### NARRATIVE

ARRESTED PERSONS/SUSPECTS: N/A

On 02/15/94 at 1500 hrs. I was dispatched to 111 W. Wilson Blvd. for an unknown type of call. The dispatcher advised me that CRS was on the scene, that a supervisor was en route, and that I would be advised further upon arrival. While en route I heard the dispatcher call another unit (B14) off of a call and send him to cover with me. I then asked the dispatcher if there was a 10-0 (use caution) on the call. She advised that there was. Upon arrival I parked my police car around the corner a few doors down from the location of the call. CRS was not on the scene when I arrived, but as I was getting out of the police car they pulled in front of the house and went running to the front door. I called to them and told them to wait. While I approached on foot I met two young females that were upset and crying. I asked them if they had been in the house, and they advised that they had. I told them to stay right where they were. I then went to the location of the call which was actually 109 W. Wilson Blvd.. The three CRS men were starting to go into the house and I ran up to them and went in front of them. I noticed some papers in disarray at the foot of some steps to the left of, and near to, the front door as I entered there. I proceeded to the kitchen which was only a few feet (perhaps 15 ft.) straight back. I then saw the two victims in the kitchen. I ordered two of the CRS personnel to get out of the house, and allowed (a paramedic with CRS) to check the vitals of the victims. He confirmed that they were deceased. I then ordered him out of the house also. As I approached the stairs and front door I saw that Ofc. Hose (B14) was pulling up in his police car out front. I stepped out the door and told him to get the names of the CRS personnel, and that we had a crime scene. I called dispatch and told them that we needed a detective for a crime scene. A moment later I further advised the dispatcher that we would need a CID supervisor and a detective. I also told Ofc. Hose that no one was to go in the house. I was going to go back in the house to make a better check of the scene, when I noticed that the two females that had been in the house were gone and that an unknown man was standing near the location where I had instructed the two females to wait. I believed by the appearance of the victims and crime scene that what had taken place had happened some time ago, and decided that it was essential to find the two young females. I ran over to the unknown man and asked him where the females had gone. He told me that he was the father of one of the females and had instructed them to leave. He and I located the two young females leaving in a car and had them stopped. I ran into 107 W. Wilson and used the phone to tell dispatch that we had a double robbery/homicide. I then ran out and started to get the names of the four persons that I now had learned were in the house prior to my arrival. This includes the two young females and the unknown man as well as the neighbor at W. Wilson Blvd.. These people seemed ready to leave and

### NARRATIVE

ARRESTED PERSONS/SUSPECTS: Unknown

On 02/15/94 (Tue) at 1504 hrs., I arrived at 109 W. Wilson Blvd. for a suspicious death. I contacted Ofc. WRIGHT reference the incident (see his report). I entered the residence and observed various papers on the floor of the foyer. I continued to the Kitchen, where Ofc. WRIGHT had advised me of the location of the deceased. I observed two victims, both white, one male, one female. The female was seated at the table on the South side, near the sink. The male was laying on the floor with his head toward a doorway, West, that led from the Kitchen to a room where the television was located. There was a significant amount of blood around the upper part of the male's body and head. I also observed that both victims were bound at the hands and feet with what appeared to be dark colored cord. Both victims' heads were covered with what appeared to be pillow cases.

I notified Lt. VOYTKO by mobile telephone reference the situation and requested that he respond and have the Major Crime Scene Unit activated. As I was returning to the residence, the backyard neighbor, a female, had entered the residence from the back door. She passed through the back porch, to the Kitchen, through the hallway, and out the front door. I asked her if she had disturbed anything. Even though she was upset, she advised no. I took charge of the crime scene and posted Ofc. Wayne HOSE to the back door.

Upon Lt. VOYTKO's arrival, I was assigned to the front door of the residence. I was to log the movement of persons as they entered and exited the crime scene. The log is as follows:

### NARRATIVE

This supplement report describes the actions of Det. William Rourke, Det. Ernest Stoner, and Forensic Chemist Jeffrey Kercheval during the afternoon and evening of Tuesday, February 15, 1994.

Detectives Rourke and Stoner, and this writer responded to 109 W. Wilson Boulevard, Hagerstown, Maryland at the request of CID Commander Lt. Robert Voytko to assist with the investigation of a reported double homicide. We arrived at the scene at 1535 hrs. Upon our arrival, contact was made with Cpl. Richard Johnson.

