was addressed to the Kiwanis, Silver Springs, Maryland, of which BROWNFIELD is the Kiwanis Secretary. The letter was postmarked, U.S. Postal Service, California, 913. The return address on the envelope was CHAS. ALTERNATHY, Mgr., General Motors Corp., Van Nuys, Cal., Ph. 782-1210. The letter was on the letterhead of the National Academy, 13137 Hartsook Street, Sherman Oaks, California, 91403. The contents of the letter are as follows:

"... World's Best Newspaper ... Where to look for Communist Doctrine?

"You can go to Boston, the fountainhead, as did HAROLD L. PICKETT, JR., where it has been nurtured by the Catholics and fostered by the KENNEDY's. From there it was brought to Calif. by Jewish psychologists, the Catholic Gov. EDWARD BROWN and the now dean of the Catholic St. Louis V. School of Med., ROBT. FELIX. From the beginning the HEARST Family has embraced the mafia and the communists; and their newspaper writers, like HARRY NELSON for the Herald Examiner, put out Jewish communist doctrine.

"The National Enquirer features the original "Old Hack" doctrine which pretends to be medical information by doctors like the said communist, ROBT. FELIX. A clever device used by communist front publications like the Enquirer is long quotes from sex deviates like CARY GRANT, inamorata of HOWARD HUGHES. They spout communism as a symptom of the disease.

BOB HAIMAN, Managing Editor, "St. Petersburg Times", on 5/27/72, made available attached photographs taken by "Times" photographer, WILLIAM BRAUN, on 3/4/72 at the Sarasota-Bradenton Airport while Governor WALLACE was campaigning in that area. Mr. HAIMAN stated that the three enlargements taken of the two strip film photographs reveal a similarity between one of the individuals in the crowd with that of BREMER, and thought the FBI would like to have the photographs for information purposes.

The individual in the photograph believed to be similar to BREMER is the individual wearing glasses in the background with short hair as indicated by the arrows. Photographs need not be returned, and Laboratory is requested to advise if it appears that the above-mentioned individual is identical with the subject.

ReButel 5/18/72 setting forth leads based on hand-written material found in subject Arthur Bremer's car. U

A review of this information in light of investigation conducted to date indicates the following additional leads should be covered. U

Subject Bremer entered Canada on the morning of 4/11/72 near Port Huron, Michigan, and drove to Toronto via the M C Freeway stopping for gas in London and for lunch and gas in Toronto. Efforts should be made to verify these facts, and individuals Bremer may have been in contact with should be interviewed for any pertinent information they may possess re Bremer. U

After making inquiry at the desk of the Chateau Lauvier Hotel in Ottawa at about 9 p.m. on 4/11/72, and finding no rooms were available, Bremer drove 58 miles out of Ottawa to get a room for which he paid \$9.00. He may have obtained this room in the Portland, Nembro, Elgin, area since he commented he thought he would have to cross the border to get a room. Inquiry should be conducted to determine where Bremer stayed on the night of 4/11/72 and persons he contacted there should be interviewed for any information of value they may possess concerning him. Bremer checked out of the room he stayed at on the night of 4/11 the following morning and obtained "a dumpy little runt of a room about 5 minutes from the city limits" of Ottawa. Inquiry should be conducted to determine the location where he stayed on 4/12/72 and individuals he contacted should be interviewed.

On the evening of 4/12/72, Bremer had dinner at the Commercial Airport in Ottawa at which time he inquired of his waiter whether President Nixon was scheduled to speak there. Efforts should be made to identify and interview the waiter who served Bremer for all pertinent details of their conversation.

On 4/13/72, Bremer drove to the Uplands Airport and at the intersection of the entrance road to Uplands, "the road to Interration," and the road to town, pulled up to a guard and inquired if he could get in to hear the President. The guard who had "short hair and shaggy features" asked Bremer if he was a member of the armed forces and when Bremer replied in the negative advised him there was nothing for the general public but he could remain on the road and see the President as he went by. Efforts should be made to identify and interview this guard for all pertinent details of his contact with Bremer.

Along the President's route, he inquired of a "fat cop" in an orange traffic control vest, where he might go to view the President as he passed by. The officer directed him to an empty gas station at the corner and he pulled in and parked with about 10 other cars. A "young, handsome cop" with a mustache took the license tag numbers of all cars, including Bremer's, entering the lot. Attempt to identify the officers involved and interview them for all pertinent details.

On Friday, 4/14/72, he walked past the American Embassy and saw what he believed was the President's car about 1:45 p.m. He ran back to the Lord Elgin Hotel, apparently to get his gun, but delayed to change clothes and when he returned to the Embassy, the car was gone. Apparently, he was nervous and excited during this period, and inquiry should be made among logical hotel personnel, desk clerks, maids, etc., to determine if they noticed him or any unusual activity on his part when he returned to the hotel.

Airtel to Legat, OTT
SACs, BA, MI

On Friday afternoon 4/14/72, Bremer was in the crowd on Parliament Hill when the President met with the Prime Minister. Two men, possibly Secret Service or RCMP, were on top of the American Embassy watching with binoculars and he waved at them to mock their security precautions. He regretted doing so immediately as one of the men studied him for sometime afterwards through his binoculars. Attempt to identify and interview these officers concerning this incident.

Friday evening Bremer saw the President leave the Art Center and on his way back to the Lord Elgin Hotel talked to a Ceremonial Mounty. This man had been on duty for 16 hours. Attempt to identify this officer and interview him for details of his conversation with Bremer.

On Friday or Saturday, April 14 or 15, Bremer felt he was photographed by the RCMP or Secret Service. He was walking on Sparks Street when he noticed a "white trench coat" crossing the street behind him. He stopped to look at a window display and this individual "6'3", brown hair, thin features" stopped near him. Bremer looked behind him and saw "another white trench coat" aiming a 16 mm camera at him. Attempt to identify officers involved, interview them, and determine if and why they photographed Bremer. Obtain any photographs they took of Bremer if available.

On Saturday, 4/15/72, while packing to leave the Lord Elgin, Bremer noticed that the lock on his carry-on-bag had allegedly been tampered with. It appeared to him someone had put something into the key hole and turned it, noticeably enlarging the key hole. He was not sure whether his room had been checked by the Secret Service or the RCMP, or whether he may have been responsible in his anxiety when he returned to the room to get his gun the previous day after seeing what he believed was the President's car at the American Embassy. He complained to the bell captain and the manager but received no satisfaction. Attempt to identify and interview the individuals Bremer complained to for all details of their contact with him.

Airtel to Legat, OTT
SACs, BA, MI

As noted above, investigation reflects Bremor entered Canada on the morning of 4/11/72, near Port Huron probably at Sarnia, Ontario. On 4/15/72, at 6:40 p.m., Bremor was stopped by a New York State Trooper and given a speeding citation on U. S. Interstate 81 near Binghamton, New York, indicating he reentered the United States from Ottawa on 4/15/72 in upper state New York.

