AT SALT LAKE CITY, UTAH

On September 15, 1973, [REDACTED] (NA), Salt Lake City Police Department, noted that since May, 1973, thirty-two females have been accosted in the vicinity of South Salt Lake by a rapist. At about 5:30 p.m., June 24, 1973, they arrived at the Missouri River Campground near Three Forks, Montana. This campground consisted of two generally oval shape areas, the second which contiguous and north of the first campground. They parked their Ford van and camped on the [redacted] generally at about the [redacted] of this first camp area [redacted] of the two camp areas). inhabited by an older couple who were interviewed on the morning of 6/25/73 by local law enforcement officers. (Had apparently slept through the excitement)

Subsequent to parking at about 5:30 p.m., June 24, 1973, the [redacted] set up camp during which time [redacted] while getting water from a water hydrant by the oval shape camp areas had met victim, SUSAN MARIE JAEGER. They played frisby, prepared and ate dinner, walked to the junction to the river and returned and subsequently went to sleep in their van at 10:00 p.m.

June 24, 1973. At about 9:30 p.m. prior to going to sleep, two Caucasian males in their late teens or early 20's and a third individual about the same age, possibly Indian or Chicano, driving around the campground throwing fire crackers. The driver (black hair, medium length) was driving a 1972 or 1973 metallic blue Datsun station wagon with walnut side panelling and odd looking humps over the body of the rear wheels. [redacted]

[redacted] recalled that he had formerly reported to Sheriff Investigators that this vehicle was a Mazda, however, he subsequently saw a similar car which was definitely

a Datsun and believes the vehicle seen on the night was a Datsun station wagon. At approximately 9:35 p.m. two motorcycles, one a yellow possibly 90 CC Honda trail bike (girl style) and a second motorcycle possibly similar, went by ridden by two Caucasian males in their late 20's. (no description available).

b6
b7C

After going to sleep at about 10:00 p.m., June 24, 1973, he was awoken at 5:30 a.m., June 25, 1973 by deputy sheriffs and plain clothes officers who interviewed members of the [redacted] and other individuals in the area concerning the missing child, SUSAN MARIE JAEGER. [redacted] recalled having been interviewed by [redacted] who had directly inspected the [redacted] van. [redacted] complied with the request of the Sheriff and participated with [redacted] in searching the back roads surrounding the campground without locating the victim or any evidence which would aid in clarifying the disappearance of the victim. During the interview by [redacted] and other officers, [redacted] and members of the [redacted] family were unable to recall any specific information known to relate to the disappearance of SUSAN MARIE JAEGER. The only member of the [redacted] who had seen SUSAN MARIE JAEGER was [redacted] who had met the victim near the water hydrant shortly after 5:30 p.m., June 24, 1973.

About 10:00 a.m. , June 25, 1973, while [redacted] and his family departed from the campground and as they drove, they discussed the matter of the missing JAEGER girl and attempted to recall instances and details to aid in resolving the mystery. [redacted] stated,

[redacted] stated that he was unable to furnish any information to aid in clearing up the disappearance or whereabouts of SUSAN MARIE JAEGER. He noted that SUSAN MARIE JAEGER had slept in the rather large tent with several other people; that the slit in the tent was directly adjacent to the victim's sleeping bag and he speculated that the person or persons responsible possibly knew the positions of the various occupants in the tent.

BERNARD P. SUING, 515 North 47th Street, Omaha, Nebraska, telephone number 556-7678, was contacted regarding his knowledge of the disappearance of SUSAN MARIE JAEGER from a camp ground near Three Forks, Montana, on June 25, 1973. SUING voluntarily furnished the following information:

SUING advised he and his wife, FLORA MAE SUING, had been on vacation just prior to his retirement from the Northwestern Bell Telephone Company where he had been employed since 1932, as a serviceman. SUING advised that they owned a 18 foot "Excel" camping trailer which he described as being eggshell white with a beige 10" band running horizontally around the trailer in the middle and bottom. The rear portion of the trailer had a sloped roof and a square tube bumper that is painted white. The trailer bears a 1972 Nebraska mobilehome license plate number 1-mobile home 2179 and is a two-wheel unit.

SUING advised that during their vacation which encompassed the Three Forks camping area in Montana, on June 25, 1973, he pulled the trailer with the 1971 brown Galaxie four-door Ford which bore 1973 Nebraska tags 1-N5621.

SUING stated that on Sunday, June 24, 1973, he and his wife arrived from Butte, Montana, at the head waters of the Missouri River at the Montana State Park they knew as Three Forks. SUING advised that upon arrival at the Three Forks camping area they encountered a Montana Fish and Game Officer to whom they paid \$1.00 for a one-day permit to park their trailer overnight at the Three Forks camp area. SUING displayed a receipt from the Montana Fish and Game Commission, #A26141, which reflected the payment of \$1.00 for the privilege of using the camping area. SUING advised that the Montana Fish and Game Officer advised them to pick a spot and that no specific site was specified. SUING advised that they drove around the camp area at Three Forks (see following map) and eventually

selected a location at the northwest corner of camp area one. SUING advised the camp area itself is surrounded by logs and that they parked their trailer and car on the outside of camp area number one between the log barrier and the service road which encircled camp area one, (location five). SUING advised they then set up their trailer; they then had dinner; and thereafter walked around the park area.

SUING recalled over looking a fenced-off area which had the graves of three children and a monument to someone who had died.

After getting the lay of the camp area at Three Forks, the SUINGS returned to their trailer and noted that other campers had pulled in around the corner from them and also behind their trailer. SUING described the camping equipment of the people parked around the corner from them (location 7) as a Volkswagen Camptmobile which had a pop-top and was off-white in color with California license plates. SUING did not specifically recall the camping equipment of the persons parked behind them, but recalled that it was a camping trailer.

SUING advised that they set outside their trailer for a while and that they heard the kids playing across the camp ground in area number two, which was just across the road from them; they observed the children playing with a frisbee. SUING heard someone say "go tell grandpa." SUING stated he did not relate his hearing of this statement to any specific camper in the camp grounds.

SUING advised he and his wife then retired for the night and that he slept the entire night through without awaking; and arose about 7:30 or 8:00 a.m. the following morning.

SUING advised that after getting up he observed the camp ground had several state police cars in it and a trooper was apparently waiting for them to get up, inasmuch