The residence located at 109 W. Wilson Blvd., Hagerstown, Maryland, is a two story single family dwelling. The front door of the residence opens to the south (straight ahead) into an entry foyer/hallway. To the east (left) of the foyer/hallway are steps ascending to the second floor of the residence. To the west (right) of the entry foyer is a family room which opens to the south (left) into a living room. Moving south (straight ahead), the foyer/hallway opens into the kitchen. The kitchen opens to the west (right) into the living room. The back kitchen door opens south into an enclosed back porch and bathroom.

From the entry foyer ascending the steps there is a landing near the top of the stairwell. From the landing, the stairwell turns to the west (right) opening into the second floor hallway. The first door on the south side (left) of the hallway is a bathroom. The first door on the north side (right) of the hallway is a bedroom which was used by Mr. Davis. The second door on the south side (left) of the hallway is a bedroom which was used by Mrs. Davis. The entry to a storage room is located to the west (straight ahead) at the end of the hallway past the bathroom and the two bedrooms. (See sketch of the residence prepared by this writer)

The bodies of the victims were located in the kitchen. A rectangular table was located against the east wall in the center of the kitchen. Mrs. Davis was seated in a chair on the south side of the kitchen table. Her hands were bound behind her and over the back of the chair. Her feet were bound at the ankles. Both hands and feet were bound with black shoe strings. A pillowcase was over the victims head, and her head was resting face down and tilted to her left on the kitchen table. Several apparent stab wounds were present on both the chest and upper back (around the height of the shoulder blades) of the victim.

Mr. Davis was lying on his right side on the floor of the kitchen. His head was located near the door which enters into the living room from the kitchen. His feet were pointing toward the kitchen table. Mr. Davis' hands were bound behind his back, and his feet were bound at the ankles. Both hands and feet were bound with black shoe strings. A pillowcase was also present over Mr. Davis' head. A large pool of blood was located on the floor around Mr. Davis' head and upper chest. Both victims displayed advanced rigor mortis, and livor mortis was fixed.

There was no sign of forced entry into the residence. Inside the first floor of the residence, a light on a stand in the foyer/hallway was turned on. In the kitchen, the overhead light was turned on. A light over the sink in the kitchen was also on. The television in the living room was turned on, and was positioned to channel 25. Papers and articles of clothing apparently originating from a dry sink and cabinet located at the base of the stairs were lying on the floor.

On the second floor of the residence, the hall light was turned on. The bathtub drain was shut, and the bathtub contained approximately 2 inches of water. The tub faucets were off. The light in the bedroom belonging to Mrs. Davis was also turned on. Dresser drawers in both bedroom were either open or ajar, and some of the contents of the dresser drawers were lying on the bedroom floors. A stool present in the bedroom used by Mr. Davis was lying overturned in the center of the floor.

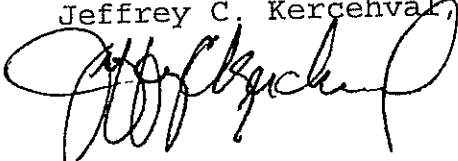

Following an initial viewing of the residence, it was decided that Detectives Rourke and Stoner would photograph the scene. This writer made an overall sketch of the entire residence, and a detailed sketch of the kitchen area.