In connection with all investigation in this matter, emphasis should be placed on determining whether there was any indication Bremor was associated with anyone else in connection with his travel and activities or whether he travelled and acted alone.

WALLACE SHOOTING: A CAMPAIGN ALTERED BY VIOLENCE

The Democratic presidential campaign of Gov. George C. Wallace of Alabama was halted, at least temporarily, by an assassination attempt at a May 15 campaign rally in Laurel, Md.

Wallace, 52, was partially paralyzed by one of four .38-caliber bullets that struck his body and caused internal injuries. Doctors at the Silver Spring, Md., hospital where he was taken expressed hope that later removal of a bullet lodged in the lower spine would prevent total permanent paralysis of both legs.

Doctors treating the governor were quoted as saying they were doubtful that Wallace, the 1968 presidential candidate of the American Independent Party, ever would walk again. But Wallace's aides said they were determined to continue the campaign.

Three other persons—a woman campaign worker, an Alabama state trooper and a Secret Service man—were injured in the spray of gunfire at the suburban Washington, D.C., shopping center on the eve of the May 16 Maryland primary. A suspect in the shooting was arrested immediately and held in Baltimore County jail in Towson, Md., on state and federal charges. He was identified as Arthur H. Bremer, 21, of Milwaukee. Bremer was held in lieu of \$200,000 bail. Federal officials said he was believed to have acted alone and not as part of a conspiracy.

Wallace was shot after a speech in a shopping center, one of several scheduled stops that day. Wallace won the primary with 39.1 percent of the votes and also won the

Michigan presidential primary the same day. (*Maryland results, p. 1137; Michigan results, p. 1139*)

Peak Effort. The shooting occurred as Wallace's 1972 primary effort was reaching its peak. He had won four state primaries—in Florida, Alabama, Tennessee and North Carolina—and had collected 210 national convention delegate votes. Wallace said he would not repeat his 1968 third-party campaign in the general election if his views were accommodated at the Democratic national convention. (*Florida results, Weekly Report p. 585; Alabama, Weekly Report p. 1038; Tennessee, Weekly Report p. 1041; North Carolina, Weekly Report p. 1080*)

Reaction. The two chief rivals for the Democratic nomination, Senators Hubert H. Humphrey (Minn.) and George McGovern (S.D.), temporarily ceased active campaigning immediately after the shooting. Humphrey, who went to the hospital where Wallace was taken, said, "All I can say is that it is a sad business. It's getting so you don't know what's going to happen in our country any more in politics."

McGovern, in Kalamazoo, Mich., said, "I'm totally shocked by this savage act. If we've gotten to the point in this country where public figures can't speak out on the issues of the day and seek the presidency without being shot, then I tremble for the future of our nation."

President Nixon, who dispatched a White House physician to Wallace's aid, called the incident "senseless and tragic" and added, "Our nation has suffered more than enough already from the intrusion of violence into its political processes. We must all stand together to eliminate this vicious threat to our public life. We must not permit the shadow of violence to fall over our country again." Nixon extended Secret Service protection to Sen. Edward M. Kennedy (D Mass.), Rep. Shirley Chisholm (D N.Y.) and Rep. Wilbur D. Mills (D Ark.). (*Box next page*)

Continuation Promised. Billie Joe Camp, Wallace's press secretary, said May 16, "The campaign is going to continue." He said the governor's wife, Cornelia, and other prominent persons would speak on Wallace's behalf. He said a television campaign would be mounted and suggested that "the governor could do some campaigning in a wheel chair."

Some observers pointed out that no other figure in American politics could immediately capture Wallace's constituency. His name was to be on only three remaining primary ballots, in Oregon and Rhode Island May 23 and in New Mexico June 6. (*Oregon and Rhode Island stories, Weekly Report p. 1072, 1074*)

1968, 1972 Comparison. Wallace's 1968 campaign—the first significant third-party movement since the Dixie-

Profile of Assassins

Thus it might have been hypothesized in 1968 that the next assassin to strike at a President—or presidential candidate, as it turned out—would have most of the following attributes:

- from a broken home, with the father absent or unresponsive to the child;
- withdrawn, a loner, no girl friends, either unmarried or a failure at marriage;
- unable to work steadily in the last year or so before the assassination;
- white, male, foreign-born or with parents foreign-born; short, slight build;
- a zealot for a political, religious, or other cause, but not a member of an organized movement;
- assassinates in the name of a specific issue which is related to the principles or philosophy of his cause;
- chooses a handgun as his weapon;
- selects a moment when the President is appearing amid crowds.

—Final report of the National Commission on the Causes and Prevention of Violence, Dec. 13, 1969, p. 124.

Secret Service Protection

When Alabama Gov. George C. Wallace was wounded May 15, he and other leading candidates for President were receiving Secret Service protection under legislation prompted by the assassination of Sen. Robert F. Kennedy in 1968. (1968 *Almanac* p. 116, 219)

President Nixon immediately extended Secret Service protection to two more Democratic candidates, Representatives Shirley Chisholm (N.Y.) and Wilbur D. Mills (Ark.) and to a possible candidate, Sen. Edward M. Kennedy (Mass.), who has been the object of frequent threats of violence.

On June 5, 1968, as Robert Kennedy lay dying in a Los Angeles hospital of gunshot wounds, President Johnson ordered Secret Service details to protect each of the major candidates for President. Kennedy had been shot early that morning while leaving a victory celebration after the California primary, in which he defeated former Sen. Eugene J. McCarthy (D Minn. 1959-71).

Wallace, then the American Independent Party candidate, Nixon and McCarthy were among those who received protection in 1968. Sen. Hubert H. Humphrey (D Minn.), then vice president, already was under Secret Service protection.

Congressional Action. Congress on June 6, 1968, hours after Kennedy's death, passed a resolution to provide immediate protection for candidates. Later, Congress provided a permanent protection program (PL 90-350).

Under this legislation, Wallace, Humphrey, Sen. Henry M. Jackson (D Wash.), Sen. George McGovern (D S.D.) and Sen. Edmund S. Muskie (D Maine) have been protected by Secret Service details during the 1972 campaign. Mayor John V. Lindsay of New York, who dropped out of the campaign after losing in the April 4 Wisconsin primary, reportedly had refused protection.

McCarthy, a minor candidate in the 1972 primaries, is not receiving protection. His case and those of Dr. Benjamin Spock, the candidate of the People's Party, Rep. Patsy T. Mink (D Hawaii) and John M. Ashbrook (R Ohio) are under review by the Treasury Department.

Bipartisan Committee. The 1968 act provides that a committee consisting of the majority and minority leadership of the two houses of Congress and a public member recommend candidates needing protection to the treasury secretary, who makes the final determination.

The Senate passed a resolution (S J Res 222) April 19 strengthening the role of the committee. The resolution authorized the Secret Service to extend protection to all candidates certified to the treasury secretary. The House Judiciary Committee, which received the legislation April 20, had not acted on it by May 17. The Senate Democratic Policy Committee reportedly urged passage of S J Res 222 to provide protection for Edward Kennedy, who plans to campaign for other candidates.

crat and Progressive efforts of 1948—won him 13.5 percent of the popular vote and 46 electoral votes from five southern states: Alabama, Arkansas, Georgia, Louisiana and Mississippi.