25

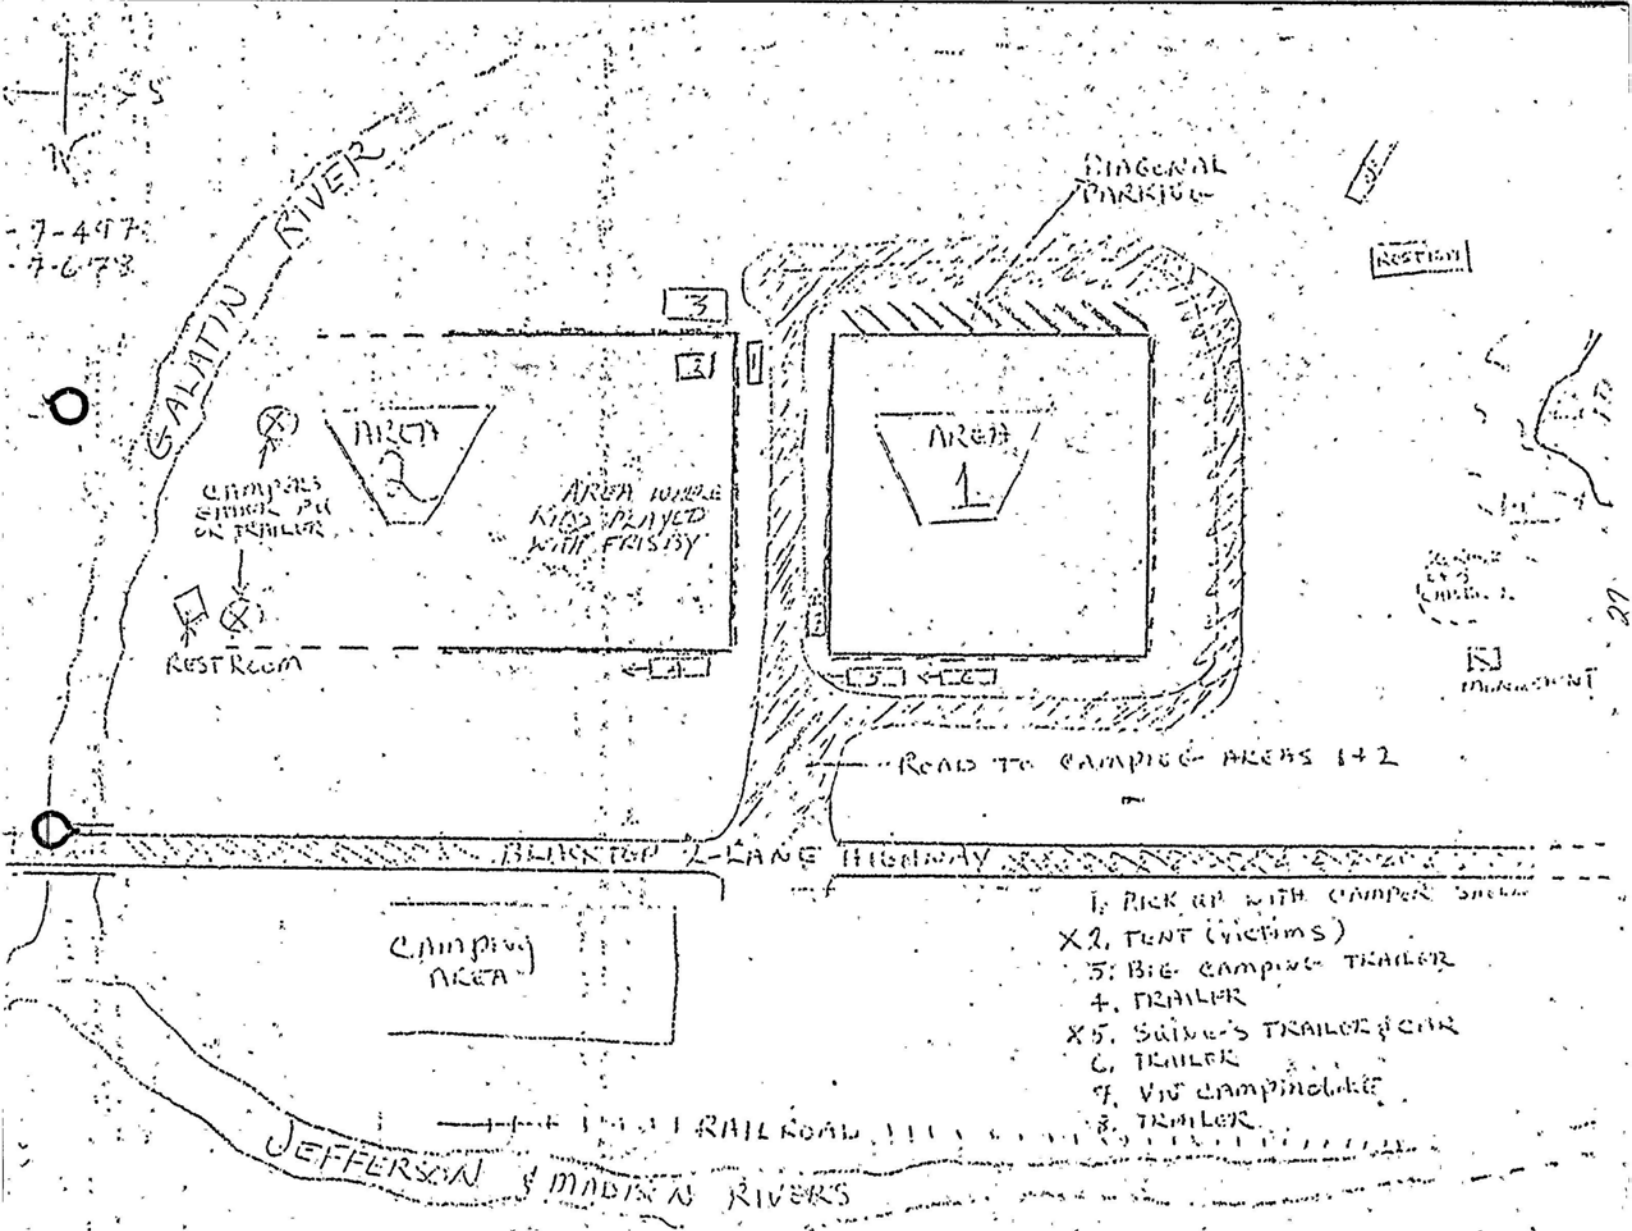

as when he exited his trailer he was approached by a Montana State Policeman who talked to him in relation to the disappearance of one of the campers during the night. SUING advised that the trooper later searched the trailer and car, and indicated the belief that the missing camper, SUSAN MARIE JAEGER, had been kidnaped.

SUING advised that after breakfast they spoke to the people in the Volkswagen campmobile and learned from the woman in the family that her children, who SUING described as being two girls about 15 and 17, played with the kidnaped girl and her brothers and sister until about 10:00 p.m. the preceeding night. The woman, who SUING described as a white female, advised that she did not know how they (the kidnappers) would have known where the "kid" (victim) was, inasmuch as the kidnaped child's parents had a pickup shell camper, a trailer, and a tent; and that they (kidnappers) would not know where the child slept as they all slept in different places. SUING advised that the woman mentioned that they were headed for Billings, Montana, that day.

SUING advised he and his wife, upon leaving the camp area, had their directions mixed up and drove north down the blacktop two lane highway, turned around and headed south on this highway. SUING advised they observed from this highway that the tent from which the kidnaped child had been allegedly taken and saw that the tent had been cut. SUING noted that when they headed on to the entrance, past the camping area, they noticed that the people in the Volkswagen campmobile with whom they had talked earlier, regarding the kidnaping had left the area.

SUING advised the various locations of other campers as noted in the accompanying map and advised that he could not specifically remember any thing particular regarding other persons on the camp ground.

SUING advised that the only law enforcement officers that he had talked with regarding the kidnapping at Three Forks, Montana, had been the Montant State Policeman who spoke with him and searched their trailer and car.

The rear portion of the trailer had a sloped roof and a square tube bumper that is painted white. The trailer bears a 1972 Nebraska mobilehome license plate number 1-mobile home 2179 and is a two-wheel unit.

SUING advised that during their vacation which encompassed the Three Forks camping area in Montana, on June 25, 1973, they pulled the trailer with the 1971 brown Galaxie four-door Ford which bore 1973 Nebraska tags 1-N6621.

SUING stated that on Sunday, June 24, 1973, she and her husband arrived from Butte, Montana, at the head waters of the Missouri River at the Montana State Park they knew as Three Forks. SUING advised that upon arrival at the Three Forks camping area they encountered a Montana Fish and Game Officer to whom they paid \$1.00 for a one-day permit to park their trailer overnight at the Three Forks camp area. SUING displayed a receipt from the Montana Fish and Game Commission, #A26141, which reflected the payment of \$1.00 for the privilege of using the camping area. SUING advised that the Montana Fish and Game Officer advised them to pick a spot and that no specific site was specified. SUING advised that they drove around the camp area at Three Forks (see following map) and eventually

selected a location at the northwest corner of camp area one. SUING advised the camp area itself is surrounded by logs and that they parked their trailer and car on the outside of camp area number one between the log barrier and the service road which encircled camp area one, (location five). SUING advised they then set up their trailer; they then had dinner; and thereafter walked around the park area.

SUING recalled over looking a fenced-off area which had the graves of three children and a monument to someone who had died.

After getting the lay of the camp area at Three Forks, the SUINGS returned to their trailer and noted that other campers had pulled in around the corner from them and also behind their trailer. SUING described the camping equipment of the people parked around the corner from them (location 7) as a Volkswagen Campmobile which had a pop-top and was off-white in color with California license plates. SUING did not specifically recall the camping equipment of the persons parked behind them, but recalled that it was a camping trailer.

SUING advised that they sat outside their trailer for a while and that they heard the kids playing across the camp ground in area number two, which was just across the road from them; they observed the children playing with a frisbee. SUING heard someone say "go tell grandpa." SUING stated she did not relate her hearing of this statement to any specific camper in the camp grounds.

