b6 -6
b7C -6

[] was positioned to the left of the last tent in the grassy area, close to the corner of the grand stand. [] and a couple of other guys were looking out over the fence. As they were looking out, they heard gunshots go directly over top of them. [] estimated he heard 4 or 5 shots. [] then heard "shots fired, shots fired." [] and the team he was with began to scan to determine where the shots came from. As the QRF, they were told to mount up so they went into the utility task vehicle (UTV) which was staged in a barn directly next to them. Six of them then got into the UTV, with [] and Officer [] sitting in the back.

b6 -6

They drove the UTV around to the back of the building where the shots came from and attempted to access the roof. They had trouble at first but then were able to access the building via a "nook." On July 14, 2024, at approximately 01:01 AM, writer and Pennsylvania State Police (PSP) Trooper [] interviewed [] telephone number [] at the Butler Farm Show, 625 Evan City Road, Butler, Pennsylvania. After being advised of the identity of the interviewing agents and the nature of the interview, [] provided the following information:

b6 -6
b7C -6

[] is employed with the Prospect Borough Police Department and is a sniper team leader for the Butler County Emergency Services Unit (ESU).

[] was posted at the top of the grand stand in the announcer's booth. They provided overwatch and dignitary protection. They had another team from Washington County SWAT positioned below them, in "about the same area," and another team positioned in the AGR building, right behind where the suspect was positioned. [] position was 345 yards away from where the suspect was positioned.

b6 -6
b7C -6

While they were doing overwatch, they heard a report come over the radio about a "guy with a rifle on the roof." [] was already in contact with the Secret Service counter snipers to advise them that the Butler County ESU snipers were all wearing multi-cam. The Secret Service counter snipers were also aware of the Butler County ESU snipers' positions. The Secret Service knew right away that the suspect was not a Butler County ESU sniper.

[] then heard approximately 4 or 5 gunshots being fired, just seconds after it came over the radio that there was a guy with a rifle on the roof. [] dropped the binoculars he was looking through and started to look through his rifle scope. The report stated that they saw the suspect at the AGR building. [] started to look for the suspect in that direction through his rifle scope. At about this time, just before he transitioned from the binoculars to his rifle, [] observed a counter sniper on the far barn reposition his tripod toward the AGR building. Before [] could transition to his rifle, he heard gunshots. By the time [] had eyes on that location, the suspect was already down and over the crest of the roof. [] never saw the suspect.