He campaigned more openly as a racial segregationist in 1968 than in 1972. His message in the 1972 Democratic primaries had been directed toward the "little man." He spoke about what he defined as the two central grievances of working-class whites: busing of schoolchildren away from neighborhood schools and burdensome federal taxes. He urged his supporters to "send a message" to Washington by voting for him. At campaign rallies, his speeches seldom varied—he deplored efforts by the Departments of Justice and Health, Education and Welfare to interfere with local control of schools and he criticized corporations and foundations that did not pay a fair share of taxes. Wallace attracted large crowds to his rallies and stump appearances and raised hundreds of thousands of dollars in small campaign contributions. (*Campaign profile, 1971 Weekly Report* p. 2220)

Wallace's populist approach was tinged with racial overtones. On his inauguration to his first term as governor in 1963, he announced a policy of "segregation now—segregation tomorrow—and segregation forever." He admitted that he was a segregationist but insisted that he was not a racist. "A racist is a man who dislikes another man because he is black—he despises the handiwork of God," said Wallace. "A segregationist is a man who likes people and knows that when God made some men black and some men white, He separated us Himself in the beginning."

Personal History

Wallace was born Aug. 25, 1919, in Clio, Ala., in what was then one of the poorest rural areas of the state. He received his law degree in 1942 from the University of Alabama and served in the Army Air Corps from 1942 to 1945.

Political Entry. He served briefly as an assistant state attorney general in 1945, and the following year he won election to the Alabama house from Barbour County. As a legislator, he worked to expand vocational education and to bring new industry to the state. He practiced law privately during this period, handling wills and estates and defending in criminal cases.

While a member of the legislature in 1952, Wallace was elected judge of Alabama's third judicial circuit, and he served until 1959. He won statewide attention in 1958 when he refused to allow representatives of the U.S. Civil Rights Commission to examine voter registration lists as part of an investigation of discrimination against Negroes. He was cited for contempt of court, but the charge was dismissed by U.S. District Judge Frank M. Johnson, a liberal and a former college classmate of Wallace.

Wallace ran unsuccessfully for governor in 1968, finishing second in the first Democratic primary but losing the runoff to Alabama Attorney General John Patterson by 64,902 votes (44.3 percent). After his defeat, Wallace reportedly declared, "They out-niggered me that time, but

they'll never do it again." He practiced law in Montgomery from 1959 until 1962.

Governorship, Presidency. In the 1962 campaign, Wallace won the first primary and the runoff by comfortable margins, both times defeating the late Ryan deGraffenreid, a state senator. Wallace's margin in the runoff was nearly 72,000 votes. His term as governor was marked by continuing conflict over civil rights. He stood in a doorway at the University of Alabama to prevent two Negro students from enrolling and ordered state police to use force to stop a protest march from Selma to Montgomery.

In 1964, Wallace ran in three primaries for the Democratic presidential nomination. He won 33.9 percent of the vote in Wisconsin, 29.9 percent in Indiana and 42.7 percent in Maryland. But he withdrew as a candidate after the Republicans nominated Sen. Barry Goldwater (Ariz.).

Unable to persuade the legislature to pass a bill allowing him to succeed himself as governor, Wallace asked voters to support his wife, Lurleen, for the post in 1966. She won by a large margin but died of cancer May 7, 1968.

After his 1968 campaign for the presidency, Wallace returned to Montgomery to practice law. He again entered politics in 1970 by defeating incumbent Gov. Albert Brewer (D 1968-71), who had succeeded the late Lurleen Wallace. In the runoff against Brewer, Wallace won 51.5 percent of the vote.

The closeness of the runoff indicated the difficulties Wallace has had in maintaining the Alabama statehouse as a base for his national political aspirations. He has had continuing trouble with the state legislature, and one of his chief antagonists has been Lt. Gov. Jere L. Beasley, 36, a former Wallace protege who has become a leading opponent of the governor. In April, recall petitions began circulating in the state to remove Wallace from office because of "willful neglect" of his official duties while campaigning for the Democratic nomination.

Gun-Control Legislation

The Wallace assassination attempt revived efforts in Congress to enact tougher control over handguns. Sen. Birch Bayh (D Ind.), chairman of the Senate Judiciary Committee's Special Subcommittee on Juvenile Delinquency, and a proponent of gun-control legislation, called a subcommittee meeting May 17 to consider a gun-control bill. Hearings were held in 1971 on a bill (S 2507) that would tighten registration requirements for handgun sales, particularly "Saturday night specials." (1971 *Almanac* p. 810; committee story, p. 1157)

"These are vicious weapons that have no legitimate sporting use," Bayh said. "They were used in more than half of the nation's murders in 1971, including 70 policemen. Under the terms of my bill, the type of gun used against Gov. Wallace would have been banned."

Federal agents investigating the Wallace shooting said the gun used in the crime was traced in about 10 minutes to a store in Milwaukee. The tracing was possible, the agents said, because of the 1968 Omnibus Crime Control and Safe Streets Act. (*Congress and the Nation* Vol. II, p. 328)

Ironically, Wallace—who opposes stronger gun-control measures—was shot in a state in which there is

strong resistance to tighter regulation of guns. Former Maryland Sen. Joseph D. Tydings (D 1965-71) was defeated in 1970 in a campaign marked by controversy over his support of stronger gun laws. However, the Maryland Legislature in 1972 passed a firearms control law despite the opposition of state gun clubs.

The red notebook, also titled "dri-point memo book," contains 60 pages by actual count. Handwritten notations refer to numerous unrelated items, making no reference to school work, business, or general activities.

The contents of items 13 and 28 appear to have no relevance to this investigation.

Item 26 does not appear to have any relevance in the investigation.

Item 27 may contain information germane to the investigation in that it sets forth Wallace's name and several cities; however, independent investigation provided substantial amounts of similar data and it is therefore not deemed necessary in this case.

No other investigation was conducted by the Federal Bureau of Investigation regarding any material found in the apartment, except as indicated on page 25 of referenced letterhead memorandum.

SUMMARY

TWO SOLDIERS ASSIGNED TO FORT MEADE, MARYLAND, WHO WERE PRESENT AT THE WALLACE RALLY AT LAUREL, MAY FIFTEEN LAST, HAVE BEEN INTERVIEWED AND THIS INTERVIEW REVEALED THAT THEY WERE THERE IN CONNECTION WITH THE USUAL SECRET SERVICE REQUEST FOR THE MILITARY TO CHECK ON EXPLOSIVES, ETC. THEY WERE SOME DISTANCE AWAY FROM THE ACTUAL SHOOTING AND DID NOT OBSERVE BREMER.