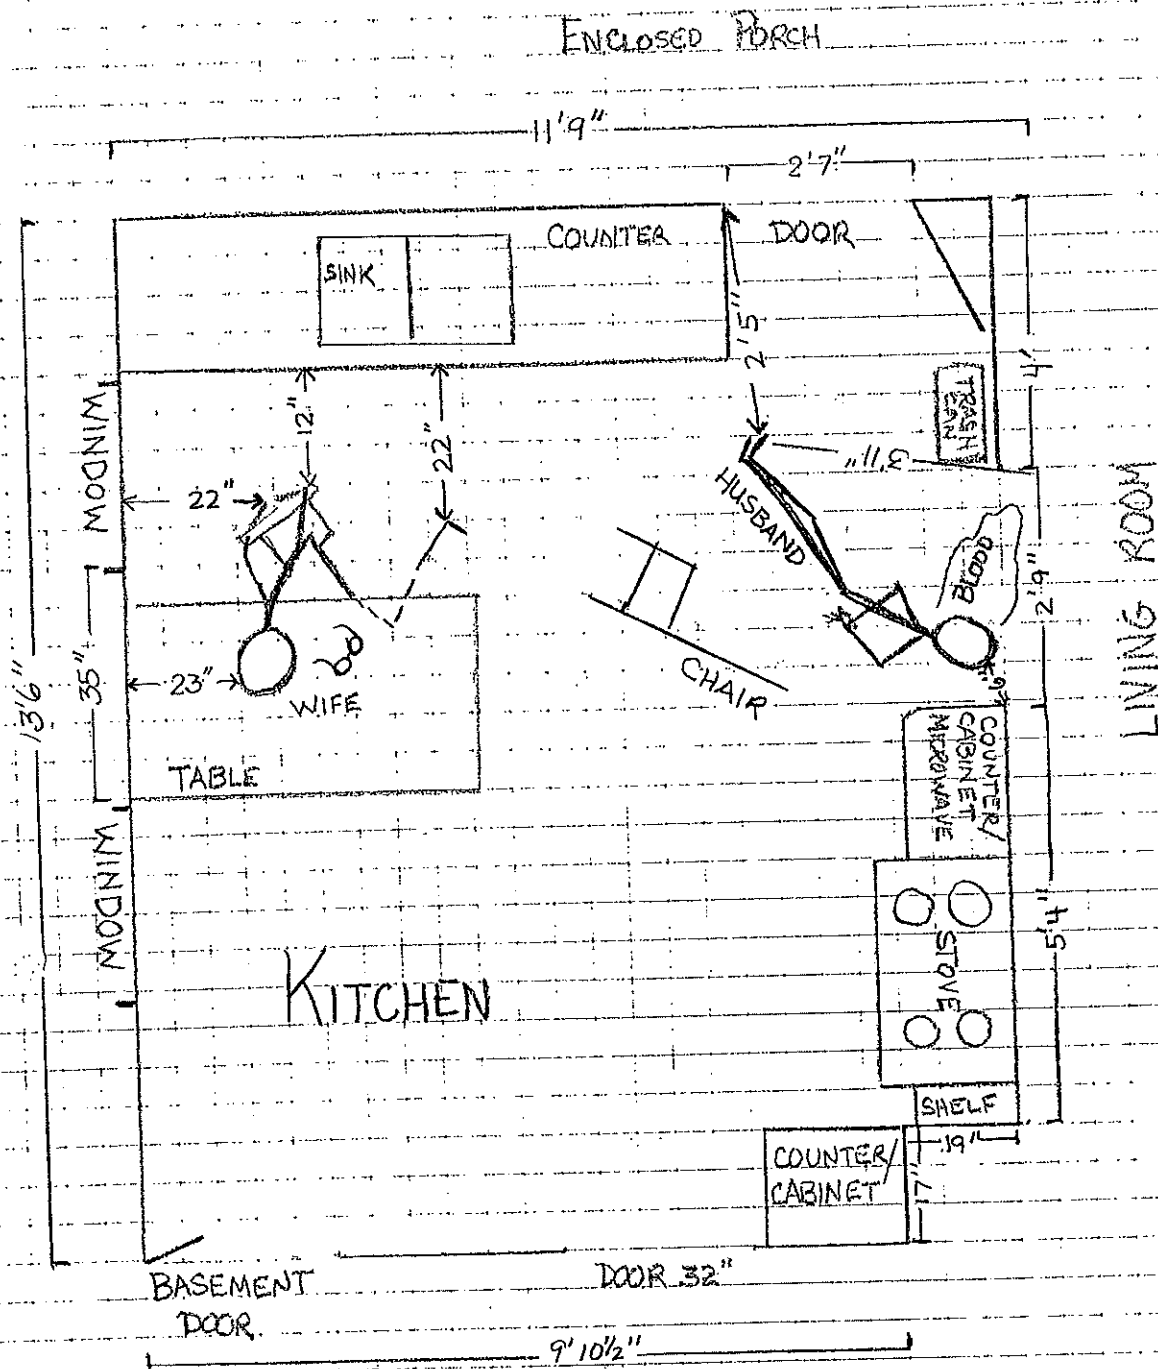

Medical Examiner Dr. Edward Ditto III arrived following documentation of the scene. Upon his departure, Mr. Tom Wetzel removed the bodies from the residence in order to transport them to the State of Maryland Medical Examiner's Office in Baltimore, Maryland.

