Attached is an EC containing additional leads related to the [redacted] (the Berg case in particular). The EC contains [redacted] if possible. Please note that one is duplicative of a previous request [redacted] and [redacted]

Also, in one of the earlier leads it is requested that Iraq FBI facilities be searched for pertinent documents and items. This came about as a result of reporting from earlier rotations that they had found boxes of documents and other items in [redacted] that were seemingly lost, not filed, thrown in a corner, etc., and the fact that certain items are missing [redacted]. We need to account for everything and there needs to be an effort to inventory [redacted] for case related items, particularly the AMZ related materials.

I'll call you in the morning to discuss.

(U) Synopsis: (S) [redacted] pertaining to the
BERG murder.

(S) Derived From : G-3
Declassify On: 00/00/0000

(U) Details: (S) [redacted] requests [redacted]
assist in coordinating interviews of subjects and detainees
located in Iraq. The below listed individuals are believed to be
connected to the Nicholas Berg homicide investigation and or the
ABU MUSAB AL-ZARQAWI (AMZ) Network.

(U) The interviews must be criminal interviews
conducted for law enforcement purposes. According to guidance
from the Department of Justice and the Office of General Counsel,
the following guidelines must be followed with respect to the
interviews:

1. The criminal interviews must be conducted using the limited Miranda warnings currently on file with [redacted] and previously approved by DOJ and OGC.

2. There must be an appropriate lapse of time and a change of location between any intelligence interviews that may have been conducted and the criminal interviews. In order to properly attenuate the connection between the criminal interviews and any previous intelligence interviews, the interviewing agents should stress, when providing the limited Miranda warnings, that anything the interviewee may have said to previous interviewers should not cause him to believe that he must continue to talk or provide the same information.

3. The criminal interviews must be conducted by a clean, walled-off interview team. This means that all personnel, agent or other, involved in the interviews must be shielded from exposure to the results or content of any previous intelligence interviews of the interviewee. This extends to any questioning provided to the interview team by supervisory or other personnel which may be based on the results of any prior intelligence interviews of the interviewee. It does not preclude the review of background information or other intelligence information not derived from the interviewee.

4. Criminal interview results should be documented in unclassified, FD-302 form.

(U) Further guidance will be provided with respect to the conduct of the interviews once arrangements have been made with the U.S. military.