AVAILABILITY OF SECRET SERVICE REPORTS REGARDING THE WALLACE SHOOTING. USA WAS INFORMED THIS OFFICE DID NOT HAVE COPIES OF SECRET SERVICE REPORTS WITH THE EXCEPTION OF AFFIDAVITS OF THOSE AGENTS PRESENT AT THE SHOOTING. IT WAS SUGGESTED TO THE USA THAT HE ATTEMPT TO OBTAIN COPIES OF THE COMPLETE SECRET SERVICE REPORTS DIRECTLY FROM SECRET SERVICE AND HE SAID THIS WOULD BE DONE.

THE CONDITION OF GOVERNOR WALLACE DURING THE PAST TWENTYFOUR HOURS HAS REMAINED SATISFACTORY. THE GOVERNOR SHOWS SLOW GRADUAL INCREASE IN STRENGTH AND APPETITE. THERE HAS BEEN SOME SLIGHT VOLUNTARY MOVEMENT OF THE LEFT TOES. THE OVER-ALL SIGNIFICANCE OF THIS IN REGARD TO THE EVENTUAL OUTCOME OF HIS PARALYSIS IS UNDETERMINED AT THIS TIME. NO DECISION HAS BEEN MADE AS TO WHEN OR WHERE THE TRANSFER OF THE GOVERNOR FROM HOLY CROSS HOSPITAL WILL TAKE PLACE.

THERE HAS BEEN NO OUTBURSTS FROM ARTHUR BREMER DURING THE PAST TWENTYFOUR HOURS AND HE HAS REMAINED CALM IN HIS BALTIMORE COUNTY JAIL CELL WHILE BEING GUARDED BY BUREAU AGENTS.

GENERAL INVESTIGATIVE DIVISION

This is the case involving the shooting of Governor George Wallace at Laurel, Maryland on 5-15-72.

Attached reflects U.S. Attorney (USA), Baltimore, is b5

In conference with Federal Judge Northrup, the Government has been instructed to turn over various items to which the defense is normally entitled, and to save Government expense and expedite trial, agreement was also reached to furnish items which defense would normally develop through use of a private investigator. USA's staff is reviewing our report for this purpose and Baltimore will advise what information USA's Office will actually furnish defense.

The photograph of the individual referred to in attached and in whom Secret Service is interested from protection standpoint, appears in CBS films depicting the actual shooting of Governor Wallace. We are conducting inquiry to determine if this individual is identical to unidentified male who appeared near Bremer in photographs taken in Ottawa during President's visit there.

Mrs. Julie Pontz Curson, [REDACTED]

b6

[REDACTED] Philadelphia, Pa., Municipal Tour Guide, City Hall, Philadelphia, Pa., advised on May 19, 1972, she recalled having taken four individuals on a tour of Philadelphia City Hall on May 3, 1972, when one tourist to her recollection, somewhat resembled a photo of Arthur H. Bremer as shown in recent newspaper articles. She advised no records are kept of names or addresses of tourists. She stated that there was no indication as to this individual's occupation, background, etc. She advised she recalls this unknown individual because of his definite impoliteness, his continual interruptions while she was speaking, and his continual definite deep nasal noises while breathing. During tour, she recalled he told her Senator Hubert Humphrey was in Philadelphia, Pa., and was staying at the Bellevue Stratford Hotel, Philadelphia, Pa. Upon leaving the tour group, he inquired from her the directions to the Bellevue Stratford Hotel.

She described this unknown individual as a white male, 20 to 25 years of age, five feet six inches to five feet seven inches tall, light brown hair one inch long, even crewcut, clean shaven, wearing a navy blue zippered jacket with elastic at waist, chewed gum continuously, excitable and nervous in speech and mannerisms, no accent, and spoke in short, terse sentences, and made continual deep nasal noises while breathing. She recalled no further description.

Mrs. Julie Pontz Curson on May 23, 1972, was unable to identify photographs of Bremer taken May 15, 1972, as identical to individual whom she had in tour of City Hall, Philadelphia, Pa., May 3, 1972. She advised her recollection of the individual in her tour of May 3, 1972, was too vague to effect any degree of certain identification, but in her considered opinion, this individual was not identical to photographs of Bremer.

Examination requested: Document - Fingerprint - Firearms

Remarks:

You are being advised separately concerning the results of the examination of Q174, the registration card.

If the Q175 piece of lead represents a bullet fired through some object or objects prior to striking the floor where it was recovered the Detroit office, if not already done, may wish to exhaustively search these other objects, considering use of X rays, in order to locate the jacket portion of the bullet. In this connection, it is pointed out that a 9mm Parabellum caliber Browning pistol recovered from the subject's automobile was rusted to such an extent that it would not be possible to identify this weapon with any bullet fired from it prior to the time the rusting occurred.

Specimen Q175 is being temporarily retained in the Laboratory.

Q175 One piece of lead

Result of examination:

The piece of lead, Q175 is part of the core of a metal-jacketed bullet. The entire jacket portion of the bullet is missing. The barrel marks needed for comparison and the physical bullet characteristics needed for determining caliber, manufacturer and type of bullet would appear on the jacket and do not appear on Q175. Therefore, Q175 is of no value for identification with the weapon from which it was fired.

Our Milwaukee Office has advised that information concerning the manuscript recovered from subject Bremer's automobile has appeared in the June 5, 1972, issue of "Newsweek" magazine. A copy of the article is attached hereto.

The article does not cite the source of its information but from a review it would appear to have come from someone who has actually read or had access to the manuscript.

Dissemination of copies of the manuscript and its transcription has been made as follows:

One copy of each was furnished U. S. Secret Service in Baltimore and likewise in Washington, D. C. These 4 copies were returned on 5/19/72.

One copy of each was furnished to Mr. John Ehrlichman at the White House and these have not been returned.

Two copies of the transcription and one copy of the original have been furnished to Henry E. Peterson, Assistant Attorney General, Criminal Division, U. S. Department of Justice. These have not been returned.

One transcribed copy was furnished to SAC Edward Joseph Hayes, Milwaukee, and is still in his possession.

The U. S. Attorney, Baltimore, has been furnished one copy of each for use in prosecuting this case.

The original, a copy, and a transcribed copy have been furnished to the FBI Laboratory.

A face in the crowd: Bremer (right) stalking the President in Ottawa

Bremer: Have Gun, Will Travel

There it was again—the same grinning face with the same dark glasses and the same mat of pale blond hair. Arthur Herman Bremer, a time bomb ticking away somewhere inside, was standing near the edge of the crowd, hoping to get close to the candidate. But it wasn't Laurel, Md., and Bremer's quarry wasn't George Wallace—that fateful conjunction would not come for nearly a month. This time, the scene was Parliament Hill in Ottawa, Canada, and the target was President Richard Nixon.

An investigation by 200 FBI and Secret Service agents last week turned up the eerie snapshot of an assassin stalking the President of the United States. And sources close to the investigation told NEWSWEEK there was documentary evidence that Bremer had made his way to Canada with the express purpose of killing Mr. Nixon but apparently found security too tight. The FBI has what amounts to a long and rambling log of Bremer's quest written out in longhand—the "various pages of lined notebook paper containing miscellaneous items" that were reported by Federal agents who searched Bremer's cluttered car after the Wallace shooting. The journal runs to nearly 100 pages and, like the random scribbles found in his unkempt Milwaukee apartment, reads like "a commentary on his own behavior and actions," according to one insider. How solid is this evidence? "Like a ton of bricks," said another.