Evidence collection at the scene commenced at 1855 hrs (6:55 pm). Evidence was collected by this writer, packaged by Det. Rourke, and documented by Det. Stoner. Evidence was collected throughout the residence. Collection of evidence concluded at 2340 hrs. (1140 pm). All evidence was brought to Hagerstown Police Department headquarters and placed in the "bio-hazard" evidence locker.

On 16 Feb. 1994 at 0830 hours information was received by Cpl. Johnson that a bloody glove had been recovered at Garrett St. Cpl. Johnson instructed this writer to make contact with the person residing at that address and retrieve the glove. This writer made contact with - Telephone and the following information was obtained.

On 14 Feb. 1994 between 1600 - 1630 hours and her husband were chopping ice off the sidewalk beside her house and at this time she did not notice anything laying in the street or on the sidewalk. advised that she is the type of person that when she observes something lying on the ground she normally picks it up and throws it in the garbage.

On 15 Feb. 1994 between 0845 - 0900 hours she left her residence to go to the market and when she returned home approximately 30 minutes later, she observed a glove lying beside the curb on the street. According to the location where she found the glove would have been to the front of her parked vehicle so if the glove had been lying there when she went to the market she just did not notice it. stated that as she was leaving for the market she observed a white male between 14-16 years of age walking on Garrett St. with what she believed was something in his hand. stated she was familiar with the subject because he lived in the neighborhood so she circled the block so she could observe the subject and see what he was up to. stated that she routinely keeps her house unlocked and she was afraid the subject may attempt to enter her residence. Upon going around the block she again observed the subject walking on Garrett St. near Guilford Ave. so she proceeded to the market. advised the subject she observed walking on Garrett St. when she left for the market lived at Maryland Ave. Upon her return from the market she discovered the glove.

This writer checked the area where found the glove and discovered that the glove was laying in the street approximately 2 feet from the curb. This writer observed the sidewalk to be clear of ice and snow except for the area where the glove was found. The sidewalk in this area was completely covered with ice making it difficult to walk on. The ice in this portion of sidewalk was being caused by the snow melting on the roof and then running onto the sidewalk.

characterization of \_\_\_\_\_ and \_\_\_\_\_ is that he  
likes both of them but \_\_\_\_\_ "smokes" to much and \_\_\_\_\_ "drinks" to much  
and is to honest.

When talking about the general atmosphere at 610 Chestnut St. he indicated that relationships sometimes became strained but did not escalate into physical confrontations. When talking about the possibility of anyone there being involved in or actually committing the murders at 109 W. Wilson he indicated "he wouldn't want to think so".

He characterizes his relationship with the Davis's as okay with never an argument or harsh word between them. He had borrowed some money from them (\$1000.00) approximately 20 years ago but nothing since then.

On the afternoon of the murders, around 1600 hrs, he and \_\_\_\_\_ went to the Smithsburg area for a home repair estimate. Their vehicle became stuck causing them to be late getting back to Hagerstown. They returned to Hagerstown with him dropping off \_\_\_\_\_ between 1830 and 1845 hrs. He indicates when they got back to Hagerstown he dropped \_\_\_\_\_ off at 610 Chestnut St. without stopping at any other location.

\_\_\_\_\_ indicates the victims had been at 610 Chestnut and his residence in West Virginia in the past. As far as he knew they had no problems with anyone at 610 Chestnut.

He did indicate that he had done some repair work at 109 W. Wilson Blvd. On these occasion (two separate) he took \_\_\_\_\_ on one and Russell Wagner on the other. He further indicated it was possible \_\_\_\_\_ went into the Davis residence to use the restroom but Russell would not have been in the home.

On the day of the murders, either before he dropped \_\_\_\_\_ off or while he was on the way home, Russell Wagner attempted to make contact with him via telephone. \_\_\_\_\_ indicates they did not talk that night but the next day Russell thanked him for helping him with \_\_\_\_\_. Wagner was apparently behind in rent and \_\_\_\_\_ was threatening to evict him. advised he did talk to \_\_\_\_\_ about giving Russell a break.

\_\_\_\_\_ was asked if he ever offered anyone money to harm the Davis's and his reply was "no".

