On 3/17/83, I received a call from [redacted] b6 b7C
[redacted] American Bank, who advised me that an unknown individual appeared at the Essen Lane Branch of American Bank in Baton Rouge on 3/16/83 and attempted to buy a $9,000 cashiers check. The individual was carrying the money in a McDonalds bag and wanted the cashiers check made payable to Duncan Aviation, Inc., no address indicated. The teller who waited on this individual indicated that he appeared nervous throughout the transaction, and when she asked who was to be shown as the remittor, this individual became extremely nervous. He hem and hawed around and finely stated that he needed to make a telephone call to determine that information. He left the money with the teller, went to a nearby telephone, and made a call. He then returned to the teller and advised her that they were no longer interested in obtaining the cashiers check. He then retrieved the money and left the bank. The teller did not see the vehicle that this individual was driving. The teller described the individual as a white male, 6 feet tall, medium build, mid 40's, sandy hair, fair complexion, and casual dress.

At approximately 1:45 p.m., I observed Berriman Adler Seal, also known as Barry Seal, riding on a small orange motorbike. He was in the shopping center at Perkins Road and Siegen Lane.

I observed him use a pay telephone located in front of the SAVCO Drug Store. I subsequently determined the pay phone was number 766-9112. I observed several empty coin wrappers on the ground by the phone.

The following investigation was conducted by SA [redacted] at El Paso, Texas, on the dates noted:

A check at 2244 Trawood determined that it is a business office building and the directory on the first floor indicates that Suite 212 houses the West Hueco Corporation. A check in the first floor office determined that the building is managed by [redacted] Mortgage Investment Company, 5801 Trowbridge.

On April 22, 1983, [redacted] Building Management, Mortgage Investment Company, 5801 Trowbridge, advised that Suite 212, 2244 Trawood, was one of the suites on which his company was losing money until sometime in late March, 1982, when he was telephonically contacted by [redacted] who gave a return telephone number [redacted] She advised that she had been to the building and had seen the suites located there and that she wanted to rent the space in suite 212 as is. He sent the application to her and she then sent it on to California, where it was signed and returned to him. The leaser signature is [redacted] West Hueco Corporation.

b6
b7C

[redacted] advised that his company does not ask for applications when the suite is rented on an as is basis. The renewal is due on April 21, 1983, as the people signed the lease and moved in on April 21, 1982. Payment for the suite is $2,000 per month. The tenants have not been any problem to other tenants and their payments have been regular.

[redacted] advised he does not have any idea what business West Hueco Corporation is in, however, he has heard from others in the building that the company owns a rock quarry off Highway 54 in the Hueco Mountains east of El Paso. Also, that they have some gold mining in

245D-7-28

the same area. The company allegedly has some buildings associated with the rock quarry and the gold mining effort out in the area of these locations.

[redacted] advised that after the initial contact from [redacted] he has had no reason to contact her and at no time ever called the telephone number she left where she could be contacted. [redacted] stated he does not know who is working in the office in El Paso, as he has never been to that office.

SUMMARY OF ACTIVITY INVOLVING 1980 BEECHCRAFT N73 WL.

This twin engine aircraft was leased by SEAL from Ft. Worth Aviation, Inc. A considerable amount of money was spent by SEAL having sophisticated avionics installed on the aircraft by Electrosonics, Inc., Columbus, Ohio. [redacted] associated with Electrosonics, Inc. is SEAL's contact. Customs determined that N 73WL arrived in Columbus, Ohio about March 12, 1983 for the purpose of removing the electronic gear and installing it on a Bell helicopter, NK 84 FC because the Beech was not suitable.

On Sunday, 3/13/83, SEAL was observed by me using pay phone 766-9112. The phone is located in the shopping center at Siegen and Perkins, near his residence. [redacted]

On March 17, 1983 it was reported by American Bank that on that day an unidentified individual attempted to purchase a $9000 bank money order payable to Duncan Aviation. The individual went to the Essen Land branch. He had cash in a McDonald's bag. When asked who the remitter was to be he became confused and nervous. He went and made a phone call and returned and took the money back without obtaining the money order. Duncan Aviation was subsequently determined to utilize the same Lincoln, Nebraska post office box as is used by Management Jet International, Inc. Management Jet was determined to be the owner of Bell N 84 FC which is having the new installation made.

Dirty mine?

Report: Company broke waste law

By Ron Dusek
And David Crowder
Times staff writers

An investigation of a gold and silver mining operation in east El Paso County — the only one of its kind in West Texas — shows it has violated state waste disposal regulations and may pollute the water supply of nearby Paso View Estates.

The investigative report by the Texas Department of Water Resources listed two violations by the West Hueco Corp., owned by British Cayman Islands resident Steve McTaggart.