Federal investigators believe that Bremer covered thousands of miles in pursuit of Mr. Nixon and Wallace during the one and a half months that preceded the shooting in Laurel. The startling tale of Bremer's long hunt for his quarry was pieced together last week as the gunman

pleaded not guilty to Federal charges and as his victim showed certain improvement. There was no easing of Wallace's paralysis below the waist, but the Alabama governor was sitting up in bed, feeding himself and experiencing some sensation in his thighs and some reflex movement in his toes.

Despite the authorities' belief that Bremer had set his sights exclusively on Wallace and the President, Sen. Hubert Humphrey also figures briefly in the gunman's reconstructed itinerary. Indeed, one of the early sightings of Bremer on the campaign trail was at a Humphrey rally in Milwaukee, Bremer's hometown, on April 3. Next day, however, he was at Wallace headquarters in Milwaukee to watch the primary returns. A New York Times reporter who noticed him there asked why he thought the governor would win. "Because he's saying all the right things," enthused Bremer, who was sporting a saucer-size Wallace pin on his lapel.

Trip: Then Bremer's horizons broadened. On April 5 or 6 he was at the Milwaukee office of the Chesapeake and Ohio Railway, with two unidentified companions, inquiring about a ticket for the auto ferry across Lake Michigan. Before taking that trip, however, he sped east and spent the next two days at the Waldorf-Astoria, in New York City, where Humphrey was also scheduled to stay (but didn't). On April 9, Bremer's car was reported on the 8:15 p.m. C&O ferry from Milwaukee to Ludington, Mich. And he continued northeast to Ottawa in time for President Nixon's heralded visit. Ironically, Bremer—who had already bought the two guns he took with him to Laurel—stayed at the Lord Elgin Hotel, which also was being used

as an advance party of U.S. Secret Service agents.

And so, as Mr. Nixon shook hands with bureaucrats and common folk at the Parliament building on April 14, Arthur Bremer was waiting. But according to NEWSWEEK's Henry L. Trewthitt, who covered the trip, most of those around Bremer were hostile students from Toronto and the President was safely steered away from them. "In retrospect, it makes the somewhat oppressive security measures seem worthwhile," one Canadian official commented rather dryly last week.

Arrest: When Mr. Nixon headed back for Washington, Bremer was not far behind. Driving south on April 15, Bremer was arrested for speeding on Interstate 81, about 15 miles outside Binghamton, N.Y. Later, he checked in at a motel on the outskirts of Washington where he was registered for three nights. On April 28, Bremer turned up on the C&O ferry from Ludington to Milwaukee and on May 9 he made a return trip, showing up next day at a Wallace rally in Cadillac, Mich. On May 12, he was at the Reid Hotel in Kalamazoo and on May 13 he was questioned by police while waiting for another Wallace rally there. Two days later he was at Wallace rallies in Wheaton, Md., and at the shopping center in Laurel where his quest finally ended in a flurry of gunfire.

For all the obvious cost and complexity of Bremer's wanderings, authorities still maintained that he had acted alone. "There is no evidence of any friends or associates who could help him if he were released," said U.S. Attorney George Beall during Bremer's arraignment on Federal charges in Baltimore last week. The four-count Federal indictment could bring Bremer a maximum sentence of 40 years in jail; a 24-count state indictment (including four counts of attempted murder) could mean the death penalty or life imprisonment. Bremer, dressed in a sporty knit jacket and black shirt, sat impassively through most of the session—except for

Wallace mending: No more speeches

several moments when a familiar, chilling smile crept over his face.

At Holy Cross Hospital in Silver Spring, Md., a medical bulletin pronounced the movement in the governor's toes "most encouraging," but doctors doubted that it had much bearing on his chances to walk again. Wallace showed the effects of his ordeal when he met reporters at midweek. He was cheered by his second-place finish in Oregon, but said weakly: "I'm sorry it had to end this way. There won't be any more speeches for you fellows." He summoned the newsmen back a few hours later to insist that he was talking only about his Maryland campaign, not his quest for the Presidency. As for Bremer, the governor sounded almost philosophical. "He sure enough was out to get me, wasn't he?" he mused to an aide. "It's too bad you can't identify people like that ahead of time."

SUPREME COURT:

The Nixon Way

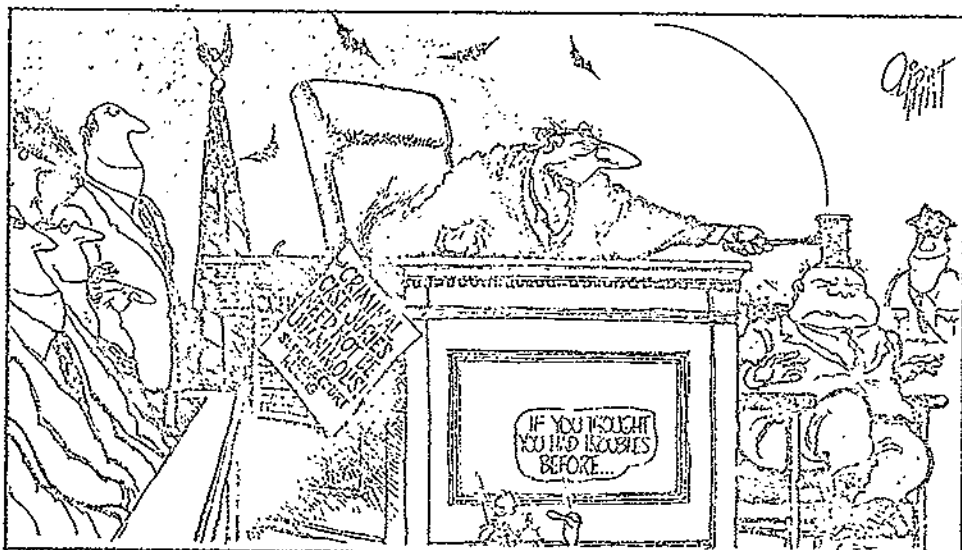

Richard Nixon swept to the Presidency in 1968 pledged to remake the U.S. Supreme Court in his own law-and-order image—and last week, four years and four appointments later, it came clearer than ever that he has kept his promise. With his new Justices as the nucleus, the emergent Nixon Court returned a series of benchmark decisions holding (1) that a jury in a state court doesn't have to be unanimous to convict a suspect of a crime and (2) that a witness can be forced to testify in a government inquiry without being granted total immunity from prosecution. Neither ruling was likely to undermine the whole structure of American liberties, as several wounded survivors of the old Warren Court mourned in dissent. But the week's work did establish the four Nixonians as a cohesive bloc in their first important criminal cases together—a bloc large and conservative enough to carry the day for Mr. Nixon's "peace forces" in a whole chain of hard judgments yet to come.