SUING advised she and her husband then retired for the night and that she was awakened three times during the night; one time when a car passed and two other times when two separate trains went by on the nearby railroad tracks. SUING advised that she had no idea of the relative time of the passing of the trains or the car as after being awoken she immediately fell asleep again.

SUING advised that after getting up she observed the camp ground had several state police cars in it and a trooper was apparently waiting for them to get up, inasmuch as when she exited his trailer she was approached by a Montana State Policeman who talked to her in relation to the disappearance of one of the campers during the night. SUING advised that the trooper later searched the trailer and car, and indicated the belief that the missing camper, SUSAN MARIE JAEGER, had been kidnaped.

SUING advised that after breakfast they spoke to the people in the Volkswagen campmobile and learned from the woman in the family that her children, who SUING described as being two girls about 15 and 17, played with the kidnaped girl and her brothers and sister until about 10:00 p.m. the preceeding night. The woman, who SUING described as a white female, advised that she did not know how they (the kidnappers) would have known where the "kid" (victim) was, inasmuch as the kidnaped child's parents had a pickup shell camper, a trailer, and a tent; and that they (kidnapers) would not know where the child slept as they all slept in different places. SUING advised that the woman mentioned that they were headed for Billings, Montana, that day. SUING advised that she additionally overheard one of the girls ask her mother if they were going to Billings.

SUING advised that she and her husband, upon leaving the camp area, had their directions mixed up and drove north down the blacktop two lane highway, turned around and headed south on this highway. SUING advised they observed from this highway that the tent from which the kidnaped child had been allegedly taken and saw that the tent had been cut. SUING noted that when they headed on to the entrance, past the camping area, they noticed that the people in the Volkswagen campmobile with whom they had talked earlier regarding the kidnaping had left the area.

SUING advised the various locations of other campers as noted in the accompanying map and advised that she could not specifically remember any thing particular regarding other persons on the camp ground.

AT OXNARD, CALIFORNIA

On October 11, 1973, Mr. and Mrs. LESLIE WATE (GRACE LAVINE) GIFFORD, Space 50, 1301 Ventura Boulevard, Oxnard, California, were interviewed separately.

Mrs. GRACE LAVINE GIFFORD, age 68, advised that they have resided in the Royal Duke Mobile Estates, 1301 Ventura Boulevard, Oxnard, California, since 1960, and that her husband retired in 1964.

Mrs. GIFFORD stated that she maintains a detailed day by day diary of all of their travels. This diary reflects that they arrived at the Missouri River Headwaters Monument, near Three Forks, Montana, at 2:15 p.m., on Saturday, June 23, 1973. She stated this was their first visit to this monument.

Mrs. GIFFORD advised that they parked their trailer next to an open meadow area which was about 75 feet distance before other campers were parked in their rear.

Mrs. GIFFORD advised that at about 5:30 a.m., on Monday, June 25, 1973, a sheriff's deputy came to their trailer and talked to her, advising her that a seven year old daughter of the JAEGERs who were parked about 75 feet from them across the grass was missing and had been missing since approximately 4:00 a.m., that date. Mrs. GIFFORD advised this deputy that she had had no contact with the JAEGERs and did not know the family and had previously been unaware of the JAEGER girl being missing. Mrs. GIFFORD stated that she had been up since about 5:00 a.m., on that date and had seen nothing that might pertain to the missing JAEGER girl. She stated that they had gone to bed approximately 9:00 or 9:30 the previous night and had not been up at all during the night.

Mrs. GIFFORD stated that she related to this sheriff's deputy the following instance in the park that might have been pertinent to the investigation the sheriff's office was conducting:

She advised that on the previous evening a red car, make unknown, but full size, had pulled into the picnic area about 25 feet away from their trailer and two couples had eaten their evening meal. She described these couples as having dark hair and possibly of Indian descent. She could not furnish a further description. After finishing their meal they left shortly before dark and she assumed that they did not want to pay a camping fee and that this was the reason they had left.

Mrs. GIFFORD also related to the sheriff's deputy that on Sunday morning, June 24, they had noticed man in a yellow pickup truck coming down the road from some plant which is up the road about two miles on a dead-end road. They thought it peculiar as he had a rusty stove and boiler in the back of his pickup, yet had an Iowa license, number not noted. The first time they saw this man was about 10:00 a.m., when he was going in the direction of the plant up the two mile dead-end road. They later saw him return and then when they were leaving to do some sight-seeing Sunday morning, they noticed him again stop by a trash barrel in their campground, get out of his pickup and walk toward the trash can. This was the last this man was seen. Mrs. GIFFORD described this man as follows:

Race	White
Sex	Male
Age	30's
Height	5' 8"
Build	Medium
Hair and Dress	Blond, clean shaven, but dressed poorly.

JEK/kl's

Mrs. GIFFORD advised there were several trailers parked next to them, but she did not know any of the occupants. She advised to her knowledge no one had pulled out of the park prior to the questioning by sheriff's deputies on the morning of Monday, June 25, 1973.

Mrs. GIFFORD exhibited to agent a photograph she had taken of the JAEGER tent and the grandparent's trailer to the left of this tent as she faced this tent. This photograph does not show any detail other than just a spot where Mrs. GIFFORD stated the JAEGER tent was located.

Mrs. GIFFORD advised that they left this monument at 9:00 a.m., on June 25, 1973, and proceeded to East Helena, Montana, where they spent the night of June 25, 1973. She advised that they saw nothing en route which would be pertinent to this investigation.

Mr. LESLIE WATE GIFFORD, age 72, advised that he retired in 1964, after being a superintendent of heavy building construction for a number of years.

Mr. GIFFORD advised that on the night of June 24, 1973, he went to bed between 9:00 and 10:00 p.m., and was not awakened all night. He stated that he did not wake up until his wife woke him between 6:00 and 7:00 a.m., on June 25, 1973.

Mr. GIFFORD recounted the same incidence that his wife told about above. He described the yellow pickup truck with the trash in the rear as make unknown, but between six and nine years old. He described an individual driving it as follows:

Race	White
Sex	Male
Age	Late 20's or early 30's
Height	5' 9"
Weight	160 pounds
Hair and Dress	Light colored hair, wearing rough clothes like a junk man.

Mr. GIFFORD stated that he recalled only one couple eating in the picnic area near them on the evening of June 24, 1973, and described them as Caucasians. He stated that the car they had was an older Chevy, dark in color, but color not recalled. He stated that he did not pay much attention to them, but had seen the park ranger talking to them after which they left, so he assumed they did not want to pay to stay overnight.

Following the interview with Mr. GIFFORD, Mrs. GIFFORD stated that she had noted an item in her diary that might be of some interest. This quotation reads that they went to bed at 9:00 p.m., on June 24, 1973, and that "trains and smart kids kept her awake". She stated that by smart kids she means kids who were driving cars through the campgrounds, blowing their horns. She said she could not recall what time this was, but it was after she had fallen to sleep and she has no idea who these individuals were or how many or what cars were involved.

Susan Jaeger Reward Fund announced.

The singular event of a suspected child abduction effects a community for only a short time. The media and the public turn their attention to new and changing tragedies quickly. The family of a missing child cannot turn away.

In the case of Mr. and Mrs. William Jaeger, of Farmington, Michigan, the suspected kidnapping of their seven-year-old daughter, Susan, from a Montana campground June 25, still remains a puzzling nightmare.

Three and one-half months of investigation has brought no resolve. It has brought enough tips into F.B.I. investigators to sustain the hope that Susan is still alive.

So, the Jaegers, and some close friends are making still another appeal. A non-profit corporation has been formed to collect money for the new Susan Jaeger Reward Fund. It is an attempt to build up some kind of enticement for anyone who can provide information leading to her return unharmed or the conviction of those responsible for her disappearance.

Prior to this solicitation, the only reward offer was being provided through The Detroit News Secret Witness Program with the sum totaling Three Thousand Dollars. The Jaegers are hoping the new fund will be more attractive to a tipster and will move him to surface. Contributors can send money to:

Susan Jaeger Reward Fund Inc.
P. O. Box 1973
Farmington, Michigan 48024

If within a reasonable time the reward can't be given out, all money in the fund will be returned to the donors at their option or will be given to charity.

The names of anyone who can provide information about Susan's whereabouts will be kept anonymous.