He was also questioned concerning putting up the property at 610 Chestnut St. so Russell and his sister \_\_\_\_\_ could get bonded out of jail on recent drug charges. He stated this is not unusual and has done this in the past for other people.

On the 14th \_\_\_\_\_ was to have stopped at the Davis's to pick up potato salad. He forgot to do this and was going to pick it up the next day. On the 15th he and \_\_\_\_\_ (neighbor and friend), at around 0630 hrs, went by 109 W. Wilson Blvd. A light was on in the kitchen but they did not stop. \_\_\_\_\_ returned to 109 W. Wilson Blvd. around 0830 hrs. this date to pick up the potato salad and deliver some plastic pots. There was no answer.

When talking about the Davis's he said they would open the door for just about anyone. Wilda had poor eyesight, Daniel poor hearing and both had good mental facilities.

### NARRATIVE

ARRESTED PERSONS/SUSPECTS: N/A at this time.

On 12 April 1994 at 1844 hrs. the below Reporting Officer had occasion to conduct an interview with \_\_\_\_\_ at the Hagerstown Dept. of Police. This was in regard to the homicide investigation which had occurred at 109 W. Wilson Blvd., Hagerstown, Maryland.

On this occasion \_\_\_\_\_ was shown the recovered knife and its unique characteristics. This was done to determine if he had ever had occasion to see a knife like this in the past. His reply was that he had seen it at "Russell's" house at 610 Chestnut St. He said it was approximately three months ago in Russell's apartment when he had seen the knife. It was lying on one of the counters. \_\_\_\_\_ cannot recall exactly but thinks he may have handled the knife at that time. He did not see Mr. Wagner handle it or had conversation with him about it. This was the only time he ever saw the knife. When he saw the knife it was in the "T" position. He further advised he had never seen a knife with a unique characteristics like that before.

\_\_\_\_\_ has known Mr. Wagner for about a year or a little less. At the time he met him he (Russell) was working for \_\_\_\_\_ started working at his current job in January of 94. Russell quit his job with \_\_\_\_\_ and started to work with the same firm about a month after \_\_\_\_\_ described Mr. Russell as a friend. They rode back and forth to work.

In describing their work environment \_\_\_\_\_ indicated during the winter months they would generally wear gloves at the construction sites. The gloves they wore were purchased by the employees and were of the brown cotton type. They purchased this type of glove for a number of reason, i.e. they were cheap, you lost them regularly, they got wet and would dry fast, and in bad weather you could use four or five sets in a day.

He was then shown gloves like the one we had recovered. He indicated he had never seen anyone at the construction sites wearing gloves like that and had never seen Russell wearing gloves like that.

\_\_\_\_\_ was of the opinion Mr. Wagner had been terminated from his job. At the construction sites they require you to be a fast mover "its production", "they kind of don't keep you around", if your aren't. Mr. Wagner was apparently not a fast mover.

On the night of the murders (February 14th) when returning from work dropped Mr. Wagner off between 1700 and 1730 hrs at the Southend Shopping Center (Big Lots). indicated Russell wanted to purchase some work gloves. He did not see nor talk to him anymore that night.

He is fairly sure he picked Russell up in front of 610 Chestnut on the 15th to go to work at around 0545 hrs.

It was then discussed with that we had received information that there was a secret someone wanted Mr. Wagner to do and he didn't want to do it. indicated that Russell was afraid they were going to set him out on the street so he stayed at the residence for a few days. He did say he heard from Russell someone wanted him to something but never learned what it was nor who wanted him to do it. He did know that whatever it was Russell told him he did not want to do it.

Russell in subsequent conversations never mentioned what the secret was to

### NARRATIVE

ARRESTED PERSONS/SUSPECTS: SEE ORIGINAL REPORTS FOR DETAILS

On 3 August 1994 the writer contacted Sgt. Fred Wagner and Sr. Trooper Ginger Burcker in reference to obtaining their assistance in this investigation. The writer requested that they apply for a Search and Seizure Warrant allowing them to assist us in searching for evidence relating to this case. The Search and Seizure Warrant was applied for by Tpr. Ginger Burcker and signed by Circuit Judge David L. Sanders of the 23rd. Circuit of W. VA. on 5 August 1994. The warrant was also served on the residence of \_\_\_\_\_ and \_\_\_\_\_ located at \_\_\_\_\_  
5 August 1994 at approximately 1045 hrs.