The hardest last week were two testing the ancient common-law principle that a jury must be unanimous to convict. This requirement has eroded a bit over the years: England dropped it in 1967, with no great impact on its system of criminal justice, and four states (Louisiana, Oregon, Oklahoma and Montana) permit convictions by less-than-unanimous juries. Still, the old rule seemed untouchable in much of the U.S. until last week, when the Court got around to a group of appeals from felony suspects convicted by votes of 11 to 1 and 10 to 2 in Oregon and 9 to 3 in Louisiana. The Court's own verdict on split decisions was divided. The breakdown was 5 to 4, the Nixon Justices—Warren Burger, Harry Blackmun, Lewis Powell and William Rehnquist—joined by a law-and-order-minded holdover from the Warren Court, Kennedy appointee Byron R. White. Their

judgment: a state may permit convictions by an unspecified "heavy majority" of jurors, not just by unanimous vote.

Writing for the Court, Justice White—who may have got the assignment precisely because he was the only non-Nixonian in the majority—conceded that the requirement of unanimity had roots in the Middle Ages and had been settled in Anglo-American law since the eighteenth century. But, he went on, the framers of the Constitution consciously left it out of the Sixth Amendment, which requires only trial by jury—not conviction by a unanimous jury. White thought this requirement adequately satisfied if the dissenters on a jury are merely heard; he didn't think they had the further right to "block convictions." He rejected the defense argument in the Louisiana case that

The week's other key cases challenged Nixon-vintage Federal law (and a similar statute in New Jersey) narrowing the protections for witnesses required to testify before grand juries or other government inquiries. Under an 80-year-old precedent, a person could be compelled to talk only if he was granted complete immunity from prosecution for anything touched on in his testimony. The new laws, aimed mainly at organized crime, allow prosecution provided the authorities don't use either the testimony itself or any leads derived from it. The appeals came from a New Jersey gambler and two anti-draft conspiracy suspects in California, all of whom invoked the Fifth Amendment anyway and were convicted of contempt. The Court voted 5 to 2 to uphold the convictions

'Eight to four--that's guilty enough, by golly! Thirty years!'

anything less than a unanimous verdict undercuts the rule that guilt must be proved beyond a reasonable doubt.

The holding put the Court on chancy new constitutional ground, and not even the Nixonians were quite as unanimous as they looked. Powell argued that the Sixth Amendment in fact does require unanimous verdicts but only in the Federal courts; his reservation meant in effect that the High Court will apply a double standard, accepting split decisions from the states, requiring unanimous convictions by U.S. juries. The dissenters were appalled by any retreat at all from the old way. "The Constitution," said William O. Douglas, "does not mention unanimous juries... [but] neither does it mention the presumption of innocence nor does it say that guilt must be proven beyond a reasonable doubt in all criminal cases." The system till now, he said, had always tolerated a certain degree of inefficiency in the interests of fairness. "Now," he went on, "a 'law-and-order' judicial mood causes these barricades to be lowered... The vast restructuring of American law which is entailed in today's decisions is for political, not for judicial reasons."

on the ground that—as Powell wrote for the majority—the reduced protections are still "very substantial."

The immunity cases could have more effect faster than the trial-by-jury decisions: they license an eager Justice Department to use a hitherto uncertain law against the mob, plus white-collar criminals and radicals as well. But the jury rulings had the most dramatic psychic impact: There were loose ends left to be knotted—notably how big a majority for conviction is big enough—and the scope of the ruling will be narrow until the states begin writing the principle into their own law. The results in those states that already have done so have been relatively modest. "The jury just comes back quicker," says one New Orleans criminal lawyer; the likeliest consequence is increased pressure on suspects to plead guilty to lesser charges—the plea-bargaining process by which most criminal cases are settled anyway. But civil libertarians saw a larger and gloomier outcome flowing from the week's decisions. The triumph of the peace forces within the Supreme Court had been achieved, in their view, at the cost of diminishing the reach of the Bill of Rights.

APPEARANCE OF SUBJECT BREMER AT LOCAL ARRAIGNMENT:

Bremer was transported with appropriate security to the Prince Georges County Court House, Upper Marlboro, Maryland, for arraignment on the local charges pending against him. The arraignment was held without incident and Bremer was likewise returned to the Baltimore County Jail, Towson, Maryland, May 30, 1972.

An appeal has been filed by Bremer's attorney with the Fourth Circuit requesting a reduction of the \$200,000 bail which request was previously denied by the U. S. District Court on 5/24/72. A hearing may be held today in Baltimore though nothing definite has been set, depending on whether sufficient members of the court are present for the hearing. Bremer will not attend the hearing if held.

ADDITIONAL FEDERAL GRAND JURY HEARING:

On 5/30/72, the Federal grand jury which returned the original indictment against Bremer met for additional testimony in this case. Testimony was provided by [redacted] and was limited to information concerning [redacted]

No further grand jury hearings are contemplated at this time.

WALSHOT

Reports in this matter submitted by your office, the report of SA William Y. Doran, dated 5/21/72, and that of SA Frederick W. Thorne, dated 5/26/72, have been reviewed. While recognizing the continuing nature of this investigation and that many of the leads set forth below may have already been covered or be in the process of being covered, the following leads are set forth for your consideration.

One of the most important items of evidence developed in the investigation to date is the manuscript obtained as a result of the search of the subject's car.

Handwriting examination, based primarily on known specimens furnished by the subject's mother, have determined the manuscript was written by Bremer. In connection with trial in this case, it will be necessary to produce cooperative witnesses who can testify they actually witnessed Bremer prepare the known handwriting specimens upon which the handwriting examiner bas^{es} his conclusion. In view of Mrs. Bremer's relationship to the subject, it is essential additional known specimens of the subject's handwriting, which can be authenticated by appropriate witnesses, be obtained.

Referenced report of SA Doran contains numerous references to individuals who apparently observed Bremer complete various forms and who would be able to so testify in court.

Examples of such individuals are Joan Contos (page 208), Mary Konsionowski, Richard Duby and William Mueller (pages 209, 296, 303), and W. E. Searls, Sheraton Inn, New Carrollton,

Maryland (page 836). You should immediately set forth leads to interview logical individuals, including those referred to above, to determine if they can testify to having personally observed Bremer prepare certain forms and applications. Advise the Bureau of the results of such interviews and in those instances where pertinent documents have not been submitted for handwriting examination, obtain and forward them to the Bureau Laboratory.

Additional sources of known handwriting specimens, which can likely be authenticated, are Bremer's former employers, hotel desk clerks, and school officials. Contact such sources and obtain additional known specimens so as to insure sufficient witness testimony for trial purposes.

One of the most important aspects of investigation in this matter is to determine whether Bremer acted independently or was associated with other individuals in connection with his travels and activities.

In this regard, it is noted Bremer terminated his employment with the Milwaukee Athletic Club on or about 2/16/72, and his contacts, whereabouts and activities between that date and 4/4/72 are largely unknown. The same is true of the period from April 18, 1972, when he checked out of the Sheraton Inn, New Carrollton, Maryland, and May 9 when he went to Michigan. It is essential Bremer's contacts, activities and whereabouts during these periods be determined to the fullest extent possible. Appropriate investigation should be conducted in this regard.