Over forty of the Nation's governors have responded to previous pleas for help made by the Jaegers. All have stated they will do what they can. The same is true of many newspapers across the country. So, this fund request will be issued nationwide.

After three and one-half months will this be just another fruitless effort? Perhaps - But, understanding humanity is putting yourself in another's place.

If your child disappeared in the same fashion as Susan and there was no confirmation on her whereabouts, no finality to the situation, would you give up your search?

Background on suspected abduction:

The evening of June 24, Mr and Mrs William Jaeger were sleeping with their five children and Mrs. Jaeger's parents at a campsite located in the Headwaters State Park, thirty miles outside of Bozeman, Montana. Four of the children, including seven-year-old Susan were sleeping in a tent, while the rest of the family slept nearby in a camper and trailer.

It was the first such family camping trip for the Jaegers and the first night since arriving at this park that Susan had slept without her parents in the tent.

Susan's older sister awoke at four o'clock a.m. and found Susan gone, a long slit in the back of the tent, and the little girl's stuffed animal on the grass nearby. No one else had been disturbed. No one saw or heard anything.

An intensive search by police, and Montana folk in the area wrought no clues. And, no connection could be made with an unsolved murder of a twelve-year-old boy scout in the same camp five years earlier.

A week later, with the Jaegers still in camp awaiting word, a ransom call was phoned in to authorities by someone who said he had Susan. He never called back. But, F.B.I. officials and the Jaegers put much stock in that call because the voice on the other end gave a description of a birthmark on Susan which the parents had forgotten and which had not been included in the description released even to the F.B.I. But, despite that lead and hundreds of subsequent tips, nothing solid turned up. After a month's vigil, the Jaegers returned to their home in Farmington, Michigan, a suburb of Detroit.

The Jaegers sent letters asking for assistance in publicizing Susan's description to all of the governors of the country and received positive responses from forty of them. The F.B.I. investigation has extended as far as Hawaii and maximum coverage is still being given to the Western States.

But, as has been the case over the past three and one-half months, no leads have been firm enough to find Susan or warrant arrests.

If anyone does have information, either contact the F.B.I. or
The Detroit News Secret Witness Program.

The Detroit Office advised as follows August 2, 1973:

b6
b7C

[redacted] also known
as [redacted] in her opinion, is capable of committing
captioned kidnapping.

b6
b7C

She stated he is a "sex pervert", but to her knowledge
has never been involved in any criminal activities.

She advised that [redacted] left Lansing June 1, 1973,
driving a 1964 two-door light blue Ford with Massachusetts plates
en route to visit [redacted]
Street, Alda, Nebraska, to look for a job. [redacted] advised
she has since learned that this car is possibly junked. [redacted]
has never been able to keep a job and supposedly received a degree
in forestry from Michigan State University (MSU) May, 1973.

b6
b7C

When he departed Lansing, [redacted] carried with him two
bowie knives and a shotgun, gauge unknown.

b6
b7C

[redacted] does not know his present location and has
not personally heard from him since his departure, but she
advised he telephoned his [redacted]
[redacted] June 25, 1973, from an unknown location in
North Dakota.

b6
b7C

She advised that [redacted] wanted to take their
[redacted] with him, but she refused to allow him
to do so, fearing his intentions were to molest the child,
although she has no knowledge that he ever has attempted to do
so.

b6
b7C

She further advised [redacted] served in the U. S. Air
Force and re-enlisted twice after failing at civilian occupations.
In May, 1968, he dropped out of Syracuse University, New York,
and drove a 1965 light gold Ford, pulling a U-haul trailer en route
to Mesa, Arizona, and stayed at his brother's residence, Alda,
Nebraska, at least one night.

b6
b7C

She further advised [redacted] has evidently experienced
infrequent "blackout" periods after which he remembers nothing
he did during that time.

b6
b7C

Contact with parents failed to corroborate wife's observations, but does reflect his unstable behavior. Parents advised [redacted] telephoned them on June 25, 1973, approximately 7:00 p.m. collect from Telephone [redacted] wherein he advised he was attempting to find a job on a farm and was calling to determine the location of a farm owned by relatives with the last name of [redacted] in the Mott, North Dakota, area.

b6
b7C

Lansing, Michigan, Police Department and Michigan State Police (MSP) records negative regarding [redacted] MSP Sex Motivated Crime records was negative. Reliability of wife is unknown, although personal contact has not indicated she is unreliable.

b6
b7C

The Minneapolis Office furnished the following information on October 10, 1973:

[redacted] stated on October 9, 1973, that on or about June 25, 1973, [redacted] telephoned her residence from a service station in Mott, North Dakota, and then came out to visit. [redacted]

b6
b7C

[redacted] at Michigan State University, East Lansing, Michigan. [redacted] is [redacted] who teaches at Michigan State University.

[redacted] spent the night at the [redacted] residence and left at noon the following day. [redacted] stated that she is not sure of the day [redacted] arrived, but that it was the day ten inmates escaped from the North Dakota State Penitentiary at Bismarck. [redacted] Special Agent, Bureau of Criminal Investigation, Bismarck, North Dakota, stated on October 9, 1973, that the escape referred to by [redacted] occurred June 24, 1973, during the night, and, therefore, publicity first took place on a large scale on June 25, 1973.)

b6
b7C

[redacted] recalled the escape because [redacted] advised her he had been camping for three weeks and entered North Dakota from Canada and had been searched completely at the border. He had a gun with him, but was allowed to continue into North Dakota. [redacted] explained that [redacted] was carrying a gun, type unknown, in his vehicle because he was camping out.

b6
b7C

[redacted] did not ask for work at the [redacted] farm, he stated he was traveling to look for employment possibilities and [redacted] presumed he was seeking a job in the area of forestry in that he had graduated from Michigan State University with a degree in forestry.

b6
b7C

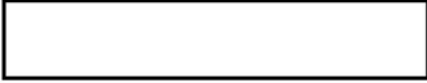

[redacted] did not act unusual in any manner, played with the [redacted] described the visit as a very pleasant one. [redacted] asked for a map of Rapid City and [redacted] assumed he traveled there after leaving Mott. She has had no contact with [redacted] since his visit and his current whereabouts are unknown to her. [redacted] was alone at the time of his visit.

SA [redacted] FBI Headquarters, stated that SA [redacted] at FBI Headquarters had received a note concerning this case from a person who claimed to have camped at Trident. This person indicated that she was frightened of a camper at the site and mentioned it to the "ranger" in charge of the camp. b6
b7C

The caretaker stated this was allowed since he was living on a small disability pension. The correspondent, (identity unknown to SA [redacted]) indicated this veteran could well be considered a suspect in the JAEGER case and that possibly the caretaker had not furnished him as a suspect since the caretaker was violating the rules by allowing the veteran to remain longer than ten days each summer.

The following investigation was conducted by SA [redacted]

On August 6, 1973, [redacted]

Approximately three weeks ago she had gone to the "I CHING" with the question, "Where is SUSAN JAEGER?" She had obtained the following information:

SUSAN JAEGER for a while was being kept alive in a cavern or cave located six miles west of Three Forks, Montana. She may still be found at this location, but she is dead. She was killed as the result of a mishap by [redacted] [redacted] is mentally disturbed, but is presently acting normal. SUSAN's [redacted] knows of the mishap, but is scared to tell anything, also he has not been asked by authorities about this matter.

The mishap occurred as the result of a game, which the youngsters were playing. There is a possibility that the girl did not want to return home, [redacted] got impatient and disaster resulted.

No one suspects [redacted] of being in any way involved because of his diligence in attempting to locate [redacted] SUSAN JAEGER died as the result of some sort of steel, possibly from an arrow passing through her body. She has never been to Montana and other than what she has read in the newspaper about this matter, knows nothing about the JAEGER family.

The following anonymous letter was received August 6, 1973:

Miles Cit., Mt. - Aug. 2, 1973

F. B. I. Agent in Charge
Butte, Mt.

Dear Sir: I wrote to you the other day or so suggesting the use of hound dogs etc, and from the press, I notice that you tried it. Probably too long for any scent to still be there. Also..suggested that the phone etc in Mich. of the parents of Susie, be bugged etc

Today, I thought of a man in Three Forks there, who was night marshall for years, top excellent character, and a man of mature sharp judgement...just the one who would know every resident or character there. If he still is night Marshall there, perhaps your men could ask him to think and watch...and he would do just that, while maintaining discreet silence all the time. His name is [redacted] b6 b7c

While writing, I might suggest that the Susie job could have been a two-man job... one to carry her, and the other to keep her mouth covered up to keep her from screaming etc. If 2 men, this new deal up around Kalispell might fit into the picture. Possibly tourists in character, and therefore unknown in Three Forks.

