and I knocked off about 3:30. We'll be back, but not early.

As I write this, there's nothing more

Get [] going on whatever you think best

He probably should set up shop at the end of the hall since there's no room in here, but that's up to you guys. If he wants to start with that's fine with us. You call it.

I'm going to get 8 hours sack time, lift, and eat, so I expect I'll be in after noon. If I wake up earlier, I'll come in, but don't count on it. When [REDACTED] calls me in the morning, I'm only going to wake up long enough to give him your cell number.

If anything really exotic comes up, call me at home. I'm the only one there, so it won't disturb anybody.

If I've said anything dumb here, well, I'm tired....

The Old Fart

Figure 1 is a schematic representation of the experimental design. It shows a sequence of events: 'Stimulus presentation', 'Response', 'Feedback', and 'Inter-trial interval'. The sequence is repeated for multiple trials, with a 'Start' box at the beginning and an 'End' box at the end.