Likewise, it is essential that such information be fully developed concerning Bremer in those cities where he is known to have been during the pertinent period. It is not sufficient to merely place him in a certain motel in a certain city. Every effort must be made through hotel employees (desk clerks, bell captains, waitresses, maids, etc.) guests who may have had rooms adjacent to his, and other logical sources to fully account for his contacts and activities. Appropriate investigation should be conducted in this regard.

RE: WALSHOT

Any and all allegations Bremer was in contact or associated with other individuals must be thoroughly and completely run out until fully resolved.

In this connection, your attention is directed to the interview of Greg Hodges, page 506, in the report of SA Doran, dated 5/21/72. Hodges reported that Bremer had stayed overnight at the Midtown Holiday Inn in Milwaukee with Wallace campaign workers. Allegedly Bremer was quite friendly and closely associated with a girl who was a desk clerk at the hotel and who wore a Shirley Chisholm button and another button bearing a hammer and sickle on her dress. This girl was subsequently identified as Laurel Becker, night auditor at the hotel, who on interview stated she was not acquainted with Bremer (page 510). Hodges should be reinterviewed and requested to furnish a detailed physical description of the individual he identified as Bremer. Additionally, other motel employees and Wallace campaign workers should be interviewed to determine if they observed Becker closely associating with anyone on the night in question. If so, they should be asked to describe this individual in detail in an effort to determine if in fact it was Bremer.

Hodges also alleged that during the evening he had entered a room used by Wallace campaign workers and Bremer and a number of campaign workers were watching a movie about Martin Luther King. In an effort to determine whether this individual was in fact Bremer, investigation should be conducted to identify and interview the Wallace campaign workers who were in the room at the time.

The allegation of Dr. John Blecker (page 759) that an individual believed to be Bremer accepted anti-Wallace literature from a female picket at the Wallace rally in Kalamazoo, 5/13/72, and was observed talking to her for several minutes should be similarly run out.

Other suggested leads in connection with SA Doran's report, dated 5/21/72, which should be covered, if not already handled, are as follows:

Airtel to SAC, MI
RE: WALSHOT

On page 216, Robert Wilhelm furnished names of former tenants who would know Bremer, which included

[redacted]
[redacted] They should be interviewed.

b6
b7C

On page 324, Don Streicker furnished the names of individuals who used the target range at approximately the same time Bremer did. Included among the names of such individuals were Ken Sontag and Robert Hayes. They were not interviewed and should be.

On page 515, Mildred Daniels, housemaid, advised she was approached by Bremer, or someone resembling him, inquiring as to the location of Wallace headquarters. She should be reinterviewed to obtain a physical description of this individual to determine if in fact it was Bremer.

On page 530, information is set forth to the effect that a check of the Wisconsin Young Democrats revealed no record of membership on Bremer's part. Since his father previously stated Bremer was a member of this group and he had observed Bremer's membership card, the father should be reinterviewed to clarify this point.

On page 536, Gorman K. Perkins, [redacted] stated he believed that [redacted] [redacted] had something to do with the shooting of Governor Wallace. This allegation should be fully resolved including an interview with [redacted] to determine if he has ever been associated with Bremer, or has any knowledge of the shooting.

b6
b7C

On page 609, Officer Timmerman, Milwaukee Police Department, furnished information concerning his issuance of a citation to Bremer on North Wahl Street, Milwaukee, at 5:35 p.m., on 4/28/72. The interview does not state whether Timmerman can positively identify Bremer as the person he issued the citation to. He should be reinterviewed and shown a photo of Bremer to determine if he can do so.

RE: WALSHOT

On page 715, Jack Hudson, Bartender, Rodeitcher Restaurant, Freeland, Michigan, advised an individual resembling Bremer was in the bar on 5/4/72, when Governor Wallace appeared at the Tri-City Airport. Other employees should be interviewed to determine if they observed this individual.

On page 828, information is set forth concerning 4 detectives who covered a Wallace rally. Two were interviewed but two, Detectives Porter and Davis were unavailable on vacation. They should be interviewed.

On page 841, information is set forth reflecting Bremer applied for copies of his birth certificate on 5/19/66, 4/19/70, and 4/3/72. It is noted Bremer alleged to Alda Nardfjord that he had visited Copenhagen. A lead should be set forth to determine if Bremer has ever applied for or received a passport.

On page 853, information is set forth that Aziz Shibab, Author of "Sirhan" received a telephone call around 5/9/72 from an individual identifying himself only as Art, who told him he had been reading his book for the past few days and wondered if Shibab felt a person would be justified in killing if "his love fails or his girl friend jilts him." Bremer's phone, as well as the phones he used in motels in Michigan May 9 through May 13, 1972, should be checked to determine if he made this call.

With reference to the report of SA Frederick W. Thorne, dated 5/26/72, the Administrative Pages of the report reflect two newspapermen turned over to the Milwaukee Office material which had been taken from the apartment of Bremer. This material should not be utilized for investigation purposes and the circumstances of their being taken from Bremer's apartment should be discussed with the U. S. Attorney for his opinion as to whether such action constitutes a violation of Federal law.

RE: WALSHOT

On page 40 of this report, information is set forth indicating that an individual named Bremer made a reservation to take the 8:07 p.m. ferry on 4/28/72 from Ludington, Michigan, to Milwaukee, with a scheduled arrival time in Milwaukee of 2:07 a.m., 4/29/72. This information would not appear to apply to the subject since he was given a traffic citation in Milwaukee at 5:30 p.m., on 4/28/72.

On page 120, Mrs. Martha Mantooth advised that an individual strongly resembling Bremer but who was wearing a red wig, was at Wallace Headquarters in Indianapolis throughout the day on 4/28/72. Subsequent inquiry reflected this individual was Dale LNU whose girl friend in Bloomington, Indiana, raised \$300 for the Wallace campaign. This girl friend should be identified through Wallace officials in Indiana and interviewed to completely resolve her boy friend's identity.

Page 179 sets forth information that local police confiscated a .22 caliber starter pistol from one [redacted] in connection with [redacted] attendance at a Wallace rally in Jackson. For your information, Bureau indices and the files of the Identification Division contain no information identifiable with [redacted] and a check of NCIC on the pistol was negative.

b6
b7c

Page 350 - Mrs. Scarborough, who due to poor health, admits her memory is faulty, advised she believed Bremer may have attended a Wallace meeting in Houston in early May. She states her husband was with her on this occasion and may have seen this individual. Her husband should be interviewed.

Page 392 - Neil Wellman advised that an individual resembling Bremer was at Wallace Headquarters, Milwaukee, on evening of May 3, 1972, and he was introduced to this individual by Karen Raidy, a school teacher, who identified him as her husband. Raidy should be interviewed to fully resolve the question of this individual's identity.