(I just hate to see whoever it was, get away with it, for it was simply terrible.

I notice that they have now caught some character in Michigan trying to extort. Excellent.

This picture of [redacted] is all smiles...and not a sign of any grief. One person has suggested to me that it might have been a "child sale", but your agents would have caught that fact in short time, if so. However, I do wonder if his profession is what was represented...Professional designer" etc. What his resources are etc. Whether, in case of a child trade ~~xxx~~ or anything of that kind, if they might have had a cousin, a very dear lady friend or couple, who longed for a child and couldn't have one etc. And that they could have promised a delightful future for a child, along with a college education and all that. Or...with a situation such as developed, expectation of loads of contributions from the public. Ha. It is terrible for me to even think of such a case. b6 b7c

In any event, when and after you have maintained surveillance on the parents home phone, any toll calls made out from it, would appear on the phone company records. Incoming mail, plus outgoing mail could also be covered. This would make sure that your agents know of every single letter incoming or outgoing, should they be on a letter route, rural or otherwise. Then if they did get letters or phone calls, this would prevent a change of heart, should they change their minds and decide to try it alone by themselves.

Sorry to bother you again, Sir, but I am as anxious as you to see the characters brought to justice.

-Another thing, too, could some character have followed them out from Michigan, and decided to run off with Susie? But then...you still have to come back to that fact that a similar tent cutting affair happened in almost the ~~xx~~ very same spot...which is the sticker.

I will be glad to see who are the kidnappers of the two young girls at or near Kalispell. There sure could be a tie-in...and by solving it, you might solve both kidnappings. It does sound a lot like two men in the Susie case...at least, as to being possible that it was 2 men.

Wishing you a lot of good luck...
and wishing you success,

ak

7-497-452

Dear Agent:

Now you have ages 7 - 9 - 11 - 14...girls missing.

Now you have 2 camp grounds - Three Forks & Lincoln.

Now you have a strip running north-west - Southeast from Three Forks to Marion.

Middle point being Lincoln, ~~midway~~ about 100 miles each way from 3-Forks & Marion.

Said points could indicate someone traveling along Hiway #10, too.

With 4 girls now missing, that thought of having the Hiway Patrol check cars and the trunks, thereof, might not be such a bad idea either. Perhaps during the late hours of the night, say 11 pm. to 4 a.m., since they might choose a time when there'd be little if any traffic. Inspections treated as roadblocks with no publicity. III

Another point: Could the home of the parties be centered about half way on the said N. W. to S. E. line?

Another point: The kidnappers might be tourists, or those engaged in occupations requiring travelling etc.

Drummond would be a logical spot for this last girl, the 14 yr. old.

So many cases, it almost looks like the work of a bunch of young punks.
I can hardly feature an older man repeating so much.

If the ones sought had credit cards, daily checks of credit cards use near Drummond etc, might help.

But the points that seem to stand out, is Two Camp Grounds, indicative of their choice being camp grounds etc.

Was the 14 year old talking, or seen talking to any one at the camp ground near Lincoln.

Whoever it is, pulling said jobs, should be lynched on the spot!!!

Just a citizen.

During lunch hour and before I could get the above letter mailed, the news came over the air about catching the man from Texas in the white panel truck, along with the 14-year old inside. Ha.

This brings two points into view: 1 - A man with a panel job wouldn't need a shack and could use his truck for his love life etc. 2 - He picked up the 14-year old at a Camp Ground, and that was not too excessively far from where Susie was taken. I would say that he has a good chance of being "Hot". It would be nice to see what our good hound dogs would do if taken to the interior of said truck...Using scents from Susie and also the other two missing girls. A man with a panel job could pick up a girl, rape and kill her, and bury her anywhere along the roadside.

In the news at noon, it said that the Sheriff of Missoula County said he had established that he was out of state. Well, with a murder of Susie possible, he just might have gone to extreme lengths to have an alibi all ready. Anyhow, he picked up the 14-yr. old at a Camp Ground...and in line with Three Forks and Marion. Being AFOL is another indication, too, of what he may be like. I'd sure hold him for awhile and be sure.

Miles City, Mt. - Aug. 5 1973

Dear Agent in Charge: More suggestions...and I hope one of them might be of help.

Little Susie was 7..and the two new girls missing are 9 and 11...so you have 7 - 9 --&-- 11...All about or near the same age group.

If this is a genuine Kidnapping, I rather think you will catch him or them for the simple reason....that a man or men like that would be trying to pick up girls every day...not just the last ones...and in having made attempted pickups, they would be remembered by the girls with whom they tried to pick up. At least, the dogs revealed that the girls went to the highway...and were picked up and taken away from that spot...indicative of a car, truck or other vehicle.

Here in Miles City, they have some sort of a tip off system on drugs...wherein they can call one certain number here, not have to give any names at all, but just tip off the Sheriff as to what they may have happened to hear. If my memory is right on the number, it is a number number..5678....Station 232-35678..which you undoubtedly already know as to the correct number. They say that system really works.

Would it be possible to have your radio and T-V media publish the fact that you are asking the general public to phone in toll-free from all over the state, as to the names and/or descriptions of circumstances such as described that a man with an old red truck was seen talking to the two girls etc etc. The point is, that with said parties trying to make pick-ups everywhere they travelled, they did leave a trace and girls would remember and report, feeling that they were sure lucky to not fall for the line of gab put forth.

If and when you do catch suspects, try taking the hound dog up to where the parties live, in a search for little Susie's body. I recall back about 10 years ago, some girl was missing and they thought some married man might be responsible. He was the husband of a beauty operator. His folks owned one of those cabins up in the hills. A reporter for one of the large dailies, took a hound dog up there to snuff around and there was the girl's grave. I recall that then they searched his house and under the boards in his home (in the basement portion) they found the dead girl's school books and glasses.

Another point is that Susie's and the other two girls' kidnapper, may be someone who travels around the state, doing odd jobs here and there, work such as roofing, tree work, etc..., and might even have been the one or ones that killed that other boy at Three Forks.

Another point: The perpetrators may be carting the girls around in the trunk of their cars or in a truck, covered up under something in the truck. In cases such as these, Road-block could be established, wherein cars could be checked out for mechanical conditions such as brakes, lights, spare tires...which would cause a search of the trunks of said cars. No person should object to having their cars checked out in cases of girl kidnapping. If they object, I am sure that our Attorney General could get an instantaneous Court Order via radio, right on the spot, where the check was being made etc.

Then, too, the party or parties in this last instance, might just have been the ones that killed that boy in a tent deal 7 or 8 years ago near Three Forks, which might account for the repetition.

If folks would stop for a moment and think about Susie and these other two girls...it is apt to start an avalanche of kidnappings and rapes and possibly murders of young nation-wide...and the sooner they can make examples out of one or two of them...the sooner said psychos will know they can't do it and get away with it.

Susan Jaeger Kidnapping

DETAILS OF OFFENSE, PROGRESS OF INVESTIGATION, ETC.:
(Investigating Officer must sign)

Date September 22 1973

Received a report on 18 September, 1973 from Gallatin County Sheriff's Office that [redacted] had found some clothing while hiking near Hollowtop Mountain, west of Pony, Montana on about 26 August 1973. Interviewed [redacted] Kinyon-Noble Lumber Company, Bozeman where he is employed. He described the clothing as one pair of small blue jeans, a blue shirt, and a red colored sweatshirt. He stated the items were located about two miles down the hill from Hollowtop Lake, but could not give an exact location. He did agree to accompany an Officer to the site to attempt to relocate the articles. On September 22, 1973 Brelsford, Bozeman Police Chief Robert K. Johnson, myself and four others went into the Hollowtop, Mountain area and located the clothing approximately five to five and one half miles west of Pony. The items appeared to have been there for an extended period of time as all showed signs of the fabric rotting. A search of the area was made to determine if there was any other possible evidence around, with negative results. The clothing appeared to be of a much larger size than that worn by Susan Jaeger and was removed from the area to be turned over to the FBI for proper disposition.