The firm has no permit to produce solid wastes and is not complying with state regulations on waste treatment, storage and disposal, according to the report.

West Hueco has been testing precious-metal extraction methods since October using sodium cyanide, sodium sulfide, sulfuric acid and other chemicals, the report stated.

"They will be mining in full swing once they decide on a process," said Bill Lockey, district supervisor for the Water Resources Department.

At the site, investigators found what appeared to be minor leaks in pipes carrying sulfuric acid. They also stated in the report that tailings are dumped into two small unlined ponds and solid waste is piled up at the site.

"Potential for ground water contamination exists from a leak in the sulfuric acid system or from leaching from the tailings ponds and tailings pile. ... Contamination of surface waters may result from run-off during rainstorms," the report stated.

Mike Schilling, general manager of the company's operation, said no acid is leaking but conceded the company

•Please see Mine, 2A

•Continued from 1A

does not have a permit to dump the tailings at the site.

Those tailings have been neutralized and pose no threat, he said.

"If you throw a can of beans on the ground, the state of Texas would come along and tell you you're not supposed to do it without a permit," Schilling said.

An official statement released by the company's lawyer, Thomas Stepp, indicated that the company plans to cooperate with the state by applying for the required dumping permit.

Beyond what was said in the statement, Stepp said he knew nothing of the firm's operation, including the owner's name. Stepp works in the company's office at 2244 Trawood, Suite 212, on the East Side.

"I don't know a thing," he said. "These boys do what they do."

Results from tests on water samples taken from wells serving Paso View residents and the mine should be ready next week, said Chip Volz, a hydrologist with the water resources department's enforcement division.

In a letter to El Paso Rep. Bob Valles, who asked for the investigation, the department's deputy director, Seth Burnitt, wrote that "enforcement action on West Hueco Corp. is being considered by the department in order to initiate corrective measures for the protection of state waters."