Airtel to SAC, MI
RE: WALSHOT

Page 476 sets forth information concerning an article by Wes Hbranchak in the "Indiana Daily Student" stating that Bremer had told one Lucy Chester a month prior to the shooting that he intended to shoot Governor Wallace. The article quoted Chester as stating her phone was tapped by the FBI because she hung out with radicals. Lucy Chester was subsequently identified as Rose Lynn Goldberg of Bloomington, Indiana, who on interview, advised that she had fabricated the entire story to get attention. Unless compelling reasons to the contrary exist, you should advise Hbranchak that the story is a complete fabrication so he can set the record straight in future issues of the paper.

You should continue to afford this matter top-priority investigative attention.

With reference to the shooting of Governor George C. Wallace at Laurel, Maryland, May 15, 1972, we have received a supplemental report from our Milwaukee Office of 496 pages.

This report has been reviewed and analyzed.

Results of much of the investigation set forth in this report relating to subject Arthur Bremer's background, finances, etc., is of a cumulative nature.

Additional former fellow employees of the subject have been interviewed and they could furnish no additional background information concerning him. Our inquiries continue to reveal Bremer as a "loner" with no close associates or family ties.

Memorandum to Mr. Bates
RE: WALSHOT

Investigation relating to Bremer's travel by Northwest Orient plane from Milwaukee to New York City on April 4, 1972, disclosed that on boarding the plane in Milwaukee, he checked a heavy package bearing his name, believed by crew members to have been a gun, with the pilot. On arrival in New York, Bremer left the plane without reclaiming the package and it was necessary to page him in the terminal in order to return it to him.

The report contains the results of extensive investigation to determine if, prior to the shooting, Bremer attended Wallace rallies in 12 states in which Governor Wallace was known to have campaigned. Investigation to date has developed no positive information that Bremer did so, although several individuals expressed opinions that persons somewhat resembling Bremer were observed by them at various Wallace meetings and rallies in these particular states. Such allegations are being checked out thoroughly.

The report does reflect that Bremer has been positively identified as having attended the Wallace rally at the National Guard Armory in Kalamazoo, Michigan, on May 13, 1972, two days before the shooting.

The investigation is continuing on a top-priority basis.

ACTION: Attached for approval are memoranda transmitting the Milwaukee report to the Acting Attorney General, the Deputy Attorney General, the Assistant Attorneys General of the Criminal and Civil Rights Divisions of the Department, and to Secret Service.

Reference is made to the report of SA Hugh M. Barnhardt at Baltimore dated 5/20/72, which has been reviewed at the Bureau. While recognizing the continuing nature of this investigation and that many of the leads set forth below may have already been covered or be in the process of being covered, the following leads are set forth for your consideration:

One of the most important items of evidence developed in the investigation to date is the manuscript obtained as a result of the search of the subject's car.

In connection with his stay at the Sheraton Inn in New-Carrollton, Bremer apparently completed the hotel registration form in the presence of Desk Clerk W. E. Searls. You should contact Searls to determine if he is in a position to testify that he observed Bremer complete this form, and if not already done, the registration card should be forwarded to the Bureau Laboratory for appropriate examination. RE: WALSHOT

One of the most important aspects of this investigation is to determine whether Bremer acted independently or was associated with other individuals in connection with his travels and activities.

In this regard, it is noted that prior to 5/15/72, when Bremer was taken into custody, he was last known to have been in Kalamazoo, Michigan, on 5/13/72. Presumably, he drove from Kalamazoo to the vicinity of Laurel, Maryland, and must have stayed in a hotel or motel in the vicinity of Laurel. Investigation should be conducted to determine his whereabouts, contacts and activities between May 13 and May 15.

Likewise, it is essential that such information be fully developed concerning Bremer in those cities where he is known to have been during the pertinent period. It is not sufficient to merely place him in a certain motel in a certain city. Every effort must be made through motel or hotel employees (desk clerks, bus boys, waitresses, maids, etc.), guests who may have had rooms adjacent to his, and other logical sources so as to account as fully as possible for his contacts and activities. Bremer was registered at the Sheraton Inn, New Carrollton, Maryland, from 4/16/72 to 4/18/72. Appropriate investigation should be conducted in connection with his stay in New Carrollton.

In order to verify the true vehicle identification number (TVIN) on Bremer's automobile, insure that the confidential vehicle identification number (CVIN) has been checked.

Other suggested leads in connection with SA Barnhardt's report which should be covered, if not already handled, are as follows:

On pages 170 - 172, Officer John Benjamin Davey, Prince Georges County Police, describes a short, dark, white male whom he had been instructed to watch as a suspicious person at the Laurel Wallace rally. During the Governor's talk, Bremer came up and stood next to this individual and he believed they knew each other. Davey should be interviewed in detail for his basis for believing Bremer knew this individual. Additionally, available photographs of the crowd at Laurel should be exhibited to Davey to determine if he can identify this individual's photograph. Thereafter, investigation should be conducted to identify this individual and to thoroughly run out the allegation he knew or may have been associated with Bremer.

Airtel to SAC, BA
RE: WALSHOT

On page 123, Rayford Jackson Martin advised he believed he had seen Bremer in the company of a "Hippie" type individual, whom he described in detail at the Wallace rally in Kalamazoo. Available photographs of the crowd at the Kalamazoo Wallace rally should be shown to Martin to determine if he can identify this individual's photograph and thereafter investigation should be conducted to identify him and determine any relationship he may have with Bremer.

On page 161, Larry Walters described a man whom he observed running towards Armstrong's TV Store in the shopping center just before Governor Wallace was shot. Available photographs of the crowd should be exhibited to Walters to determine if he can identify the individual's photograph. Inquiry should also be made in the shopping center to determine if he works or is known there. Thereafter, further investigation should be conducted to identify him and determine any possible connection he may have with Bremer.

On page 321, Ed Turner, News Director, Channel 4 TV, furnished a 90-second portion of film taken at the Wheaton Wallace rally but declined to furnish the remainder of the film, not shown on TV, on the basis he felt such film was the same as "private notes." Discuss with U. S. Attorney the possibility of obtaining this remaining film by subpoena. Insure discussion includes authority necessary to issue subpoena noting the Department has issued guidelines regarding obtaining such film.

On page 351, Mrs. Joanne Podpoly described two Hippie girls who pushed their way through the crowd but stopped when they observed Bremer. It is not clear from Mrs. Podpoly's statement whether she thought Bremer knew or was associated with these girls. Reinterview Mrs. Podpoly to resolve this.

On page 380, John Kuck, Manager, Suburban Airport, Laurel, Maryland, stated an individual resembling Bremer was at the airport at 1:30 p.m., inquiring about Governor Wallace and his party. Exhibit photos of Bremer, together with other appropriate photos, to determine if he can identify this individual as Bremer. It is noted Bremer at 1:30 p.m. was at the Wheaton Wallace rally and efforts should be made to have Kuck set the time he saw this individual precisely, bearing in mind Bremer may have been at the airport prior to 1:30 p.m. making such an inquiry.

This matter should continue to receive top-priority investigative attention.