BT #7-497

Examination of the clothing received from [redacted]
[redacted] September 23, 1973, indicated that these items of clothing definitely were not identical with those previously described as having been worn by the Victim at the time of her disappearance. The blue jeans were normal Levi-type trousers, Size 32 waist, 32 length; the examination of the shirt and sweatshirt revealed that they were far larger than what would be worn by a seven-year-old girl.

[redacted] is in the ninth grade attending high school in Great Falls and is admittedly a runaway. She stated that she had no specific information concerning the kidnaping of SUSAN MARIE JAEGER, but she speculated that there were some persons in the Great Falls area who might be able to furnish some information concerning the kidnaping. When asked what she based this assumption on, she advised that just after the kidnaping occurred, a man known only to her as [redacted] (LNU) had suddenly left the Great Falls area and was well known to the police authorities and to one [redacted] also of Great Falls.

b6
b7C

[redacted] purely speculated that [redacted] (LNU) could well have been involved in or have knowledge of the kidnaping case involving SUSAN MARIE JAEGER. She described [redacted] (LNU) as:

[redacted] was unable to furnish any other information concerning the kidnaping of JAEGER.

serving as Chief of Detectives and would surely have been aware
of any such case.

She stated that [redacted] informed her that all the small girl did was kept looking around in the store and never even spoke to anyone and she thought this was unusual.

b6
b7C

[redacted] stated that the two men, in her opinion, had been camping at Coney Dam Reservoir outside of Boyd, Montana, and had been in the store also on Friday. She stated that she recalled that they had been drinking and believed that they spoke with a regional accent.

b6
b7C

[redacted] stated that she did not think that the small girl accompanying the two men and a woman was SUSAN JAEGER, the Victim of the kidnaping at Three Forks, Montana.

b6
b7C

[redacted] advised on July 26, 1973, that she saw two older men and one woman, along with a small girl in the BOYD GENERAL STORE on Friday, July 20, 1973, somewhere between 6:00 p.m. and 6:30 p.m. She stated that the men and woman purchased fishing bait and the woman, in her opinion, appeared to be unstable.

b6
b7C

She stated that she could not further identify the older men, who were with the woman. She stated that she saw the same vehicle that they were in on Saturday, July 21, 1973, which she described as a 1960 Chevrolet, two-door hardtop, with out-of-state license #GD and other numerals unknown; however, they were white numbers with a blue background.

She stated that the small girl accompanying the people on Friday had black hair and the dress she wore was floor length, but she could not state that she appeared identical to SUSAN JAEGER and her only interest was that this was a small girl with older people, who undoubtedly were not the parents of the girl.

AT BOULDER, MONTANA

On August 3, 1973, Jefferson County Deputy Sheriff [redacted] advised he just learned of an incident that occurred about two weeks ago involving the molesting of the [redacted] KARL'S BOWL (bowling alley) here. [redacted] kept the incident quiet because he was afraid parents of children might put his place off limits to their children. The incident involved a stranger, a man around fifty, masturbating in front of [redacted] in the men's room of the bowling alley. [redacted] learned of this from a waitress, [redacted] there.

b6
b7C

On August 3, 1973, [redacted] KARL'S BAR AND BOWL, 115 North Main, advised of the following:

b6
b7C

About July 23, 1973, an older man, who had been in the bowling alley a couple of previous times, accosted [redacted] in the men's room there and the man exposed himself to [redacted] and apparently masturbated in front of the boy.

b6
b7C

[redacted] did not try to get further details from the boy to keep from upsetting him. The man apparently may have lured the boy into the room with the promise of money. When [redacted] learned of the event a couple of days later, he began checking on the man, who is a stranger in Boulder. He found out he had been seen at the RIALTO THEATER, which has a show once a week, mostly catering to kids. He is believed to drive a yellow station wagon, license unknown, probably Montana plates.

b6
b7C

On July 27, 1973, [redacted] saw the man again in the bowling alley and called him into a back room. He accused the man of the above act, which he at first denied then said, "What if I did." With that [redacted]

b6
b7C

[redacted] of the Corpus Christi Police Department lost his temper and punched the man. After a feeble attempt to defend himself, the man ran out of the bowling alley and rounded a corner where [redacted] lost sight of him.

During their brief encounter [redacted] only learned the man's first name is [redacted] who claimed to have been a miner and he believes the man is from Butte, Montana. This man was described as follows:

b6
b7C

Name	[redacted] (LNU)
Race	White
Age	52
Height	5'11"
Weight	160-170
Build	Slender with slight paunch, round-shouldered
Hair	Gray, fairly thick, receding forehead
Eyes	Blue (Squints noticeably)
Complexion	Ruddy, has weathered look
Characteristics	Walks with slight stoop, has somewhat furtive, sneaky way and look about him
Clothing	Always seen wearing white billed cap, had on Khaki pants, white polo shirt
Car	Reportedly drives yellow station wagon, make and model unknown, probably Montana license

b6
b7C

[redacted] said he had checked over much of the town before he located this man and no one seemed to know him. The only one, who did, was the man who comes here from Whitehall, Montana, to operate the movie on Thursday night. That man, whose name [redacted] does not know, was the only person, who recalled seeing this individual here lately and is the one who seemed to have seen him in a yellow station wagon.

b6
b7C

[redacted] said he will make further inquiry among the children and try to further identify this man.

b6

On August 3, 1973, Chief ROBERT C. HAWKINS, Boulder Police Department, advised he knew nothing about this incident until this date and could offer no help in the matter.

On July 19, 1973, SA [REDACTED], accompanied by [REDACTED] Glendive, proceeded to intake, Montana, and located the diversion dam. b6

It was noted that there were many fishermen lining the banks of the diverted waters and at the mouth of the dam. They were questioned, but none had seen anything, which might tie in with this case. AT HELENA, MONTANA

On August 13, 1973, PHILLIP C. PEDERSON, Chief of Medical Administration, Veterans Administration (VA) Hospital, Fort Harrison, advised that mental cases are not treated here and are referred to the VA Hospital, Sheridan, Wyoming, which is a psychiatric treatment facility. Almost always, a patient's file referred from here, will be retained at Sheridan and there is no way of checking back for records here on those patients. Regarding sexual deviates, PEDERSON said he can recall only one patient coming within this category, and he was a suspected homosexual, but he doubts this was even entered in the man's record. He could not now recall the man's name.

PEDERSON said he and [REDACTED] will review as best they can the medical records to see if they can identify any veteran, who arrived here and had a diagnosis of a mental condition. PEDERSON said the medical records are now being computerized and it may not be possible to identify these cases as mental patients.

VOLKSWAGEN OBSERVED WEST

b6

[REDACTED] of Mankato, Minnesota, advised that they were driving in a westerly direction approximately forty miles from Roundup, Montana, on Highway #12 on June 25, 1973, when they caught up to a slow moving older model standard Volkswagen with two hippie-type males and a small girl in the vehicle.

b6
b7C

It is noted that a distance of forty miles west of Roundup, Montana, is a remote area of the state. Between the junction of State Highway #3 and State Highway #12 at Lavina, Montana, and Harlowton, Montana, there are only two service stations, which are currently open and operating. The distance from Harlowton, Montana, to Roundup, Montana, is approximately seventy miles.

In one letter, [redacted] mentioned he was with the archeology students at the Headwaters State Park, where SUSAN MARIE JAEGER was kidnaped. [redacted] advised that she did not feel there was anything to the letters, but that her mother had shown them to a Sheriff's Office, who advised the FBI. [redacted] does feel that these letters from [redacted] were a nuisance and that because of her limited relationship with him, she felt they were rather "sick."

b6
b7C

[redacted] advised that she met [redacted] shortly before Christmas, 1972, at a party at a friend's house. She stated that they had dated on two occasions, but had nothing come of these dates and she had put him off since their last date, which occurred in February, 1973.

b6
b7C

She also stated that he had left a note and Christmas gift at the hospital, which she thought was very unusual considering she had only been out with him once before. She stated the first letter came at the end of June, 1973, and that a second followed the first part of July, 1973. She advised that she would be willing to give these letters to the FBI; however, she did not feel that they would be of any use. She did turn over a letter to SA [redacted] who in turn submitted them to the file in the 1-A section.

b6
b7C

A review of the letters revealed nothing pertinent concerning the SUSAN JAEGER case, other than the fact he had mentioned he had been in the area when the kidnaping occurred. In view of the fact that [REDACTED] has only experienced one arrest, this being for the possession of beer, and there is no indication that he is a sexual deviate or has any inclinations in this regard, it is not felt that inquiry at a high school in the town the size of Roundup would be warranted at this time.