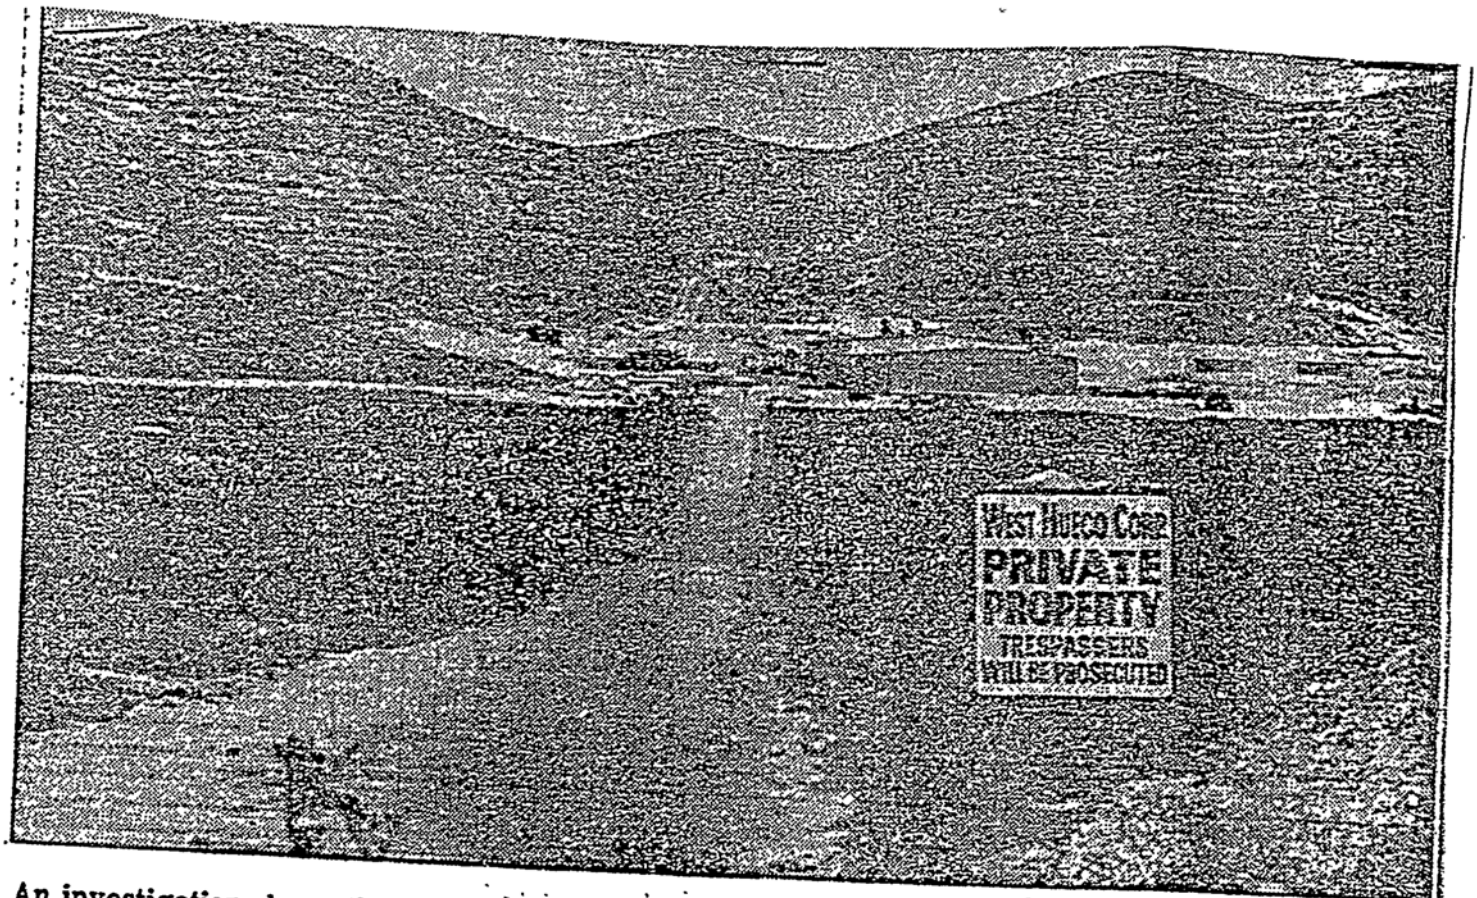

Volz said the company will be told next week specifically what it must do to comply with the law and probably will be given up to 90 days to comply.

"There is no immediate danger to anyone," Volz said. The attorney general's office would have to act against the company to shut down the operation if the company refused to comply with state regulations, he said.

Date of transcription 8/22/83

A. L. Hadaway, Sheriff, Polk County, Arkansas was contacted at telephone number 501/394-2511. Sheriff Hadaway was advised of the identity of the agent and the purpose of the interview. Sheriff Hadaway advised that he was personally at the Mena Arkansas Airport at approximately 5:00 p.m. on May 18, 1983. Two airplanes landed. He observed one of them to be a Piper Seneca tail number 2931C. He stated that the other one was not noted as far as the tail number.

Sheriff Hadaway stated that at the time of this incident the runway of the Mena Airport was torn up and under construction and it was not possible to cross the runway in an airplane taxiing. Sheriff Hadaway stated that shortly after the Piper Seneca landed, he heard an airplane fire up its engines. He observed that this aircraft was in front of Freddie Hampton's Hanger. He observed that it was a Piper Seneca, he believes it was blue and white in color and the tail number was N8049Z. He observed the aircraft to rev both engines up to full throttle while the pilot stood on the brakes until maximum revolutions were obtained at which time the pilot released the brakes and the aircraft made a short take off from the apron and not the runway. He estmiated that the aircraft took off in less than 300 feet. Shortly after N8049Z took off, he contacted his informant and was told that [redacted]

Sheriff Hadaway advised that he has known the informant for a period of [redacted] and the informant has furnished reliable information in the past that he has been able to corroborate through independent investigation. Since [redacted] this informant has been reporting to him that [redacted] and [redacted] are involved in a narcotic smuggling operation headquartered out of the Mena Arkansas Airport. The informant advises that the person who is in charge and control of the smuggling operation is known only as Barry from Baton Rouge and that he is contacted on telephone number 504/377-6453.

The Sheriff said that on prior occasions he has observed aircraft on the apron in front of the hanger or taxiing and that these

Upon Deputy [redacted] and Dty [redacted] and [redacted] checking the boat they found the AR 15 and a air craft portable radio and they found his insulat jump suit and food that was in the boat and that also found was a paper bag which contained a pair of ladys panty hose, a pair of ladys bra, three peices of underpants, (see photos) (turned in to [redacted] that [redacted] could not say why it should be in his boat, also the SKI rope was cut and a peice of the purple ski rope was in the bag with the woman garments and that that the rest of the roape was in a dry store of the boat.

Colt ARs- CAL. 223. mdl SP1 S#SP49162

Witnesses observed a male person launigng the boat at Des Alleands, La. on Friday, 10-22-76 and that on Saturday P.M. (Just at Dark) witnesses talked to the male person in the above boat which was at anchor just off of GRAND POINT in LAke Salvador and that at approx 11 P.M. other witnesses talked to a male subject in the same boat, same location subject seemed to be asleep wraped in a blanket.

These same witnesses are the same people who reported th boat with noone in it on Suhday when they observed the boat at anchor in the same location.

The Search was started.

CID Case #3110
COMPLAINT No.