Entry into the residence was made without incident with \_\_\_\_\_ being the only person home at that time. \_\_\_\_\_ was advised of the reason for the entrance into the residence and given a copy of the Search and Seizure Warrant and copies of an order sealing the affidavit.

The writer along with Detective Wayne Shank assisted in the execution of the search and seizure warrant, which included several members of the West Virginia State Police (see a copy of Trooper Burckers report). During the search of the residence the writer and members of the search team seized numerous items of paperwork, documentation, letters, and items to be viewed as potential evidence in this case. Also upon entry into the residence the search team located a shotgun with the stock sawed off hanging inside the door of the residence. Also located inside the residence in a drawer of \_\_\_\_\_ dresser (rear bedroom) was a pen gun. Those items were seized by the team from West Virginia and will be dealt with under their laws and statutes accordingly. All of the items of potential evidence were seized by the West Virginia search team and then turned over to the writer and Detective Wayne Shank. Those items were returned to the Hagerstown Dept. of Police and viewed to determine their evidential value. The writer along with Detective Wayne Shank and others from the criminal investigation division viewed all the items seized at the residence of \_\_\_\_\_ and \_\_\_\_\_

It was determined that nothing in the seized items had any evidentiary value and will be returned to the owners as soon as time permits. Copies of the S/SW and the orders to seal the affidavit will be placed into the case file for later use by the investigators.

On 4-13-94 at approx. 1715 hours, we interviewed \_\_\_\_\_ at his residence. We asked \_\_\_\_\_ if he recalled on the evening of 2-14-94 driving Russell Wagner to the intersection of Maryland Ave. and Wilson Blvd. \_\_\_\_\_ recalled that he drove Wagner around the block in the area of 610 Chestnut St. but could not recall driving to Maryland and Wilson.

On 4-22-94 at approx. 1020 hours, we interviewed \_\_\_\_\_ in our vehicle.

The interview was audio taped. See the typed transcript of the interview for details.

On 5-26-94, Chemist Jeffrey Kercheval requested the FBI Laboratory to do an analysis in an attempt to determine the hand usage (right or left) of the perpetrator(s) inflicting the victims' stab wounds in connection with this case. See Kercheval's lab report for details.

On 7-5-94, a lab report was received from the FBI Laboratory in reference to this case. The report was in reference to DNA analysis performed on evidence previously submitted to the laboratory. The report indicated that there is a high probability that the blood of both victim's was present on the knife previously submitted to the laboratory. See the lab report for details.

On 7-15-94, Det. Renner submitted photographs of the recovered knife to the Office Of The Chief Medical Examiner's Office. It was requested that the knife be compared to the wounds present on both victims to determine if the knife could have caused the wounds.

Dear Honorable Gigeous:

At your request I reviewed the clothing on Daniel and Wilda Davis, pillow cases recovered from the crime scene, two chairs, as well as, other ancillary items recovered from the scene, multiple photographs of the crime scene with the bodies in their original positions, blood stain evidence at the scene, photographs of the bodies taken at the time of autopsy, autopsy reports on the victims, Jeff Kercheval's report with accompanying diagrams and analysis, the knife in question, the crime scene house (November 7, 1995), and video tape reenactment of the events that occurred on the incident date. In addition, the blood stain evidence at the original crime scene was compared with the crime scene (November 7, 1995) in order to reconstruct and confirm various blood stain patterns.

After review of this information I can offer the following opinions and conclusions:

- The stab wounds on the clothing and bodies are compatible with the knife in question.
- The stab wound paths to both victims, viewed in association with the crime scene, are compatible with a left handed individual.
- According to the autopsies, multiple vital organs were penetrated. The pillow cases, tying of the hands, and multiple wounds clearly indicates the intentional nature of these events.
- The depths of the wounds and overall patterns indicate two additional things. Firstly, in many of the wounds there is complete insertion of the knife. Secondly, it takes a significant amount of force to completely insert a knife through clothing, skin, as well as, other internal structures and organs.