[redacted] was interviewed at her residence and advised she was

b6
b7C

the individual who telephonically contacted the Victim's family in Farmington Hills, Michigan, on August 9, 1973. She pointed out her cousin, [redacted], stayed at the Headwaters State Park, Three Forks, Montana, during the latter part of July, 1973.

b6
b7C

[redacted] stated [redacted] told the family about the kidnapping when she returned to Bloomington, Indiana. At this time [redacted] mother indicated she had had a dream that [redacted] was being abducted from the campground during the time they stayed at the Headwaters State Park.

b6
b7C

She related inasmuch as she had recently lost a son, she was aware of the grief surrounding the loss of a child and she felt the least she could do would be to call [redacted] and advise her of the dream of her cousin's mother. She thought possibly this information might be helpful in locating the Victim.

b6
b7C

She was unable to furnish any more specific information concerning the dream of her cousin's mother.

[redacted] advised she and her husband and daughter [redacted] camped at the Headwaters State Park, Three Forks, Montana, on July 24-25, 1973, as they were returning from a trip from the West Coast. She explained during this camping stay, they learned of the abduction of the Victim and upon their return to Bloomington, they related this information to their relatives in Bloomington.

b6
b7C

[redacted] pointed out her mother then told her she had had a dream during the time they were staying at the Headwaters State Park and this dream reflected that [redacted] daughter was being abducted from the camping area. She stated her cousin, [redacted] is a very emotional person and consequently when she heard about [redacted] mother's dream she decided to call the [redacted] in Michigan.

b6
b7C

[redacted] refused to identify her mother as she explained she is an elderly lady and very sick with rheumatism and arthritis. She pointed out there was actually no relationship to her mother's dream and the disappearance of the Victim as the dream occurred approximately one month after the captioned individual's abduction.

AT OXNARD, CALIFORNIA

On October 11, 1973, Mr. and Mrs. LESLIE WATE (GRACE LAVINE) GIFFORD, Space 50, 1301 Ventura Boulevard, Oxnard, California, were interviewed separately.

Mrs. GRACE LAVINE GIFFORD, age 68, advised that they have resided in the Royal Duke Mobile Estates, 1301 Ventura Boulevard, Oxnard, California, since 1960, and that her husband retired in 1964.

Mrs. GIFFORD stated that she maintains a detailed day by day diary of all of their travels. This diary reflects that they arrived at the Missouri River Headwaters Monument, near Three Forks, Montana, at 2:15 p.m., on Saturday, June 23, 1973. She stated this was their first visit to this monument.

Mrs. GIFFORD advised that they parked their trailer next to an open meadow area which was about 75 feet distance before other campers were parked in their rear.

Mrs. GIFFORD advised that at about 5:30 a.m., on Monday, June 25, 1973, a sheriff's deputy came to their trailer and talked to her, advising her that a seven year old daughter of the JAEGERs who were parked about 75 feet from them across the grass was missing and had been missing since approximately 4:00 a.m., that date. Mrs. GIFFORD advised this deputy that she had had no contact with the JAEGERs and did not know the family and had previously been unaware of the JAEGER girl being missing. Mrs. GIFFORD stated that she had been up since about 5:00 a.m., on that date and had seen nothing that might pertain to the missing JAEGER girl. She stated that they had gone to bed approximately 9:00 or 9:30 the previous night and had not been up at all during the night.

Susan Jaeger Fund Is Started

No Clues

By AnnaBelle Phillips

An announcement of the formation of a non-profit corporation to collect money for a new "Susan Jaeger Reward Fund" has been recieved from Farmington, Mich.

"It is an attempt to build up some kind of enticement for anyone who can provide information leading to her return unharmed or the conviction of those responsible for her disappearance," James E. Zann, secretary, Susan Jaeger Reward Fund, Inc., said.

He added that, although 3½ months of investigation has brought no resolve, it has brought enough tips into FBI investigators to sustain the hope that Susan is still alive.

Susan, 7, daughter of Mr. and Mrs. William Jaeger of Farmington, was apparently abducted from the Headwaters State Park near Trident, where the family was camping out, in the early morning hours of June 25.

The child was sleeping in a tent with two brothers and a sister and her parents and grandparents were asleep nearby in a camper and trailer. Susan's older sister awoke at 4 a.m. and found Susan gone, a long slit in the back of the tent and the child's suffed animal on the grass nearby.

No one else had been disturbed. No one saw or heard anything.

An intensive search by Montana law enforcement officials and volunteers turned up no clues.

A week later, while the Jaegers were still at the campsite awaiting word of their child, a ransom call was received. Although the caller, who said he had Susan, never called back,

Susan Jaeger

the Jaegers and FBI officials put much stock in the call because of the description of a birthmark on Susan, which her parents had forgotten to tell anyone, even the FBI, about.

Since that time, there have been hundreds of tips but nothing solid has turned up. The FBI investigation has extended as far as Hawaii and maximum coverage is still being given to the Western States.

However, over the past 3½ months, no leads have been firm enough to find Susan or warrant arrests.

Prior to the establishment of the new fund, the only reward offer was being provided through the Detroit News Secret Witness Program. It totaled \$3,000.

"More Attractive"

"The Jaegers are hoping the new fund will be more attractive to a tipster and will move him to surface," Zann said.

Contributions can be sent to: Susan Jaeger Reward Fund, Inc., P.O. Box 1973, Farmington, Mich., 48024.

If, within a reasonable time, the reward can't be given out, all money in the fund will be returned to the donors at their option or will be given to charity, Zann said.

The name of anyone who can provide information about Susan's whereabouts will be kept anonymous.

Anyone with information can either contact the local FBI or The Detroit News Secret Witness Program, P.O. Box 1333, Detroit, Mich., 48226.

Jaegers maintain Susie will return

SALT LAKE CITY (AP)—The family of a 7-year-old girl who was apparently abducted from a Montana campsite four months ago is reported to still believe that the girl will be returned to them safely.

"We still feel she is alive and we will get her back," Mrs. William Jaegar of Farmington, Mich., was quoted Monday as telling the Deseret News in a telephone interview. "As the months go by the feeling gets stronger."

It was four months ago Monday that the family bedded down at the Montana state park, with four of the five children sleeping in the tent near the camper and trailer which sheltered the remainder of the family.

About 4 a.m., Heidi Jaegar, 13, awoke and saw a long slit in the tent. She discovered that her sister Susie was missing.

The police and FBI search for Susie produced no results, but the News said the family bases its hope on the fact that a body has not been found, that a number of tips have been received by the FBI, and on faith.

"God has really been very good to us, as we have had the prayers and support of so many people," Mrs. Jaegar was quoted as saying.

More than \$8,000 has been raised from contributions to set up the "Susan-Jaegar Reward Fund, Inc." in Farmington, and a Detroit newspaper has offered an additional \$3,000 through its "Secret witness" program, the News said.

Though the family reports receiving several "sick calls" since Susie disappeared, their telephone number is still listed.

"We sit on the phone," Mrs. Jaegar was quoted as saying. "Generally, we speak about when Susie comes back, and not any other way."

The other children "have been real good about Susie being gone, and they take their lead from us," she was quoted as saying.

"We keep up the normal routine, and that helps," she said.

Leads are being set out on the basis of these communications and "visions" on the assumption that the possibility exists that this could be a method a person might use to locate body of Victim.

about the little girl - the man from California was partly right but 50 miles off - according to my wand. After taking the girl the sex maniac headed East on (90) and (27) to junction of (312) which he took South to Broadus. Just north of town he took the trail on the North side of the Powder River - southwest. He went down this trail $2 + \frac{3}{5}$ miles where he parked and carried the girl down to the River where he strangled her and buried her in the sand at the waters edge. No doubt the water seeped in and as the Calif man said - laying partly in the water. That is all, except that the man went back to 212 and on East. I wish I lived closer so I could check it out. Perhaps

your brother in law could get down there & check on it. If I could get my hands on a man like that maniac I would probably kill him.