On November 20, 1976, at about 9:00 A.M. the Galliano Annex notified this officer of a body that had been located in Lake Salvodor at Chico Point and I was advised by Chief Diaz to go to the scene and to conduct the investigation.

At about 10:00 A.M. I arrived on the scene and found the remains of a white male in the water face down about ten to fifteen feet from the bank in about three feet of water. The body had been located by hunters and when I arrived at the scene [redacted] of the Sheriffs Office rescue squad had removed the wallet from the back pocket of the body the drivers license with the name of Clarence J. Babin white male age 24 and the body was photographed by [redacted] of the Lafourche Parish Sheriffs Office and than the body was turned over and more pictures were taken of the front of the body. The body was than removed to the Falgout Funeral Home in Raceland by orders of the Lafourche Parish Cornors Office. The body was removed at about 10:15 P.M. and it was decided by Dr. [redacted] to call in Dr. [redacted] a Frensic Patholigist out of St. Mary Parish.

At about 5:00 P.M. Dr. [redacted] and Dr. [redacted] of the Cornors Office started the autopsy and removed from the body was a watch a clip with bullets and mud samples from underneath the coat. Pictures were taken of the autopsy and after taking the clothes off it was noted that the skin was comming off and that the subject had no hair left at all and it was also noted that there were no bullet holes and no stab wounds on the body at all. There was no evidence of any foul play and Dr. [redacted] determined that the subject apparantly died of drowning and said that there was no foul play indicated in the death.

b6
b7C

It should be noted that the body was about seven miles from Larose and about two to three miles east of the location of the boat that was found in Lake Salvador.

Blood samples have been sent to the Lab in St Mary Parish Cornors Office in Franklin to determine the blood alchol content if any.

The Lafourche Parish Cornors Office has determined that the death was due to drowning and accidential drowning and ~~ruled~~ there was no evidence of any foul play.

COMPLAINT No.

At approximately 1145 hrs. this date I was told to meet [redacted] of the boat patrol and accompany him to Lake Salvadore. I met [redacted] and [redacted] and we went to Grand Point in Lake Salvadore. We took [redacted] boat.

At Grand Point we saw a blue and white boat anchored approximately fifty (50) to sixty (60) yards from the shore. As we approached the boat we found the boat had the numbers [redacted] on the side. The boat was a Stryker with a 85- HP Evinrude engine on it. The boat had a partially filled beer (Little Pony by Miller) bottle on the front of the boat. Next to and in front of the drivers seat in the boat was a partially filled brandy bottle. ON the floor of the boat there was a blue blanket, a radio (appeared to be an aircraft radio serial #31-08), an ice chest with drinks in it(cokes) a tool box was behind the passenger seat. On the inside of the side of the boat underneath the steering wheel there was an AR-15 serial #SP48192, the weapon had a clip in it but there was no round in the chamber.

We were able to get our boat to the shore and a search of the area was started. Shortly after the search was started Major Doucet arrived in the helicopter. A search was made from the air in the helicopter. Nothing was found.

With authority from Major Diaz the boat was started and driven to [redacted] camp and stored there. Major Doucet came to the camp and the above mentioned radio and the AR-15 was turned over to him. The boat was secur and left in the care of [redacted] and [redacted] for the night. I was told Major Diaz had left orders for me to return to the landing and the search will resume tomorrow (25 Oct 76) if no more information can be obtained concerning the operator of the boat.

Statement of [redacted] b6 b7C

Myself and 2 of my friends went to pass some gill nets cause they had never seen it done before and as we were going I shine my light on a boat and we went over and see if he needed help and when we got there we started talking and subject told us he did not have no guns with him and as I shine my light in the boat I saw a rifle and a pistol in his pocket, so I figure it was better if we move out and we went back to the camp and I told my father [redacted] of what happen and what we had seen, so [redacted] and my father went out later and seen the boat and the subject was laying on the front deck of the boat sleeping and they fired 2 shots at garfish and he never woke up, also he had been in the boat for which he offer us, but we said we didn't care for none.

Next morning my father went out aga and seen the boat with no one in it and we went on land and shouted to see if some one was there.

Subject said he was surveying for ducks for college and the way he talk he had been there for a few days and on his right hand he h a big red, white and blue glove a a big spot light that would throw

NO 245D-11

The way that man talk made no sense to me cause he didn't know which way duck flies, he said also that he always launched around Frank's Place in Des Allemandes and that they told him not to come back too late from the lake. He said that there is some one is watching him and he looked scare.

He told us he had 2 numbers on him meaning some kind of dope, but he had thrown it away, but he was half drunk or something.

He talk to me as if he would be a Narc Agent cause of the rifle and the pistol and he also said that some boat made a few rounds his boat about 50 yards away but he wasn't doing nothing wrong - just watching for duck.