Daniel and Wilda Davis Homicide (C95-041)

- Wilda Davis was stabbed in the front and in the back while seated in the chair.
  - ◊ The impact spatter to the top of the kitchen table and accompanying impact spatter / cast off patterns to the pillow case at the base of the table are noted. No void pattern is appreciated to the top of the kitchen table.
- Daniel Davis was stabbed in the front and back while seated in the chair. Additionally, he could have been stabbed while lying on the floor.
  - ◊ To the left of Daniel Davis's body there is an uninterrupted projection and impact spatter pattern. Cast off patterns are identified on the west wall.
  - ◊ There is a void area identified to the right of Daniel Davis's body. No cast off patterns are identified to the right of Daniel Davis's body.
  - ◊ No cast off patterns are appreciated to the left arm or forearm.
  - ◊ Multiple circular blood stains are appreciated to the back of the pant legs of Daniel Davis. Blood typing should be performed in these areas.

If you have any further questions please feel free to contact me. Thank you.

Sincerely,

Wayne K. Ross, M.D.

### NARRATIVE

Below writer went to \_\_\_\_\_ formally \_\_\_\_\_ on Wesel Blvd. in an attempt to locate \_\_\_\_\_  
I spoke with personnel who advised \_\_\_\_\_ last worked for \_\_\_\_\_ in 2000. They believe he may be with \_\_\_\_\_  
\_\_\_\_\_ in Greencastle, Pa. Below writer called \_\_\_\_\_ and learned that \_\_\_\_\_ use to  
work for them but has since left. \_\_\_\_\_ may be possibly with a television station in Chambersburg, Pa. area.  
Below writer will attempt to locate the station where \_\_\_\_\_ could be working at this time.

On 04/30/08 at approx. 1345 hrs. below writer along with Lt. King responded to \_\_\_\_\_  
\_\_\_\_\_ W.Va. where contact was made with \_\_\_\_\_ daughter of victim's Daniel and Wilda Davis.  
was married to \_\_\_\_\_ at the time of these homicides in 1994.

Upon talking with \_\_\_\_\_ we identified ourselves to her and asked her if she was willing to talk with us  
about the death of her parents. \_\_\_\_\_ agreed and showed us into her residence. \_\_\_\_\_ husband, \_\_\_\_\_ died  
in late 2007 and we believed \_\_\_\_\_ would maybe be willing to talk to us since \_\_\_\_\_ was no longer living. It was  
always believed that \_\_\_\_\_ was possibly behind these murders since Russell Wagner who was convicted had worked  
for and lived at \_\_\_\_\_ residence here in Hagerstown.

When asked if she \_\_\_\_\_ believed her husband was possibly involved in setting up these murders, she said no.  
\_\_\_\_\_ advised \_\_\_\_\_ would never talk with her about her parents deaths, other than to say that he didn't have  
anything to do with their killings and didn't know who was involved.  
\_\_\_\_\_ indicated to us that she didn't believe Russell Wagner was involved either. She doesn't think the police had  
the evidence to convict him.

\_\_\_\_\_ was asked if she received anything from her parents estate after their deaths. \_\_\_\_\_ advised she along with  
her other sister and brother, \_\_\_\_\_ all received money from the sell of their parents property. \_\_\_\_\_ advised  
she received fifty something thousand dollars and used the money to pay off her and \_\_\_\_\_ property and she  
purchased a new vehicle.

\_\_\_\_\_ was asked if she ever heard who was involved if it wasn't Russell Wagner who killed her parents, she said  
no. Asked if she knew a \_\_\_\_\_, \_\_\_\_\_ advised she's heard the name but never met him in person.  
\_\_\_\_\_ advised \_\_\_\_\_ wouldn't talk to her about his friends, or what he was involved in.  
\_\_\_\_\_ was asked who she believed was \_\_\_\_\_ best and closest friend, she advised \_\_\_\_\_ advised  
they were real tight.

From talking with the above listed subjects there is no evidence to indicate that  
had anything to do with the murders of Daniel and Wilda Davis.

On 05/09/08 below writer attempted to contact \_\_\_\_\_ at \_\_\_\_\_ in Chambersburg,  
Pa. since information was received that \_\_\_\_\_ possibly worked there. Upon talking with the receptionist there it  
was learned they never had a \_\_\_\_\_ subject working for them within the last three years or so. Information  
received was that this \_\_\_\_\_ subject was just recently employed at this television station. At this time its unknown  
where this \_\_\_\_\_ subject is employed or resides.

Information obtained will be forwarded to Joe Michaels, Deputy States Attorney for Wash. Co. Md.