I hope I am correct on my sketching at the site - the River bends north and nearer the trail.

It would appear the caller is adult male of indeterminate age, probably with at least a high school education but with a rural background. There appear to be no eastern or deep south speech characteristics indicating he may be from the west, southwest or midwest.

Specifically, he has a tendency to use rural western colloquialisms such as "can't hardly do that" and "gotta figger out ways not t' git caught." He tends to deemphasize the letter "L" in his speech, almost pronouncing it as a modified "Y".

No Laboratory report is being furnished.

Specimen Q15 is forwarded herewith.

They agree [REDACTED] has been making considerable progress
and is no longer to be considered psychotic, as he was
at the inception.

He still denies any knowledge of the crime,
however. His family apparently have been in contact with
[REDACTED] and have provided an alibi for him, in that
he did not work on the day in question as it was raining
and they can account for his time. Also, they have
engaged the services of the County Attorney at Columbus,
Montana to represent them (this is probably [REDACTED]).

[REDACTED] feels that in his present condition

very beginning. He asked him if he had read it in the

reason and that he was scared. [REDACTED] then pointed
out that [REDACTED] cannot read.

The following investigation was conducted by SA [redacted] on August 3-4, 1973:

b6

AT BOZEMAN, MONTANA

On August 3, 1973, Sheriff ANDY ANDERSON, Gallatin County Sheriff's Office, Bozeman, advised that the Virginia City Sheriff's Office had been contacted by one [redacted] who claimed that SUSIE JAEGER was still alive and that she was located in Bozeman, Montana. ANDERSON was requested to recontact the Virginia City Sheriff's Office and see if they would bring this individual over to Bozeman.

b6
b7C

[redacted] who resides in Twin Bridges, Montana, and operates [redacted] advised SA [redacted] that SUSIE JAEGER was alive and that she was located in Bozeman, Montana, and that he would be able to locate her. He then set up a Spanish Dip Needle, which is something similar to a water witch's wand and is used by prospectors and treasure hunters. He held this instrument in both hands over a map of Montana and it dipped pointing to Bozeman, Montana. He then requested a map of Bozeman and performed the same operation over this map and the needle dipped to the first block [redacted]

b6
b7C

To verify this reading, he then used a Titan #2, which is an elaborate plumb bob and again stated that she was located in the first block east of [redacted] on the north side of [redacted]

b6
b7C

It is to be noted that the only residence in this area is that of the sister-in-law of Sheriff ANDY ANDERSON. This woman is approximately seventy years old, lives alone and is a widow.

On the possibility that this type of witching could be possible, Sheriff ANDERSON contacted [redacted], who is a known water witch.

b6
b7C

[redacted] came to the Sheriff's Office with a wooden fork cut from a bush. He, too, held this instrument over a map of Montana and it in turn dipped toward the Bozeman area. [redacted] then held the same fork over a map of the County of Gallatin and it in turn dipped toward Three Forks.

[redacted] stated that he is unable to explain how or why water witching is successful and he is unable to explain why his

wood wand would dip toward the map of Montana or the Three Forks area in Gallatin County.

[] did explain that he has been able to cut the hair from one person in a room, have the hair brought out to him, which he places on the end of his wand and be able to go back into the room and have the wand dip toward the individual from whom the hair has been removed. b6 b7C

[] further stated that he has been able to locate articles lost in snowbanks with the use of this wand, but has never attempted to locate an individual. He advised that on various occasions he has asked Sheriff ANDERSON to call upon him when they are seeking a drowning victim to see if he can possibly locate the victim through the use of this witching wand. b6 b7C

[] stated that possibly with a piece of hair from SUSIE JAEGER's head he would like to attempt to see if she is in the Three Forks, Montana, area and if there is any reaction of hair on the witching wand. b6 b7C

AT LODGE GRASS, MONTANA

On August 9, 1973 [redacted] Lodge Grass, was contacted concerning the telephone call he had made to [redacted] who is handling the "Secret Witness Program" for the "Detroit News" concerning the SUSAN MARIE JAEGER kidnaping.

b6
b7C

[redacted] advised that either on July 9 or 10, 1973, an unknown individual approached his home outside of Lodge Grass seeking information as to the best travel route to the Yellowtail Dam. [redacted] further stated that the unknown individual had parked his vehicle outside his property. He, [redacted] invited the unknown individual into his home where they had a brief conversation concerning the location of the Yellowtail Dam.

b6
b7C

The unknown individual stated that he was going to camp out by the Yellowtail Dam for several days and then travel to Three Forks, Montana, to visit a friend by the name of [redacted]

b6
b7C

[redacted] knows [redacted] and stated that he is sure this individual is no friend of [redacted] due to his appearance. [redacted] further stated that the route this individual was taking to the Yellowtail Dam and to Three Forks was very unusual. [redacted] then suggested to the unknown individual that he would escorte him back to the main road and show him the proper direction to travel in order to get to Yellowtail Dam. It was at this time the unknown individual acted as though he did not want [redacted] to observe what was inside the vehicle. Mr. [redacted] said he was persistent and that as he walked by the unknown individual's vehicle, he observed a small child inside, head and shoulder view only, which he described as nine or ten years old, with brown hair. He was unable to determine whether the child was a male or female. The vehicle was loaded with camping equipment placed in the back seat of the car in a disorderly fashion. [redacted] described the vehicle as an older model light-colored vehicle, two-door, and no license plate on the front of the car.

AT YELLOWTAIL DAM, MONTANA

On August 8, 1973, an attempt was made to contact the U. S. Forest Service at Yellowtail Dam, with negative results. It was determined by a schedule located on the door of the U. S. Forest Service that that particular station is not manned on any particular schedule.

Date of transcription 8/23/73

[redacted] was interviewed at his residence after being made aware of the identity of the interviewing Agent and the purpose of the interview.

b6
b7C

[redacted] furnished the following information concerning his gift of "radiesthesia."

b6
b7C

[redacted] advised that he began getting interested in radiesthesia in the late 1940s. Since then he has radiesthesia primarily to locate minerals through the use of thought control and a pendulum. He stated that in the past he has found numerous oil wells in the Montana-Wyoming area and also is responsible for having found a gold mine in Canada approximately three years ago.

b6
b7C

He said he has been used by various firms in locating oil and also that once oil is found he can determine whether or not it would be profitable to drill for what oil is beneath the ground.

He stated that radiesthesia is not accepted by many people, but that it has worked numerous times in the past and that books have been written on this subject.

[redacted] stated that regarding the kidnaping of SUSAN MARIE JAEGER he had determined that through the use of his pendulum and a map of the Montana area he could follow the swing of the pendulum and discover her present whereabouts. He advised that he does not normally use radiesthesia to locate people, but that in this case he felt it may be of some help.

b6
b7C

[redacted] then demonstrated radiesthesia and by following the swing of the pendulum came to the same location he had referred to previously, which was approximately one and a quarter miles east of the Browning junction, where Highway #2 and #89 join.

b6
b7C

At the time of the interview he stated that radiesthesia is not foolproof and that this may not be exactly where the victim is located. However, he does believe that she could

b7C

very well be in the area mentioned above. He further demonstrated radiesthesia and by asking questions and watching the reaction of the pendulum he could disclose approximately how many people were involved, which he advised was three, two females and one male, and that at the time of this interview he felt that the victim was still alive.

He further demonstrated his use of radiesthesia on a map of Oregon and Washington. At this time he tried to discover the location where D. B. COOPER had bailed out of the hijacked plane. He stated that through radiesthesia he had discovered that COOPER had landed near a highway, just west of Lakeview, Oregon, this would be Highway #66.

He further advised that after landing he left the money near the road, proceeded to Lakeview, where he spent the night, and then took a bus down through Sacramento and in to Old Mexico. He returned at a later date and picked up the money.

He stated he was not sure of the route the plane took the night D. B. COOPER hijacked it, but that he felt sure that he had not bailed out in Washington, but instead had bailed out west of Lakeview, Oregon.

[redacted] finally advised that he would attempt to try to locate and two missing girls, who were abducted from the Kalispell, Montana, area and should he have any information concerning this case he would notify the FBI immediately.
